Foreword

I am immensely happy in writing this foreword at a time when controversy regarding the scientific nature of astrology, is at its peak. Astrology is based on astronomical data. That astronomical data is studied in the light of the observations made in last thousands and thousands of years, and transformed into Astro-Sutras. Replication of these Astro-Sutras in more than 65 per cent cases has placed these Astro-Sutras at par with scientific formulae.

The Secret of Vargas unfolds the mystery of the Divisional Charts. These Divisional charts go further to prove the scientific nature of astrology. In case one just wants to have a general reading of the chart, the basic Natal Chart may give general information regarding physical health and happiness. The Hora Chart or D-2 chart gives general information regarding wealth and prosperity. Dreshkona or Drekkana or D-3 Chart throws light on the happiness from brothers and sisters and relations through them. Turyansh, or Chaturthamsa D-4 chart represents fortune and happiness from landed property.

To know about future generation like son or daughter or grandchildren and happiness from them, one should study

Saptamamsa Chart or D-7. The status of lineal descendants of a grandfather would enjoy may be studied through this chart. For instance, there must be something special in the chart of Pandit Moti Lai Nehru who gave birth to Jawaharlal Nehru and Vijay Laxmi Pandit. Similarly, ancestors of Queen Elizabeth must have something special in their charts to indicate that their lineal descendant is still occupying the British Throne. It may be noted that relevant factors in these cases predominantly occupy "...", "...", "... " and "... " Saptamansa.

Navamsha or D-9 Chart is one of the most important chart for it indicates; happiness from the spouse and relations through the spouse. Besides, there are several uses of the Navamsha Chart. Dashamamsa or D-10 chart informs about accomplishments in profession and other public and the social fields; from hobby, to commissions and omissions, and to renouncement of all worldly pursuits. Dwadasamsa or D-12 chart indicates quality of financial and emotional parental support and protection—in short parental bliss, in addition to social, economic and financial status of parents and duration and quality of relations with them. Shashtiamsa or D-16 has two specific roles : one relates to overall consideration and the other relates to qualitative planetary effect in a given situation.

All these 16 Vargas add to precision and accuracy in timing of likely and probable events as well as its qualitative effect on the native, his relations, friends, professional relation, including relations with bosses and superiors.

By prescribing these divisional charts, Rishi Parashar has given the secrets of these divisional charts relating to a particular facet of life. Infact, the meaning and purpose of the divisional

charts is much more deeper than most of us realise, for every divisional chart gives a microscopic view of a particular facet of life at a given time, if seen in the light of Dasa sequence.

These divisional charts may be studied either in relation to the basic chart or totally independently along with the Dasa sequence. Mr. Krishna Kumar has suggested that the comparative study of positions of house Lord and significator planets in birth and Divisional charts, gives better results. The methodology suggested in this book is certainly workable and I appreciate it. But if birth chart is read along with a study of separate divisional charts by giving 1. Unit of + or - as may be the case, each to the concerned house Lord and the significator planet in Rasi chart, as well as, Lagna lord, concerned house lord and significator in specified divisional chart along with major, sub and sub-sub period lords, it may prove a better way to quantification of qualitative results.

I highly appreciate this unique book on methodical study of divisional charts. Shri Krishna Kumar has usefully utilised his talent in two disciplines astrology and engineering. He is Master of Engineering. He has written several books on astrology and each subsequent book indicates his ever increasing indepth knowledge of astrology for worldly success and spiritual achievements.

I believe that this book shall introduce precision and accuracy in predicting probable events and fascinating vistas and new horizons in predictive astrology. It will prove useful to serious students and practising astrologers both. It shall also enlighten critics of astrology about its scientific nature.

Preface

Why divisional charts? The ancient sages declare

भवनादिपैः समस्तं जातक विहितं
विचिन्तयेन्मतिमान् ।
एभिर्विना न शक्यं पदमपि
गन्तुं महाशास्त्रे ॥

The effects of various houses in the horoscope should be predicted according to divisions of the house and its lord. Without knowing the strength of such lords, one cannot move even a step forward in the direction of Astrology.

Any planet occupying its own sign in divisional charts becomes strong, capable of giving good results to the native, during its main or sub-period.

Divisional charts, as the very name suggests give a finer analysis of horoscope. For marriage, astrologers prefer to study D-9 charts, for children they study D-7 charts and for professionals success they study D-10 charts. Thus, different D-charts deals with different aspects of life.

I am thankful to my readers and lovers of Astrology who showed keen interest in my "..." (Results of six Divisional Charts). This book is more exhaustive dealing with Twenty (20) divisional Charts.

My friends Shri A L Jain, Dr. Surendra Sharma Shastri, Shri Sanjay Shastri, Vinay Kapoor and Jagdish Sethi provided material for this book and helped me in proper classification and

analysis of the various charts. I am grateful to them for their co-operation and support. I owe my sincere thanks to Justice S.N. Kapoor, Shri J.N. Sharma and Dr. Nirmal Jindal who worked as the 'Light House of Astrology' by giving me the tools and techniques for analysis of D-charts.

I am grateful to my teachers and research fellows who helped and assisted me, whenever I got stuck or lost the way.

I acknowledge with thanks the assistance received from Shri Rajesh Samuel, Devendra Jain & Mrs. Sudha Gupta in preparation of the manuscript.

Dr. SB. Goyal and Vinay Gupta did the difficult job of editing and modifying the script. I am grateful to them for their valued support and guidance.

Last, but not the least, "... " whatever has been accomplished is because of Gopal (Lord Krishna or the ruler of senses) and one, who says he has done it is indeed a big liar. Only He and not me has done it. If I did something, it would be full of errors and I owe an apology for the same.

Chapter-1

Divisional Charts—What and Why

1.1 Why Divisional Charts ?

Divisional charts play an important role in deciphering the natal horoscope. Various divisional charts represent different aspects of human life. For example D/9 or Navmansh Chart denotes married life and D/7 or Saptmansha chart indicates happiness on account of children or progeny. The basic concept of Division chart is that a planet becomes highly potent by occupying certain degrees or division (of a sign) for certain aspects of life. Very often the strength thus attained by a planet is called 'Vargbal' or Divisional strength.

1.2 Divisional Strength of a Planet

A planet posited in exalted sign, Mooltrikona, own or friendly sign attains strength. A planet occupying Kendra (cardinal points) or Trikona (Trine) associated with Kendra or Trine lord, associated or aspected by a natural or functional benefic planet in a divisional chart is viewed as a strong planet capable of giving good results to the native, during its main or sub-period.

1.3 What a Varg Kundli or Divisional Chart

1.3.1. Janmkundli or Rashi Chart (D/1) : It indicates health, happiness, body structure, colour, complexion, habits, virtues and weaknesses of the person. It is the basic horoscope with twelve houses. Truly speaking a divisional chart is nothing but expansion of a certain house for microscopic analysis. Indeed it is a misnomer to call Rasi Kundli a divisional chart because here each sign is taken as a whole and remains undivided.

