CHAPTER 1

DELINEATION OF BIRTH CHART

पत्रं पुष्पं फलं तोयं यो मे भक्त्या प्रयच्छति ।

तदहं भक्त्युपहृतमश्नामि प्रयतात्मनः ॥

Gita chapter 9/sloka 26

I gladly accept leaves, flowers, fruits and water offered by a devotee with full devotion.

By delineation we mean describing ideas, thoughts and events through drawings, picture or sketches, here it is horoscope. To decipher the charts for astrological predictions is an art called "Delineation of horoscope".

An artist draws a picture to convey his feelings and expressions. On seeing that picture one can form a story, the artist had in his mind while drawing that picture. This is an art. The experienced person (means either one who knows the art or one who has by experience learnt to read such pictures etc.) can read and understand that story. Same is the case with the poem.

In astrology a chart depicting the planetary positions is cast for any event which has occurred, such as birth of the native or when a

query is put. An astrologer is to read such a chart and draw a picture in his mind to reveal the past and future events. This is possible after a proper study of the accurately cast horoscope. The position of planets in different vargas, the strength of the planets etc. are all to be considered. Thereafter the study of the order of the Vimshottari dasha (one of the many dasha systems) also helps in predicting event. In order to use electricity, we need two wires — one for positive and the other for negative current. The single wire will not be of any use. The double wire will help us in bringing the current to a particular switch board, from where we can light the bulb, or the fan, use heater for cooking etc. There may be similar planetary positions in two horoscopes but the difference in dasha order may change the trend of events in the lives of the two natives concerned.

Say one has a promissory note, unless the maturity date comes, the payment is not possible. If there is a cheque, but after the expiry period of six months from the date of issue, the payment is not possible. There may be good yogas (combination of planets) present in the chart, unless the favourable dasha comes it is not possible to get their results. It has been seen, that the effects of yogas are not enjoyed in full. The reason is that the favourable dasha has not come at the proper time. For example — The native having Tula lagna gets the dasha of Saturn at the early age, can rise in life and get better placement rather than getting this dasha at fag end. It is necessary to properly delineate the horoscope before giving any prediction.

Procedure to delineate :

- (a) Check the degrees etc. (longitudes of the planets).
- (b) Prepare vargas (divisional charts).
- (c) Calculate dashas and antardashas.
- (d) Analyse the position of each bhava lord, i.e. where it is posited, how it is connected with other planets through aspects, association or position (P.A.C.)¹.
- (e) The effect of the planets on the bhava either by aspect or by position.
- (f) The position of the bhava lord i.e. its relationship (friendly/enmity) with the lord in whose nakshatra and navamsha it is posited.
- (g) The avastha² of planets.
- (h) The rashi sandhi etc. it is said that a planet in sandhi is not capable of giving results. So also a planet whose avastha is baal or mrit is weak and cannot give its effect. A planet in last degrees (9th navamsha) of a dual sign will be called vargottam (being in same navamsha), may be in own or in friend's sign etc. but will be in *rasi sandhi* or *rasiant*. Similarly a planet posited in first navamsha of a movable sign will be vargottama. If it is in own or in friend's nakshatra but can be *baal* or *uridha* or *mrit* (dead) avasthas so it needs proper analysis. The results have to be derived at after a

 2. These are nine showing the strength of the planet. Refer the Book on Predictive Astrology.

careful consideration of all the points and after a study from all angles.

Vargottam means strong. Venus in Pisces (Meena) between $26^{\circ}40'$ to 30° will be vargottam and also exalted (if not exact on 27° , will be near exaltation point), will be treated as strong, though it is in "rasiant" and "baal avastha" (Infant). To interpret the results of such a planet what needs is a serious consideration.

A planet is vargottama (very strong) and in mrit avastha (weakest).