Many astrologers on seeing Natal Chart (Janmkundli) and Moon Chart predict future events without making use of any divisional chart. It is similar to an allopathic doctor who treats a patient on the basis of symptoms observed by him without proper elaborate test reports. His experience and knowledge might help him in selecting the proper treatment. But this does not belittle the role and importance of diagnostic studies like blood test, urine test, X-Ray, Ultrasound, ECG etc. Divisional charts play the role of diagnostic studies for interpreting a particular aspect of life.

In Hora chart two royal planets namely Sun and

Moon only are considered for lordship and other planets have no lordship in hora.

1.22 Shashtyansh Chart D/60

A sign is divided into sixty equal parts of 30 minutes each. Counting starts from the sign itself. It shows general happiness of the native. This is a supplementary chart to the basic natal or Rasi chart. For details see Chapter 22.12

1.23 There are twenty charts based on division of the zodiac sign. Under Shadvarg System however, only six charts are studied and their weightage is as under :

	Weightage	Parashar
(i) Rasi chart or Natal chart	5	5

1.28 Twenty Divisional Charts

Saint Parashar followed the sixteen divisional charts or Shodahs Vargas only. However, modern Astro Research scholars make use of D/5, D/6, D/8 and D/11 charts in delineation of the horoscope. These charts are already given in the Annual Horoscope under Dwadashvargas. The learned readers would find application of Dwadash Varg D/1; D/2; D/3; D/4; D/5; D/6; D/7; D/8; D/9; D/10; D/11; D/12 very useful in interpretation of planetary influence on the native. In twenty divisional charts weightage given to a divisional chart is as under.

D/1 = 2	D/5 = 1	D/9 = 0.5	D/16 = 0.5	D/30 = 1
D/2 = 2	D/6 = 1	D/10 = 0.5	D/20 = 0.5	D/40 = 0.5

1.29 Summary

(i) A Divisional chart is in the ultimate a fine analysis based on the finer division of zodiac sign up to sixty parts, (ii) A true and accurate ascendant is a must for preparation of divisional charts. If ascendant is approximate or not accurate, divisional charts might reveal conflicting tendencies making the whole picture hazy or out of focus, (iii) Divisional chart system is used to assess the strength of various planets and their influence on the native

in different fields of life.

- (iv) A planet occupying its exalted sign, mooltrikon sign, own sign or sign of a friendly planet in a divisional chart is considered benefic and thus strong and capable of giving good results.
- (v) Besides the sign, the position any planet occupies Square (Kendra) or Trine (Trikon) in a divisional chart makes him strong. A planet placed in the sign of Kendra lord becomes benefic and strong.
- (vi) Association or aspect of natural benefic planets (Strong Moon, Mercury, Jupiter and Venus) would also make a planet strong and benefic.
- (vii) Contrary to the above, when a planet occupying its debilitated sign, associated or aspected by natural malefic planets like Mars, Saturn, Rahu, Ketu and Sun or placed in the sign of an enemy planet or occupying an evil house (6, 8, 12th house, counted from Lagna), then the planet would become weak and afflicted. It might not give the desired results. The weak and afflicted planet might cause problems and obstructions in his main or sub-period.

1.30 Important

'D' stands for division and to ascertain the position of a planet say Moon in Cancer 4°5' in D-6, D-5 and D-7 chart, follow the simple rule given by Acharya Mukund Daivagna.

Step 1 : Convert planetary position from Rasi to Zodiac degrees. Moon in Cancer $4^{\circ}5'$ would mean $94^{\circ}5'$.

Step 2 : Multiply this by division number and divide by 30 say for D-6, this would mean $94^{\circ}5' \times 6 / 30$ or 19th part running.

Step 3 : Counting from Aries complete the circle of 12 signs. In other words, 19th part would be $19 - 12 = 7$ or Libra. Thus, Moon would occupy the Libra sign in D-6 Chart.

Step 4 : (a) For D-8 Chart $94^{\circ}5' \times 8 / 30 = 25.08$ or 26th part running or $26 - 24 = 2$ Moon would occupy Taurus in D-8 Chart.

(b) For D-5 Chart : $94^{\circ}5' \times 5 / 30 = 15.68$

or 15 part completed and 16 running means $16 - 12 = 4$ or Cancer in D-5 chart Moon would occupy Cancer sign.

(c) For D-7 Chart : $94^{\circ}5' \times 7 / 30 = 21.95$.

or $22 - 12 = 10$ or Capricorn in D-7 chart Moon will be placed in Capricorn.

Note : This rule applies to all divisions where sign number flows without interruption, it would fail in D-2, D-3, D-4, D-10, D-11 etc. It appears that in ancient times all divisions started with Aries only and progressed in the Zodiac sign order.

Chapter-2

Reading a Divisional Chart

2.1 Rules of the game

Before discussing divisional charts individually it would be better to know the rules of the game. The learned readers are already familiar with these rules but freshers might need to know them. So, even at the cost of repetition, these rules, have been compiled at this place to help resolve a dispute regarding strength of a planet.

2.2 Lagnesh of Varga is called Vargesh (Ascendant Lord of Divisional chart is the Lord of Divisional chart)

2.2.1 Ascendant Lord in basic natal or Rasi chart helps the astrologer to place the native in a particular Ascendant group. Ascendant reveals the basic nature, physical and psychological structure of the person. His strengths and weaknesses are also revealed by the ascendant.

2.2.2 Lagna Lord of Varga or the planet ruling ascendant of a divisional chart is called lord of that Divisional chart. For example if the Ascendant in D/7 chart is Libra (sign no. 7). Venus would be termed as D-7 Lord of the native.

2.2.3 Karaka or significator of Varga is called Varg Karak, the placement of Bhava Karaka (significator of house) is

very important in a natal or divisional chart. Each varga kundli or divisional chart is controlled by a significator planet called significator of divisional chart, which plays an important role in that particular field of life of the native.

2.2.4 If Lagnesh, Vargesh and Karak are placed in good houses of a varg kundali, the native would get good results in respect of matters pertaining to that divisional chart. For example an Aries ascendant native, having Libra as ascendant in D/7 chart has Jupiter as its significator. If all three planets namely Mars, the natal lord, Venus D-7 lord and Jupiter the significator of D-7 chart are placed in Angles or trine house in D-7 chart the person would be extremely lucky in case of children. His sons and daughters would bring name and fame to him.

2.2.5 If divisional Lord, natural significator and natal lord occupy a good house (Angle, trine or 2nd and 11th house) in the natal chart, the person would enjoy good results in respect of matters pertaining to that divisional chart.

2.2.6 Some learned astrologers believe that significator planets of natal chart are more important and their position in divisional chart should be studied. Similarly position of Division lord in natal chart (D-1 chart) is important for assessing the benefic results of that varga chart.

2.3 Effects of Planets in House of Divisional Chart

2.3.1 While studying a divisional chart, look for placement of planets in different houses. A planet posited in 1, 4, 5, 7, 9, 10 and 11th house of divisional chart gives auspicious

results. A planet in 2nd house gives good results in case of financial matters but bad results for family relations since it is 8th from 7th, the house of wife (or husband for female natives).

2.3.2 Digbali Grahas, or planets acquiring directional strength in a divisional chart become auspicious and strong capable of giving good results.

Planets	House of full strength	House of zero strength	House of half strength
1. Mercury and Jupiter	Ascendant First House	Seventh House	4 H; 10 H*
2. Moon, Venus	Fourth House	Tenth House	1H; 7H
3. Saturn	Seventh House	First House	4H; 10H
4. Sun, Mars	Tenth House	Fourth House	1H; 7H

(* 4H means 4th house, 10H means 10th house etc.)

2.3.3 The planets posited in 3, 6, 8, 12 house or associated with their lords namely 3L, 6L 8L, 12L in a divisional chart are inauspicious and cause bad or evil effects regarding matters of that divisional chart.

2.3.4 Exceptions : Saturn in 8th house, Mars in 6th house and Venus in 12th house always give good results.

2.3.5 6L in 8H or 12H; 8L in 6H or 12H; 12L in 6H or 8H would give good results forming Vipareet Rajyoga or auspicious reverse combination of planets. Such a person after initial setbacks would achieve progress and prosperity in the second half of life.

2.3.6 3, 6, 10, 11 houses are called Upchaya or progress houses. Placement of natal lord, divisional lord or malefic planets i.e. Sun, Mars, Saturn, Rahu, Ketu or natural functional malefic planets namely 3L, 6L, 8L or 12L in these houses help the native to make progress in life.

2.3.7 The planets posited in good houses of D-chart (divisional chart), would give good results even though they are weak, ill placed or functionally malefic in the natal chart (D-1). Similarly benefic and strong planets of natal chart, if ill placed, debilitated or conjunct with enemy or natural malefic planets in D-chart would not give the desired results during their main or sub-period in matters pertaining to the D-chart.

2.4 Effects of planets in exaltation or own sign in D-chart

2.4.1 A planet occupying his exaltation, mool trikon or own sign in D-chart would give auspicious results to the native.

2.4.2 A planet occupying 6, 8, 12 house in a D-chart, even though exalted, would not give good results because of his ill placement in an evil house.

2.4.3 A planet which is debilitated, combust or sharing house with the enemy planet or occupying an enemy zodiac sign in a D-chart would give bad or poor results.

2.4.5 In D-chart a planet occupying the same sign as he is in the natal chart, would become vargottam (excellent for D-chart). Such a planet would give very good results to the native. Some scholars prefer to consider D-1 and D-9 charts only for vargottam.

2.4.6 Jupiter's aspect (or association) with planet in an evil house in a D-chart, reduces, or sometimes even nullifies, the evil effects of weak/ malefic planet.

2.4.7 Except lagna lord (Ascendant lord) of the natal chart (Rashi chart) no other lordship should be taken into account while considering a D-chart.

2.5 D-chart and Dasha System

2.5.1 Though sage Parashar stressed the importance of lordship and placement of Dasa and Antar Dasha Nath (Planetary Lord of main and sub-period) in natal chart to interpret results yet many modern scholars apply these rules successfully to D-charts as well.

2.5.2 If Dasa lord occupies an evil house or is otherwise weak in D-chart, it would cause problems, tension and obstruction in matters related to D-chart.

2.5.3 All canons of delineation of horoscope could be applied to D-chart, as well. Most important is the position of Lords of main period and sub-period in the D-chart. To have good and auspicious results they should not be in 6/8 or 2/12 position from one another.

2.5.4 Remember that main or sub-period lord if debilitated or ill placed in a D-chart would give bad or evil results in matters pertaining to the D-chart.

2.5.5 A planet posited in ascendant of D-chart gives good results in all matters relating to that D-chart. Similarly Varg

lagnesh or Lagna Lord of D-chart always gives benefic results. Varg lagnesh if posited in 8th house of natal or navamansh (D-1 or D-9) chart turns malefic and gives evil results.

2.6 Interpretation of D-60 chart

If a divisional chart is the finer analysis of a horoscope then D-60 (each part of 30 minutes only) is the finest and thus most important for assessing benefic effects of the planet.

4.11.2 D/2 Chart (Hora chart) is different from all other charts, since it has only two houses and not twelve. One is ruled by Sun (the Atma, self or super ego) and the other one is ruled by Moon (emotions, feelings of the heart, sympathy and desires).

The planets in Moon's hora show inner desire and perceived needs where as the planets in Sun's hora, denote the much needed energy gained or acquired by the native to fulfill those needs.

Drekkana or Dreshkan is one third of the sign. When a zodiac sign is divided into three equal parts, we get drekkans of 10 degree each. The first drekkana belongs to the same zodiac sign, second part falls in fifth from the sign, third part falls in 9th from the sign.

द्रेक्कानपाः प्रथम पंचनवाधिपानाम्

The Shastamsh Chart

(D-6 Chart)

8.1. What is D-6 Chart ?

8.1.1 As the very name suggests, a zodiac sign of 30° is divided into 6 equal parts, each covering a space of 5 degrees of the zodiac belt.

8.1.2 For odd signs counting starts from Aries and for even signs counting starts from Libra onwards. If Moon is at $16^{\circ}8'$ in Cancer sign, counting would start from Libra each part is of 5° only. Thus the Moon occupies the fourth part belonging to Capricorn. In other words, if in the natal chart this Moon is posited in Cancer in D-6 chart Moon would find place in Capricorn.

9.16 Use of D-7 chart

9.16.1 Example. Aparna 17 March, 1970 Agra 23.40 hrs

9.16.2 Analysis D-1 chart (for happiness from children)

- (i) **5th House (5H)** : 10L Sun along with 7L Venus is posited in 5H.
- (ii) **5th Lord (5L)** : 5L Jupiter is posited in 12H and there is exchange of sign between Jupiter & Venus. 5L is aspected by Mars the Lagna Lord & Saturn 4L
- (iii) **Significator Jupiter** is posited in the sign of Venus in 12H and Venus is exalted in 5H.
- (iv) **5th from 5H or 9H** : The ninth house (9H) is occupied by Moon. Moon is posited in her own house.
- (v) **5th house from Moon** : is Scorpio, 5L Mars aspects 5H. So 5H from Moon is aspected by its Lord.

Note : Exchange of Jupiter & Venus, Moon in own sign in 9H and in Moon chart-5H is aspected by its lord indicate auspicious results.

9.163 D-7 Chart

- (i) **Ascendant** : 5L Mars alongwith 7L Saturn is posited in ascendant. Ascendant lord Moon aspects the ascendant. There is exchange of sign between Saturn & Moon.
- (ii) **Fifth House & Fifth Lord** : There is no planet or planetary aspect on 5H. 5L Mars is associated with Saturn (7&8L) is debilitated in ascendant. Aspect of ascendant Lord Moon on ascendant serves as cancellation of debilitation of 5L.
- (iii) **Jupiter** is ill placed in 6H in his own sign associated with Venus (5L from Moon).