FACTORS

It is not so easy either to condemn or to appreciate the position of the planet. The complete study of the horoscope i.e. to study the position of the planets and all bhavas keeping in view all the factors such as :

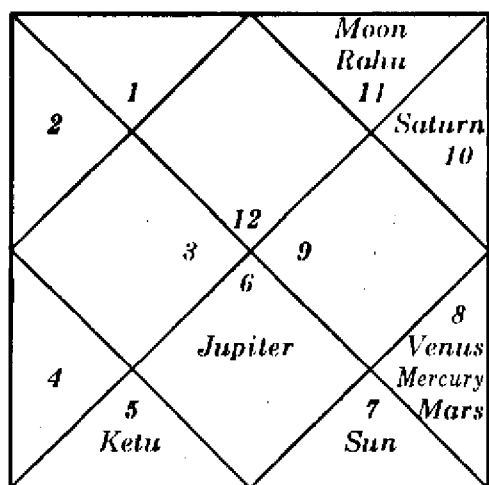

- i. The nature and characteristics of the planets.
- ii. Their karkatvas (the work, house, persons etc. represented by the planets).
- iii. The nature and characteristics of the sign (rashi) of which the planet is the lord and also of the sign in which the planet is posited.
- iv. Their nature, characteristics and relationship, if it is associated with other planet.
- v. The nature and the characteristics of the nakshatra and its lord in which planet is posited.

For example Mars posited in Satbhisha or Aridra nakshatra. In both the cases Mars is posited in Rahu's nakshatra. Mars will inherit the effects of Rahu or will also have to act on behalf of Rahu. Aridra nakshatra falls in Gemini whose lord is Mercury. Satbhisha falls in Aquarius whose lord is Saturn. If we also take the case of Mars being posited in Swati nakshatra which falls in Libra whose lord is Venus. Will the effects in all the three cases be similiar? No! Mars is neutral to Saturn and enemy to Mercury. Mercury is neutral to Mars. Saturn is enemy to Mars. One enemy and other neutral means enemy and is badly situated. **Aridra** gives affection for friends and brothers, nature to do the obligation, anger and mercilessness.

Satbhisha makes the native courageous, donor and clever. He destroys enemies. It can be concluded that Mars in Aridra, in addition to the effects of Rahu, will give effects of Mercury's sign, Gemini (dual sign, male sign, airy sign, odd sign etc.) and in addition the nature, characteristics, karkatwas and lordship of the bhavas of Mars. The native will be commander, of hot temperament, courageous, reasonable and just in nature (being lord of Aries and Scorpio). He will be affectionate towards own men, help the needy, merciless for the enemies (being in Aridra constellation). The person will be wise, will have more than one wife, fond of dancers and singers etc. He will have strong shoulders, broad chest (being posited in Gemini) and so on. The same method can be adopted to interpret the position of Mars in Satbhisha and Swati.

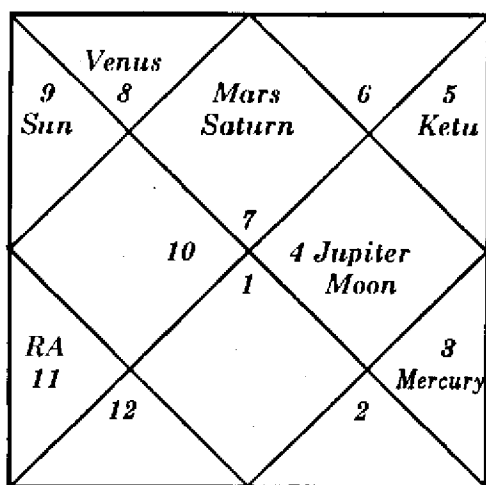

The following illustration will further clarify the views :

Lagna 7-4			
Moon 25-33 Rahu 1-55	Male 29-10-1933 15-52 hr Delhi		
Saturn 16-58			Ketu 1-55
	Mars 21-33 Ven 27-59 Mer 6-27	Sun 12-41	Jupiter 17-37