Note : Apparently the chart is bad and weak because of debilitation of 5L and ill placed Jupiter. However association of 5L & 7L in lagna of D-7 chart and aspect of lagna lord on lagna gives benefic influence.

9.16.4 Fact : The native gave birth to a female child in September, 1998 in Mercury-Rahu-Mercury period. Mercury receives aspect from Jupiter, natural significator for children and thus is capable of giving children. Mercury is Atma Karak planet as well.

D-1 Chart

D-7 Chart

9.17.1 D-1 Chart : 5H is aspected by 5L and Jupiter the natural significator for children. 5H from Moon is occupied by Rahu. The native would have children.

9.17.2 (i) D-7 Chart : Ascendant is Virgo and Ascendant Lord Mercury is posited with Mars and aspected by its dispositor Venus.

(ii) 5H is occupied by Moon in inimical sign. 5L Saturn occupying its own sign aspects Jupiter while 5H is aspected by Mars the dispositor of Jupiter.

9.17.3 Comments : The native would have children but might not enjoy happiness from them.

9.17.4 Facts : The native was born in the main period of Venus with a balance of 3 years 3 months only.

Rahu is posited in 5H from Moon in D-1 chart and receiving aspect of Saturn (5L) in D-7 chart could give children to the native.

9.18 Example 3. Dr. B.V. Raman

9.18.1 D-1 chart

- (i) **5L Mercury** is associated with 9L Ven & 10L Mars in 7H.
- (ii) **Jupiter** as 11 & 2L posited in 10H is aspected by Lagna Lord Saturn & Moon. 10H is aspected by 10L Mars.

9-18.2 D-7 Chart

- (i) Ascendant is occupied by Moon receiving aspect from Jupiter 9L.
- (ii) Ascendant Lord Mars posited in 9H is aspected by 9L Jupiter, associated with 7L Venus in 5H.

(iii) **Fifth House** is occupied by Jupiter, Venus & Ketu.

(iv) **Fifth Lord Sun** posited in 3H is aspected by Mars 1L and Rahu.

9.18.3 Comments : The native would be lucky to have children but would face some problems from them as well. Reason is 5H in D-7, falls in Rahu-Ketu axis and 5L receives aspects from Mars 8L & Rahu. Association of Mars, Mercury and Venus would improve professional achievements through children because in D-1 chart, 11L Jupiter from 10H aspects 5H and Venus 9L is posited with 5L.

9.19 Conclusion

- (i) D-7 Chart indicates bliss from children. Lagna and Lagna Lord in D-7 chart if afflicted would delay birth of children. Please see example of Aparna.

- (ii) Association or aspect of Lagna lord with 5H or 5L in D-7 chart would make native fortunate in having bliss of children. See example of Dr. B.V. Raman.
- (iii) Influence of benefic and malefic planets on 5H, 5L and Lagna of D-7 chart would give mixed results. The native would have children but might not enjoy much happiness from them. Please see example of J.F. Keneddy. Here in D-7 chart 1L Mercury is associated with Mars as 8L and Ketu but receives aspect from Venus as 9L. Moon as 11L occupies 5H but 5L occupies own sign and associated with enemy planet in 6H. Shri Keneddy had a beautiful wife and children but he was shot dead when his children were very young.

The Ashtansh Chart

(D-8 Chart)

10.1 What is D-8 ?

10.1.1 When a zodiac sign is divided into eight equal parts of 3°45' each this 1/8th division is called Ashtansh and the division chart based on this division is called D-8 chart.

10.1.2 For planets located in a movable sign the counting starts from Aries. For planets posited in fixed sign counting starts from Sagittarius and for planet occupying a dual sign the counting starts from Leo. Please note that three fiery signs become the starting points for movable, fixed and dual sign.

10.1.3 One school of thought believes that counting should start from 1 st Fiery sign Aries in case of planets in movable sign. For planets in fixed sign counting should start from Leo the 2nd Fiery sign and for planets in dual sign counting should start from Sagittarius. They say counting for movable sign should start from movable sign Aries, for fixed sign starting point should also be in fixed fiery sign Leo and counting in case of dual sign must start from dual fiery sign Sagittarius only.

10.1.4 Prof. V.K. Choudhry, M.B.A. a renowned scholar of Astrology has followed the principle of continuity and unobstructed flow of sign nos. In southern parts of India a few scholars follow the second principle. In this book the continuity principle advocated by Prof. Choudhry has been followed.

10.2 Application of Ashtansh

10.2.1 One eighth division of a sign is the foundation of D-8 chart. It is the expansion of 8th house of the natal chart dealing with longevity, death, disaster, demotion, humiliation, insult, loss of power and position, etc. 8th house in natal chart, also deals with inheritance, occult studies, research and inventions.

10.2.2 D-8 chart is used to study the longevity of native and timing of death. Some learned astrologers can tell the circumstances, place and cause of death by analysing D-8 charts.

10.2.3 D-8 chart can also be used to assess the property inherited by the native, his hidden talents, innovation and success in research projects.

10.2.4 As stated earlier, D-8 chart is an expansion of 8H in natal Horoscope indicating disaster, demotion or dismissal, The learned astrologers predict transfer, and migration to far off places, insult, humiliation and even death from D-8 Chart. Many scholars use this D-8 chart to study longevity only.

- (ii) **D-8 Lagna Lord Moon** posited in 7H aspects lagna in D-1 chart.

D. **Discussion**

D-1 Chart : Since Mars the dispositor of Moon is debilitated, its aspect on Lagna would mean short span of life. Exchange between 11L and 12L may be good for financial status but is bad from the health point of view. In D-8 chart Lagna is aspected by Saturn 8L receiving aspect of Rahu-Ketu again confirms short to middle span of life.

10.5.3 Results : The native died at the age of 35 years in Moon-Jupiter period. Moon is Lagna lord in D-8 chart may indicate death during her main period. Jupiter sub-period Lord occupied 8th house from main period Lord Moon.

Chapter-11

The Navamansh Chart

(D-9 Chart)

11.1 What is Navamansh ?

11.1.1 When a zodiac sign of thirty degrees is divided into nine equal parts, one gets 9 parts of $3^{\circ}20'$ each. One ninth part of the sign is called Navamansh and this chart is called Navamansh chart or D-9 chart. First Navamansh of Aries is Aries, Second is Taurus, Third is GeminiSeventh is Libra, Eighth Scorpio and ninth part is Sagittarius. First part of Taurus would be Capricorn, Second Aquarius, Third Pisces, Fourth Aries Seventh Cancer, Eight Leo and Ninth Virgo. First Navamansh of Gemini is Libra and last part is Gemini from Aries to Cancer 4 sign would make Parts completing three cycles of the zodiac sign. First part of Leo and Sagittarius would be Aries only.

Degrees	Part No.	Zodiac Sign no.			
		1, 5, 9	2, 6, 10	3, 7, 11	4, 8, 12
0-3°20'	1	1	10	7	4
3°20'-6°40'	2	2	11	8	5
6°40'-10°	3	3	12	9	6
10°-13°20'	4	4	1	10	7
13°20'-16°40'	5	5	2	11	8
16°40'-20°	6	6	3	12	9
20°-23°20'	7	7	4	1	10
23°20'-26°40'	8	8	5	2	11
26°40'-30°	9	9	6	3	12

It is interesting to note that

Sign	Element	Starting pt
1, 5, 9	Fire	Aries 1
2, 6, 10	Earth	Capricorn 10
3, 7, 11	Air	Libra 7
4, 8, 12	Water	Cancer 4

All theses sign groups start from a moveable sign of that group.

11.1.2 Vargottam : A planet which occupies the same sign in natal D-1 chart and D-9 is called Vargottam (excellent in division) planet. Such a planet is considered very strong and auspicious, capable of giving benefic results, during transit and sub or main period. First part of moveable sign, 5th part of fixed sign and last part of dual sign is Vargottam.

Zodiac Sign No.	Part of D-9 Chart
Moveable 1, 4, 7, 10 Fixed 2, 5, 8, 11 Dual 3, 6, 9, 12	First Part 0-3°20' Middle Part 13 °20'-16°40' Last Part 26°40'-30°0'

II.1.3 Counting in D-9 Charts

(i) Counting of nine parts, starts from the zodiac sign itself in case of a moveable sign. Thus first part of Aries is Aries, first part of Cancer is Cancer, first part of Libra is Libra and first part of Capricorn is Capricorn itself.

(ii) In case of fixed sign, counting starts in 9th from itself.

Fixed Sign	First Part is
2 Taurus	2+8 = 10 Capricorn
5 Leo	5 + 8 = 01 Aries
8 Scorpio	8+8 = 04 Cancer
11 Aquarius	11+8 = 07 Libra

(iii) In case of Dual signs the counting starts from 5th sign from itself.

Dual Signs	First part is
3 Gemini	3+4 = 7 Libra
6 Virgo	6+4 = 10 Capricorn
9 Sagittarius	9+4 = 01 Aries
12 Pisces	12+4 = 04 Cancer

11.1.4 Classification of Natives (Divine, Human and Devil)

- (i) A person born with Moon in first 4th or 7th part of sign is called divine.

11.1.5 Importance of D-9 Chart

- (i) D-9 chart is most important amongst all Divisional Charts. Here zodiac belt with twelve signs and 27 Nakshatras (Constellations) is divided in 108 parts. In other word Navamansh or 1/9th part of sign represents 1/4 part of Nakshatra as well. **First quarter of constellation indicates Dharma, Religion, second quarter indicates Finance (Artha), third quarter denotes love, affection and desire (Kama), fourth quarter of constellation denotes liberation, Freedom and Bliss (Moksha).**

- (ii) Navamansh (D-9) Chart is the backbone and Rasi Chart (Natal Chart) is the body.
- (iii) D-9 Chart is fruit and D-1 Chart is tree. If D-9 is like an X-Ray photograph showing inner parts then D-1 chart is merely a photograph.
- (iv) We may compare D-1 chart to Mahadasa and D-9 chart to Antardash. In a nutshell D-9 chart is a subtle division (Sooksham Vibhag) and D-1 chart is gross (Sthoola Vibhag).
- (v) The wise saints observed that a planet occupying exalted, own or friendly sign in D-9 chart, would give good and benefic result even though placed in debilitated or inimical sign in D-1 chart.
- (vi) The learned astrologers believe that a planet ill placed or afflicted in D-1 chart would give benefic results, provided its position is improved by aspect, association and lordship in D-9 Chart.
- (vii) Many astrologers observe Moon chart alongwith D-1 Ascendant Chart. They would do well if D-9 chart is also seen along with D-1 chart to study malefic or benefic effects of the planet.

11.1.6 Use of D-9 Chart

- (i) The wise sages use D-9 chart as supplementary chart to D-1 chart. Some prefer to call it a test chart or a confirmatory chart to D-1 chart observations. The astrologers would study brother from third house, mother from fourth and children and education from fifth house in D-9 chart.

- (ii) Some saints use this chart to study marital bliss married life and conjugal happiness of the native. They also study in the status of in-laws, nature, and their cooperation to the native from D-9 chart.
- (iii) A few astrologers believe D-9 chart to be extension of 9th House in natal chart. They believe fortune, father and relationship with brother and sister in-laws should be studied through D-9 Chart. They further believe, since marriage and children play an important role in happy life, D-9 chart throws ample light on these aspects but more than anything else it reveals religious attitude (significance of 9th house) and potential fortune of the native.

गृहवत् नवांशदपि

(iv)

The D-9 chart should also be analysed house-wise just like a natal chart.

11.2.1 Children

- (i) In D-9 chart, if 5th house from ascendant is occupied or aspected by benefic planet, the native gets happiness from children.
- (ii) If 5th Lord in D-9 chart is associated or aspected by benefic planets the native gets children.
- (iii) If 5th house and 5th lord in D-9 chart is associated with or aspected by malefic or evil planets the native may be worried about his children.

- (iv) If 5L of natal chart is posited in Kendra or trine of D-9 chart the native will be fortunate to have noble children. They would help the native to progress and prosper in life.

11.2.2 Marriage

- (i) In D-9 chart if lagna lord is exalted, occupies Mool trikon or own sign, or
- (ii) 1L of D-9 chart occupies strong and benefic position in other divisional charts and is not associated or aspected by malefic planets, the native gets a beautiful, intelligent and illustrious wife bringing fortune and good luck to the native. The native progresses and prospers after marriage.
- (iii) **Timing of Marriage** : (a) In D-9 chart if 1L is placed in Kendra (1, 4, 7 or 10H) the native is married early.
- (b) If lagna lord of D-9 chart occupies trine position (5H or 9H) the native is married slightly late but usually normal age.
- (c) If D-9 lagnesh occupies an evil house (say 6H or 8H) or is associated with malefic planets (Saturn, Mars, Rahu, Ketu and Sun) the native would be married in later years of life say after 30 years of age.
- (d) If affliction of lagnesh is severe the native might remain unmarried.
- (iv) **Virtuous or Vile Partner** :
- (a) In D-9 chart if 1L is debilitated or occupies an evil house and is associated with malefic planets, the native marries a vile person.

- (b) If Lagnesh of D-9 chart is exalted, associated or aspected by benefic planets, or occupies kendra/trine house the native begets a virtuous, noble and affectionate life partner.
- (v) **Happy Marriage** : In D-9 chart if 7H and 7L are associated with or aspected by benefic planets or Venus is well placed in D-9 chart the native is happily married.
- (vi) In D-9 chart if 7L is Sun or Mars the native is affectionate, loyal and faithful to his wife with no extra marital relations.
- (vii) In D-9 chart if 7H is occupied by Sun and Mercury the native might have physical or emotional relationship with 2 women.