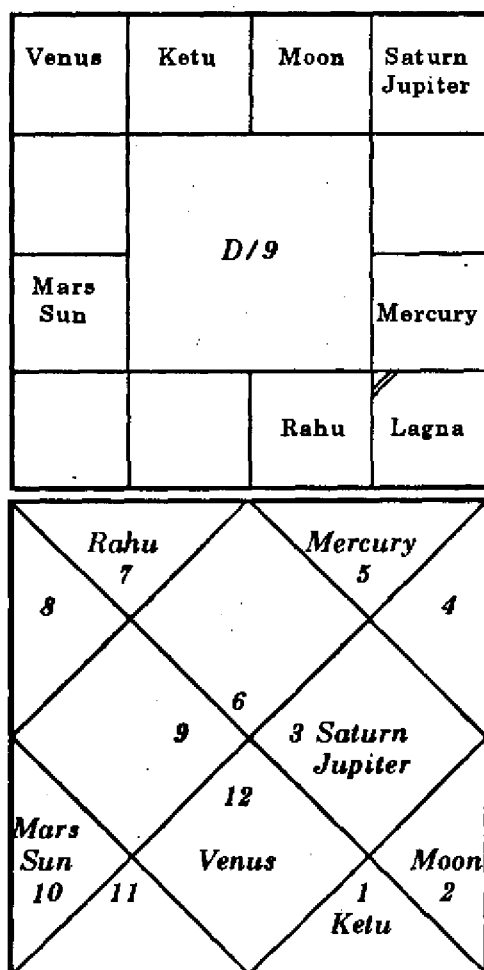

A. Lagna Lord "Jupiter" is posited in seventh house, the house of death and also representing spouse. In Mercury's sign (enemy's sign). Jupiter is lord of a kendra posited in another kendra (a benefic being lord of a kendra is posited in kendra carries "kendrhipatya

			Mercury

dosha”), in the nakshatra of the Moon (friend) and receiving no aspect. Jupiter is also lord of tenth house another kendra. Jupiter has no planet in kendra from its position and only a malefic planet (Saturn) is posited in Trikona. In navamsha Jupiter is in Mercury’s (enemy’s) house with a neutral planet Saturn. Saturn is a friend of Mercury.

The following points are to be considered to assess the effects of Jupiter in Virgo (Kanya):

- (i) Jupiter is lagna and tenth lord. (Two bhavas are involved, the effects of each will be interpreted separately).
- (ii) Jupiter is in seventh house, hence the seventh house is also influenced. The aspect of Jupiter on eleventh and third house, is influencing these houses.

Ketu (Madan)	Moon (Dhwaj)	Venus (Madan)	Sun (Pashu- dhar)
	<i>D/24</i>		
			Saturn (Pashu- dhar)
Lagna Mercury Mars (Maya)			Jupiter (Govinda) Rahu (Madan)

(iii) Jupiter carries with it —

- Position in enemy's house.
- Posited in the house of **Badhaka-kadhipati** (lord of the house of obstructions) the Mercury.
- Jupiter being lord of kendra (Square) and posited in kendra — **Kendrardhipatya Dosha**.

- d) Jupiter being posited in kendra is considered the best, it is said – **Kimkurvanti Sarve Graha, Yasya Kendra Brihaspati** meaning all the planets put together can not do any harm to the native, who has Jupiter posited in kendra.
- e) In navamsha – Jupiter is posited in Mercury's sign (enemy's sign) and with Saturn (neutral to Jupiter, but friend of Mercury).
- f) It is said :-
"Sthanhanikaro Jeeva" the position of Jupiter in seventh house will destroy the effects of the seventh bhava.

B. Analysis :

Here we have considered few points only even though some more points are to be considered. In general, astrologers do not consider all these points before giving predictions. Simply read the horoscope and interpret the effects of the situation as under :

- I. i) Jupiter is the lord of I and X houses and is posited in seventh.
- ii) In navamsha Jupiter is posited in Gemini.
- iii) Jupiter is not aspected by any planet
 The prediction will be that the native will have good married life.

II. If we wish to enjoy this great science, the points discussed above may be elaborated thus:

Jupiter the lord of the lagna is posited in seventh house. There is connection between the lord of I and VII house. As Jupiter is a most benefic planet, the position of Jupiter shows happiness from the life partner (marriage). Jupiter's position in the Moon's constellation (the Moon is the lord of fifth and close friend of Jupiter) is again very good. The native will be attached to his wife. The fact that there is no malefic aspect, is all the more favourable. The Moon with Jupiter makes **Gaja kesari yoga**. The position of Jupiter in the constellation of the Moon shows better future after marriage.

Jupiter's position in enemy's house will be bad for the lagna and X house. Jupiter will act like Mercury (being posited in Mercury's sign) the seventh lord. Mercury is Badhakadhipati, Jupiter may cause obstruction as regards professional rise. (Jupiter being tenth lord in 7th and the dispositor Mercury in ninth house). Carrying Kendradhipatya dosha and being posited in Badhaka house, Jupiter may cause obstructions in career. Being lord of lagna Jupiter is exempt from Kendradhipatya dosha.

Jupiter's position in kendra is the fool proof safeguard. If there is any Arishta (trouble), the impact of the trouble will be reduced. Jupiter is in sixth navamsha, which is very near to the point of exaltation. (the 7th navamsha of Virgo falls in Cancer). It shows that Jupiter has gained strength in navamsha. Jupiter is **Uchchabhilashi** in navamsha chart.

In my view this method is to be adopted to clearly understand the principles of astrology.

To judge the bhavas, the delineation of the horoscope i.e the position of the lord of bhavas in various vargas (divisional charts) is also to be considered.

C. Strength of first bhava:

To consider the strength as well as the actual position regarding the results of the bhavas, the following three points should be taken into consideration.

- a) Bhava (house)
- b) Lord of the house
- c) Karaka planet of that house

The formula P.A.C. (Position, aspect and conjunction) is to be applied for all three points given supra.

- (i) For health of the native, the other factors are also to be considered. The position of Jupiter as discussed above shows that the lagna lord is not strong and well placed. The native, therefore, will not be in a position to do well in life, he will try to pose much, but will not get success. Jupiter will not give better results, as he is not posited well.
- (ii) **Lagna** is aspected by the lord of the sign (Jupiter) and thus getting strength. The aspect of Saturn on lagna is not good. In navamsha the lagna falls in Mercury's sign. Jupiter is also posited in Mercury's sign in Rashi as well as in navamsha. Mercury will have more influence on the native than Jupiter. The aspect of second and ninth lord Venus on navamsha lagna is good. The lord of the navamsha lagna is

aspected by Saturn and Mars. Lagna does not show any improvement in strength in navamsha chart also. The progress in life will depend on the strength of other houses and their lords.

- (iii) The Moon, a Karaka for health, sound physique, about the general condition of native's thinking etc., is posited with Rahu in Aquarius, eclipsed in twelfth house (not good) in the nakshatra of Jupiter (good), aspected by Mars (a malefic) which is not good. There is no benefic aspect. In navamsha the Moon is in exaltation sign (good) but on one side a malefic is posited and on other side, with malefic a benefic is posited but she is between Ketu and Saturn (not very bad, mixed results). The health of the native will not be very good, may be affected during the dasha of malefic planet (which depends upon the order of dasha), may be in advance age. There is a question mark regarding health of the native. The Sun* karaka of first

* The Sun is described as karaka for first house :-

Here I would like to submit that in my experience I have found that the Moon should be considered as karaka for the first house. No objection if the Sun is considered as karaka. In astrology lagna, Moon lagna and Sun lagna, all the three play an important role. It is suggested by learned astrologers that the horoscope should be read or judged from the strongest lagna out of these three. According to this also there should be no objection by the readers to treat the Moon as karaka for the first house.

My humble submission is that the Moon is to be considered as karaka for the first house while analysing the position about the health of the native. For other purposes such as the capacity to rise in life, the general outlook of the native etc. can be known from the Sun taking him as karaka for first house.

The Moon is directly connected with the circulation of blood. The circulation of blood is always responsible for the upkeep of the health. The diseases concerning mind, general health, blood etc. are also governed by the Moon.

house is debilitated and afflicted by Saturn, posited in eighth house, in the house of an enemy, in navamsha too in the sign of bitterest enemy and afflicted by Mars.

Had lagna being strong, the native would have done better in life. In this case the lagna is aspected by lagna lord, the lagna lord is posited in kendra from lagna, Saturn aspects lagna and no benefic aspect on lagna lord. The native will be fairly strong but will have no support as there is no benefic aspect. The lagna lord is in **Paapakartari yoga**. In case of health problem or any other problem, the native will face difficulties either to pull on or to solve the problems of life. he would suffer.

D. Education

Let us take another aspect of the life i.e. education. As advised by the learned astrologers, for education the study of second, fourth and fifth houses, karakas Mercury and Jupiter and also the ninth house is necessary.

(i) For education take the following houses and karakas :

- | | |
|----------------|----------------------|
| (1) 2nd house | (2) 4th house |
| (3) 5th house | (4) 9th house |
| (5) 11th house | (6) Mercury |
| (7) Jupiter | (8) 2nd from Mercury |

(ii) The fifth lord Moon is posited in twelfth house (sign of Saturn) with Rahu and aspected by Mars. The aspect of Saturn on 5th house is also not good. The Moon is posited in Jupiter's nakshatra. Moon is in

exaltation sign in navamsha and having no aspect, (the position has improved in navamsha).