Results of Lagna Lordship in D-9 chart are discussed below :

11.3.1 Sun as lagna lord in D-9 chart : The native would have a well proportioned body, curly hair, and fair complexion. He would be brilliant, serious, religious, courageous, capable of satisfying women sexually and well behaved. He may see ups and downs in matters of finance, may suffer on account of children or could be cruel, revengeful and destroyer of enemies.

11.3.2 Moon as lagna lord in D-9 chart: The native would be beautiful attractive, noble, virtuous, religious with a medium size body structure and hairy skin. He is very wealthy, prosperous, happy with beautiful eyes and attractive clothes.

11.3.3 Mars as lagna lord in D-9 chart: The native has fair complexion, brown hair, round eyes and a cut mark on the head. He bends forward slightly while standing or walking. Sometimes such a native could be adulterous, cheat, wicked, greedy, interested in wife's money and destroyer of foes.

11.3.4 Mercury as lagna lord in D-9 chart: The native has beautiful eyes, shining soft skin, long beautiful curly hair, broad chest, well proportioned body and beautiful teeth. He loves truth and justice and is blessed with wealth, wisdom and happiness. He is expert in commercial dealings and thus earns handsome profits. He is intelligent, famous and free from enemies.

11.3.5 Jupiter as lagna lord in D-9 chart : The native is tall, handsome with beautiful eyes, lovely hair and blue lotus like complexion. Sometimes such a native could be sinful, an atheist or follower of other's religion with limited income. Some learned astrologers believe that such a native suffers loss of wealth because of punishment given by the king or due to theft.

11.3.8 Progeny through 5L in D-9 chart

- (i) Here the sage Parashar highlights the importance of 5L of D-9 chart for happiness from children. If 5L is aspected or associated with benefic planets the native gets noble children. If 5L is aspected or associated with evil planets the native suffers on account of children.
- (ii) There is a second school of thought which interprets this sutra as 5L of natal chart if aspected by or associated with benefic planets in D-9 chart, the native is happy and contented with his children. On the other hand if 5L of natal chart in D-9 chart is afflicted by association or aspect of evil planet the native is worried on account of his/her children.

listen to others, wicked and a sinner. This navamansh is most inauspicious and thus **gives bad results**.

- (iv) If Lagna occupies a navamansh of a friendly or benefic planet or a functionally benefic planet, the native would enjoy good results. He will be handsome, generous, modest, wise and wealthy.
- (v) Some scholar believe that if Ascendant in D-9 chart falls in Taurus, Gemini, Virgo, Libra, Sagittarius, Pisces, the native would be healthy, handsome, happy, helpful, progressive and prosperous.

He is sensitive, sympathetic, helpful and virtuous. If the evil planets are exalted or Vargottam in D-9 the native becomes arrogant, ungrateful irresponsible, haughty, poor and is troubled by the governing authorities.

11.25 Promise of Progeny in D-9 Chart

11.25.1 In the D-9 chart, if Mars is posited in the 5th house and Jupiter occupies the 4th house the native is blessed with an odd number (1, 3, 5) of children. If Mercury, Venus

or Saturn are related to the 4th or 5th houses through aspect or position the native gets an even number (2,4,6) of children.

11.25.2 If the third house 3H has Leo (sign no. 5). The 5th house (5H) is occupied by Jupiter and Ketu. Saturn in 6H, Sun in 7H, Mars in 10H and Rahu in 11H—the native would be devoid of happiness from children or might suffer loss of children.

This combination is possible only in Gemini Ascendant. If a significator of a house occupies that house, he would destroy the results provided it is afflicted. Thus, the position of Jupiter in 5H is not good for children. Mars as 6L aspects 5H which again is bad. 5H is in the Rahu-Ketu axis, which is malefic for children. Both signs of Jupiter (Sagittarius occupied by Sun 3L and Pisces occupied by Mars, which is 6L and 11L), are occupied by malefic planets. That is the reason why this combination is considered bad for happiness from children.

11.25.3 Loss of Son or Daughter : If a malefic planet such as 12L occupies 3, 6, 9, 12H and a combust planet or Ketu occupies 5H the native suffers loss of son or daughter.

This principle would hold good when the ascendant sign no. is 2, 6, 9 or 12. In these cases Mars, Sun, Mars and Saturn would be 12L and a malefic planet. 12H being 8th from 5H inflicts death on the progeny. When Ketu or a combust planet occupies 5H the bhava would become weak and thus be incapable of giving good results.

11.25.4 Son or Daughter : Strong and unafflicted planets associated with 5H in D-9 chart, decide the number of

children. Male planets (Sun, Mars, Jupiter) would give son and Moon, Mercury or Venus posited or aspecting 5H would give daughter. If Saturn associates or aspects 5H there could be an abortion. Some wise scholars insist on studying the D-9 chart considering Moon as lagna as well.

11.25.5 Happiness from Children : The 5H in D-9 needs careful study. The influence of malefic and benefic planets by position or aspect on 5H needs to be studied. In case of benefic effects the native gets happiness and comfort from his children but in case of affliction of 5H through aspect or position of malefic planet the native suffers on account of children.

11.26 Timing of Marriage

11.26.1

In the D-9 chart if Ascendant lord occupies 7H, and 7L is posited in 12H, the native gets married in the 23rd or 26th year of age.

11.26.2

If the sign of 8H in the natal chart becomes 7H in D-9 chart and Venus occupies lagna of D-9 chart the marriage takes P'ace in the 25th year or 33rd year of age.

11.26.3 Important : These statements amply prove the point that late marriage or adult marriage existed in ancient India.

The reason for this is that 9H denotes father or elderly persons who would support the native. The

boss is also responsible for the promotion of the native and so, is denoted by 9H. Similarly subordinate staff the help and assist native like his own children and is thus denoted by 5H.

12.3.5 In D-10 chart Lagna is self, 6H is service and 10H is success or power attained. The third houses from these namely 3H, 8H, 12H could cause problems during the period of their planetary lordship. 8H denotes retirement, 3H shows short leave while 12H shows long leave.

12.3.6 If 1L is posited in 9H the native loves to be his own boss and business is best advised in such charts. The second house indicates availability of finance for starting a business. The quadrants to 2H are 5H, 8H and 11H indicating money put in by a partner, loans from bank and self finance respectively.

12.3.7 Rahu in Lagna of D-10 chart shows fluctuations in fortune and changes in the natives career.

12.3.8 Association of Sun-Saturn in 6H or 10H from Moon in D-10 chart leads to conflicts with superiors and thus an unsteady position in profession.

12.3.9 Planets in quadrant (Kendra) of D-10 chart give promotion and profits during their main period or subperiod. Planets occupying trine (trikon) or 5L, 9L would give favour and fortune through friends and superiors in their main or subperiods.

malefic or debilitated planet occupying 10H would cause problems in profession during its main or subperiod.

12.3.11 Association of Mars and Saturn or other malefic planets with 10H or 10L could result in bad reputation or insult to the native.