The position of the 5th lord and 5th house in rashi chart is not favourable. The karaka Jupiter is in enemy's sign and afflicted by Saturn in navamsha and by Rahu and Ketu in chaturvimsamsa. But both are afflicted. There is exchange of houses by Mercury and Jupiter (lord of lagna and 10th house) in chaturvimsamsa. Mercury is afflicted in rashi, navamsha and also in chaturvimsamsa. The exchange of lagna lord and tenth lord of chaturvimsamsa (good), the position of lagna and fourth lord Jupiter with Rahu and the position of tenth lord Mercury with Mars in lagna, disturbs education. Therefore the native may not have good education.

- (iii) The native is born with the balance of Jupiter's dasha. The dasha at the time of education was of Saturn (lord of eleventh and twelfth) who is aspecting 5th house. The affliction as discussed above may result in the native's not getting any higher education.

E. Houses Concerning Education

There is a controversy regarding the houses or bhavas concerning education, but in my opinion there is need of considering all these bhavas. My humble submission is as under:

- (a) **Second house** : The house of speech. First of all the native learns how to speak. Secondly he may be sent to school (kinder

garden or Nursery) for initial education. We can say upto fourth or fifth standard.

(b) **Fourth house** : The native learns from the family members and the society about the manners, social etiquettes etc. The education in school upto twelfth standard. The moral and social values are acquired because of the company of friends. The fourth house is domestic life, the atmosphere around and the company enjoyed by the native. Some times the native is interested in education but the family circumstances are not found favourable. There can be a halt or break in education, the reason can be financial problem (6th house) or marriage. If these hurdles are overcome, the native can go for higher education.

(c) **Fifth house**: The native has grown up and can think about his future and can plan for the prosperity in life. Here he learns from his experience gained in day to day activities and also from the incidents of others' lives. He gets education upto graduate level (say B.A., B.com., B.E. and MBBS etc). This is also the house of intelligence and planning.

After fifth house, the native gets the effects of the sixth house i.e. earning (sixth is service, house of wealth and ARTHA TRIKONA), then the seventh KAAM TRIKONA the house of marriage and after this the house of marital bliss (eighth).

(d) **Ninth house** : It is the house of higher education i.e. post graduation

Higher education is possible only when the native is not interested / or compelled for immediate earning of wealth and marriage (activation of sixth and seventh house). Here the native becomes quite mature after doing his graduation and can understand the importance of higher education.

- (e) **Eleventh house** : It is the house where the native starts earning, but still continues acquiring proficiency in education i.e. doctorate, M.D., M.S. etc. and also gets money through scholarship or service.
- (iv) **Progeny** : Another aspect of human life, connected with the fifth house, Jupiter and ninth house is progeny. The analysis in the above example shows that the position of fifth house, fifth lord and Jupiter is not very favourable. The ninth house is also to be considered. The Moon is afflicted in twelfth with Rahu and aspected by Mars. Saturn afflicts fifth house also. The positions of fifth from fifth house (ninth house) Scorpio, fifth from the Moon (Gemini) and the fifth from Jupiter (Capricorn) is very good. The ninth house has Mars (second and ninth lord) in own house, Mercury (fourth and seventh lord) and Venus lord of third and eighth. There is no malefic effect on ninth house and also on ninth lord.

The lord of the fifth house from Jupiter is posited in his own house and aspected by Jupiter.

In **Saptamsha** there is exchange of lord of first and second house. Saturn and Mars two

malefics in lagna (not good) but Mars is second and seventh lord posited with fourth and fifth lord Saturn which is exalted, causing Raja yoga, which shows good results. These have formed a powerful Raja yoga in which 5th lord is involved. Jupiter is exalted in tenth with the Moon. This is very good situation. The aspect of Saturn on Jupiter (not good) but Saturn lord of fifth aspecting karaka for children favours progeny. The position of Rahu in the fifth is also not favourable.

In Navamsha : The Moon, lord of the fifth of rasi chart, is exalted and not afflicted (good). Jupiter, the karaka for fifth house is posited in the sign of Mercury with Saturn (not good).