Chapter-13

Ekadasansh

(D-11 Chart)

13.1 What is D-11?

13.1.1 When a zodiac sign is divided into 11 equal parts of $2^{\circ}43'38''$ each, the division is called D-11 and a chart using this division is called the D - 11 chart.

13.1.2 Here, the counting starts in reverse order leaving the sign where the planet is located. Suppose Moon is $4 : 28 : 52 : 28$ its Ekadasansh would be

Leo $28^{\circ}52'28''$ or $28.8744 / 2.7272 = 10.58$ or 11th division.

Counting backwards from Cancer (Leaving Leo where the Moon is located) we get 6 or sign Virgo.

13.2 Purpose of the D-11 chart

13.2.1 It is an extension or expansion of the 11th house of the natal chart indicating gains, profits, success and progress of all types. Some people study black money, gains from gambling, speculation, lottery or unearned money from the 11th house. If the 11th House or 11th Lord is strong and favourable, status, power and authority is enjoyed for a long time and if unfavourable, the same is denied (or lost) to the native.

13.2.2 D-11 chart is also called the Rudransh chart, based on the eleven forms of Lord Siva. Rudra indicates something dreadful, terrific, frightful or formidable. Rudras are supposed to be an inferior manifestation of Lord Siva. Some astrologers study death and disease from the D-11 chart. They consider the eleventh house as sixth from 6H and thus malefic from the health point of view.

13.2.3 Some astrologer use D-11 chart, not for profit or gains but to study malefic effects on the native. They say malefics if located in first or eighth house of D-11 chart may cause defeat or death in their period. Saturn in 8H in D-11 might disturb peace resulting in mental agony.

13.2.4 We shall study and verify the above facts through some examples.

Sign	1	2	3	4	5	6	7	8	9	10	11	12
First division 0-2°30'	1	2	3	4	5	6	7	8	9	10	11	12

In other words first nine dwadashansh as may be taken as nine navamansh of a sign and 10, 11, 12th dwadashansh as are similar to 7, 8, 9 navamansh only.

15.3 Lordship of Divisions

Brahma, Vishnu, Mahesh and Sun are four lords ruling sixteen divisions in a cyclic order in the odd sign. For even signs this order is just reversed and become Sun, Mahesh, Vishnu and Brahma.

Lord in odd sign	Part Nos	Lord in even sign
Brahma	1, 5, 9, 13	Sun
Vishnu	2, 6, 10, 14	Mahesh
Mahesh	3, 7, 11, 15	Vishnu
Sun	4, 8, 12, 16	Brahma

- (i) **Brahma** is the supreme being, the creator, the first deity of the sacred trinity to whom is entrusted the work of creating the world. Mythologically Brahma is represented as being born in a lotus, which sprang from the navel of Vishnu. It denotes intellect, creativity, beginning of something new and application of knowledge to create something new.
- (ii) **Vishnu** is the second deity of the sacred trinity entrusted with the preservation of the world. He is responsible for **sustenance** or maintenance of religion and noble virtues. A planet occupying Vishnu division would maintain or continue noble traditions of luxury and life. The native would preserve the old vehicle through planned maintenance by repairing or replacing the worn out parts.
- (iii) **Mahesh** is a very powerful and a **magnanimous** lord capable of destroying all evil. He consumed

poison to save the world. He gives happiness and bliss by destroying old, obsolete and unworthy objects giving way to new and the noble, having lofty aims or aspiration.

Sun gives power, authority, glory, fame and kingdom to the native. A planet posited in D-16 part ruled by the Sun would indicate royal comforts and luxuries. However a malefic planet might cause injury through a vehicle accident.

- (i) D-24 Siddhansh chart should be studied for the educational achievements and higher studies of the native.
- (ii) Some learned scholars advise us to study 9H and 9L besides 5H and 5L for higher studies. The logic behind this seems to be that 5th from 5th house works as a vital force for educational achievement.
- (iii) Some astrologers believe that success in big projects should also be studied from the D-24 chart. Trine and quadrant houses under the benefics would give success to the native.
- (iv) Similarly, association or aspect quadrant and trine lord in D-24 would make the native intelligent and learned.
- (v) As Moon represents the mind, Mercury indicates the learning process and Jupiter is knowledge, their strength and benefic association in the D-1 and D-24 charts would make the native intelligent and a highly educated person.

- (vi) 11H or 11L in D-24 denotes gain of wisdom or higher education and not money.
- (vii) D-24 chart is an extension of the 5th house—the house of education—so it should primarily be studied for educational achievements only. However, freindship, development of mental faculties, authorship of books or success with the help of friends may also be studied from the D-24 chart.

19.15 Native's behaviour as revealed by the D-30 chart

19.15.1 The author of 'Mansagri' has made some interesting observations regarding the character of the native. He

says that while studying the D-30 chart, due consideration should be given to the strong planets and their characteristics. If the chaste and noble 'Satwaguni' planets are strong—the native would be virtuous and noble. The predictions should be made considering the background, family history, local customs and social norms of the native. What was sinful in the olden days is quite normal today. In certain societies unwed mothers or extra-marital relations are a common phenomenon.

19.15.2 Division of Planets : Sun, Moon, Jupiter—**Satwik** (noble, virtuous) Mercury, Venus—**Rajsik** (passion, activity) Mars, Saturn—**Tamasik** (vicious, dark, ignorant)

- (i) If **Sun** is posited in ascendant the native is capable, skilful, efficient, rich and respectable.
- (ii) If **Moon** is posited in ascendant the native is beautiful, forgiving, pious, tolerant, affectionate and helpful.
- (iii) If **Jupiter** is posited in ascendant the native is truthful, religious, learned, judicious, generous and engaged in social service.

19.15.3 When **Satwaguni** planets are strong the native would be kind, sympathetic, truthful, pure at heart and a worshipper of deities and noble people. He is able to control his mind and senses.

19.15.4 When **Rajoguni** planets (Mercury, Venus) are strong the native would love art and music. He is guided by passions and not by reason. He is bold, brilliant, aggressive.

courageous and determined. He is ambitious and works hard to achieve his goals.

19.15.5 When **Tamoguni** planets (Mars, Saturn) are strong in the D-30 chart the native is fraudulent, illusive, lazy and fond of sleeping too much. Tamas shows mental darkness, illusion, ignorance and grief. Satwaguni planets on the contrary show knowledge, light, enthusiasm, confidence, charity and nobility.

19.15.6 Mixed nature If planets of different categories are strong the native is influenced by good and bad effects resulting in strange and unpredictable behaviour. The wise astrologer should give strength to Satwaguni planets enabling the native to help himself grow and serve the society to the best of his ability. Only merits and virtues make the person reputed and respectable.

19.16 Comments

- (i) The 'Gunas' are basic characteristics or ingredients of one's nature and behaviour. **Satwa** stands for knowledge, enlightened mind, purity, truthfulness, charity, service and sacrifice. **Rajas** denotes passion, possession, obsession and cause of great activities. The person is restless and ambitious. He loves power and authority **Tamas** denotes darkness, dullness, illusion, ignorance and grief. The native shuns all activities and sleeps excessively.
- (ii) If most of the planets in D-30 are either exalted or posited with benefits in a friendly sign, the native is

enthusiastic, religious and a respected person. Such planets give position and power to the native.

- (iii) A planet occupying own trinshansh gives strong results corresponding to the house it owns in the natal chart.
- (iv) A weak planet badly posited or associated with an enemy planet in D-30 chart would give evil effects corresponding to the house owned by the planet in the natal chart.
- (v) In female horoscopy, due caution needs to be taken while giving bad predictions. The astrologer must look for cancellation or degree of malefic effects. Even if he is sure of his finding, bad results should be told to the female native only in total privacy and never before the members of her family.

Khavedansh Chart (D-40 Chart)

20.1 What is Khavedansh ?

20.1.1 When a zodiac sign is divided into forty equal parts, each of 45 minutes, the part is called D-40, or Chatvarinshansh or Khavedansh and a chart based on these parts is called the D-40 chart.

चत्वारिंशद् विभागानामधिपा विषमे क्रियात्
समभे तुलतो ज्ञेयाः स्वस्वाधिपसमन्विताः।
विष्णुश्चन्द्रो मरीचिश्च त्वष्टा धाता शिवो रविः

(बृहत्पराशर होराशास्त्रम् 7 28-29)

20.12

One fortieth part of a sign is Chatvarinshansh. For planets in the odd sign, counting starts from Aries and for even sign this counting starts from Libra. Lord Vishnu, Moon, Marichi, Twashta, Dhata, Shiv, Sun, Yama, Yaksh, Gandharva, Kaal and Varun are the 12 lords of these parts, making three rotations for 36 parts and the remainder four parts are under the control of Vishnu, Moon, Maricha and Twashta. Lordship of these parts is the same for even and odd signs.

Akshvedansh Chart

(D-45 Chart)

21.1 What is Akshvedansh ?

21.1.1 When a zodiac sign of thirty degrees is divided into forty-five parts of 40 minutes each. Each part is called D-45. A chart based on these parts is called Akshvedansh or D-45 chart.

21.1.2 तथाक्षवेद भागानामधिपाश्चर भेक्रियात् ।

स्थिरे सिंहाद् द्विभे चापात् विधीशविष्णवश्चरे ॥

(बृहत्पराशरहोराशास्त्रम् 7 30)

For planets posited in a moveable sign, counting starts from Aries, for a fixed sign counting starts from Leo and for dual signs counting is to be started from Sagittarius onward.

21.1.3 ईशाच्युतसुरज्येष्ठा विष्णुकेशाः स्थिरे द्विभे ।

देवाः पंचदशावृत्या विज्ञेया सुरसत्तम ॥

(बृहत्पराशरहोराशास्त्रम् 7 31)

Lords of these parts are Brahma, Shankar and Vishnu and these names have fifteen rotations to complete forty five parts. However, their order is as follows :

Moveable sign	1. Brahma	2. Shiva	3. Vishnu
Fixed sign	1. Shiva	2. Vishnu	3. Brahma
Dual sign	1. Vishnu	2. Brahma	3. Shiva

21.1.4(i) Brahma is the supreme spirit, the creator of this universe, pious, having sacred knowledge of the Vedas.

(ii) **Vishnu** : The second deity of the sacred triad is entrusted with the preservation of world. He is the law-giver and is responsible for the well-being of society and the maintenance of social order. He protects the righteous and destroys the evil.

(iii) **Shiva** is a combination of fit: auspiciousness, calm, peace, tranquility and 3 means residence, dwelling or the ocean. Thus, Lord Shiva is an ocean of auspiciousness, peace and tranquility. Shiva means the healthy, happy, prosperous and fortunate.

(iv) Thus a planet occupying the Brahma division would enhance creativity, Vishnu division would preserve and help in progress, while Shiva would give peace and tranquility.

- (ii) Akshvedansh or Panchchatvarinshansh (D-45) is used to assess and evaluate the strength and auspiciousness of planetary effects.
- (iii) The wise scholars say that since $9 \times 5 = 45$, thus D-45 deals with both trines : 5th and 9th house. In other words, the results of good deeds in the past birth and impact of religious rites performed in this life are to be studied from D-45 chart.
- (iv) Some other astrologers argue that 45 divisions would mean 3 complete rotations of 12 houses with a residue of 9. Thus fortune, father and religious activities and other significators of the 9th house should be studied from the D-45 chart.

We shall study a few examples for better understanding of D-45 chart.

Chapter-22

Shashtiyansh Chart (D-60 Chart)

22.1 What is Shashtiyansh?

22.1.1 When a zodiac sign is divided into sixty equal parts of 30 minutes, each part or division is called Shashtiyansh or 1/60th part of a Rashi. A chart based on this division is called the D-60 chart.

22.1.2 Counting starts from the zodiac sign in which the planet is posited. Say the Moon is 5:17:28. Since one degree is equal to 2 Shashtiyansh it means that the Moon has completed 34 Shashtiyansh and is occupying the thirty fifth division. Dividing 35 by 12 we get 11 as remainder and 11th from Virgo is Cancer. In other words, the Moon would occupy Cancer in D-60 chart.

22.1.3 षष्ट्यांश्छिलमीक्षयेत् । (बृहत्पराशरहोराशास्त्रम् 8:5)

All results should be ascertained using the D-60 chart.

22.1.4 All 60 parts are controlled by different deities. Some are benefic and others are malefic. Thus planets occupying a benefic division (1/60th part) would give good results in their main or sub-periods. Contrary to this planets posited in malefic parts, would result in evil effects to the native.

22.1.5 D-60 chart is very useful for understanding and appreciating the difference in the behaviour of twins born in the same lagna & the same planetary position.

22.2 Purpose of D-60 chart

- (i) As the very name suggests, here a sign is divided into 60 equal parts, giving very fine analysis of planetary auspiciousness and strength.
- (ii) D-60 chart is studied for assessing overall strength and promise of the horoscope. It is not related to a particular aspect of life but covers the happiness and sorrows of the native in general.
- (iii) In Divisional charts D-1 is the basic document and D-60 is the finest division which may be compared to C.T. Scanning in Medical Sciences.
- (iv) The real strength and influence of a planet and planetary period are studied through the D-60 chart.
- (v) Some wise scholars study bad or malefic effects of planets using the D-60 chart. They say $10 \times 6 = 60$ so disease, litigation, debts and problems created by enemies should be studied using the 6, 8, 12 houses of D-60 chart. Business rivalry and loss to business and social status should also be studied from D-60 chart.
- (vi) Others say that $12 \times 5 = 60$; five rotations of all 12 houses make sixty, so a planet in a benefic division (1/60th part benefic), well-placed and associated with friendly benefics, would be 5 times stronger. Thus, the auspiciousness of planets should be confirmed by the D-60 chart.
- (vii) Others believe Upasana, Jap and religious rites and their impact should be studied from the D-60 chart. Let us discuss a few examples to have a better understanding of the subject.