Conclusion : The native will have children, but will also face problems like abortions, death of children etc. if there is MD/AD/PD of malefic planets and also the concerned houses are also simultaneously transited by malefics.

F. Actual Incidents in Life :

- a. Three sisters, brother, self (born as twins, with a younger sister who died later).
- b. Education – Matriculation.
- c. Death of mother – 1942-43.
- d. Death of father – 21-2-1972.
- e. D.O.M. – Feb.1955.
- f. Children –
 - i) Son (Dec.1956).

- ii) Daughter (died after two weeks).
- iii) Son (died after six months).
- iv) Daughter (Jan. 1960) (married in 1987 and widowed on 20-2-94), the next day after the vida* ceremony of youngest daughter).
- v) Daughter (married in 1991).
- vi) Daughter (married on 20-2-1994). Her brother-in-law died as soon as she left for her in-laws' house after marriage.
- (g) Did many businesses, but not very successful. Inherited wealth and property in abundance. Father was also very well off. Rental income of properties was the main source of income.
- (h) A very religious brahmin, sold parental house and purchased two flats, one for self and the other for the son and shifted residence in 1996.
- (g) The position of Jupiter in the seventh house, seventh lord Mercury in ninth house with ninth lord Mars has given him a religiously elevated soul- as 'wife'. If studied from the seventh house (treating it as lagna of the spouse), the seventh lord in lagna, lagna lord with ninth lord (Venus) in third with third lord Mars, the results indicated are the same as aforesaid.

* This is a ceremony performed after completion of marriage rites. The parents give send off to the girl, her husband and other members of the marriage party.

Read the horoscope in the following way :**FIRST READING :**

- i. Lagna lord Mars is posited in third house.
- ii. Second lord Venus is posited in sixth house (debilitated).
- iii. Third lord Mercury is posited in fifth house.
- iv. The Moon, fourth lord is posited in lagna (Ascendant)
- v. The Sun, fifth lord is posited in fifth (own house).
- vi. Sixth lord Mercury is posited in the fifth house.
- vii. Seventh lord Venus is posited in sixth (debilitated).
- viii. Eighth lord Mars is posited in third house.
- ix. Ninth lord Jupiter is posited in eleventh house and is retrograde.
- x. Tenth lord Saturn is retrograde and posited in tenth (own house) with Ketu.
- xi. Eleventh lord Saturn is posited in tenth (own sign) and is retrograde.
- xii. Twelfth lord Jupiter is retrograde and posited in eleventh.

SECOND READING :

- i. Lagna lord Mars posited in third house and is aspected by the ninth and twelfth lord Jupiter. Saturn(R) also gives aspect on Mars.
- ii. Second lord Venus is debilitated in sixth and aspected by Mars, retrograde Jupiter

- and Saturn.
- iii. Third Lord Mercury is posited in fifth house with the Sun, lord of fifth house, Jupiter lord of ninth and twelfth aspects the Sun and Mercury.
 - iv. The lord of fourth house, the Moon is posited in lagna (Aries) and is near exaltation. The Moon is strong as it is of fifth day from the full Moon day.
 - v. The lord of the fifth house Sun is posited with the third and sixth lord Mercury and aspected by ninth and twelfth lord Jupiter.
 - vi. Mercury lord of sixth is posited in fifth with the Sun (lord of fifth) aspected by Jupiter(R) lord of ninth and twelfth.
 - vii. The seventh lord Venus is debilitated and aspected (afflicted) by Saturn, Mars and Jupiter.
 - viii. Lord of eighth house Mars is posited in Gemini (Mithuna) third house aspected by Saturn(R) and Jupiter(R).
 - ix. Lord of ninth bhava, Jupiter, is retrograde and is posited in eleventh house. Sun and Mercury (lord of third, fifth and sixth) aspect Jupiter, Saturn(R) afflicts 9th house and lord both.
 - x. Saturn(R) lord of tenth is posited with Ketu in tenth and receives eighth aspect of Mars.
 - xi. Eleventh lord Saturn is posited in tenth with Ketu and afflicted by Mars.
 - xii. Twelfth lord Jupiter(R) posited in eleventh and aspected by Sun, Mercury and Saturn(R).

THIRD READING

Find out the "Prarabdha" (promise in the birth chart) i.e. the events which are likely to take place in the life of the native. On the basis of the first information and thoughts received after the two steps discussed above, move further slowly to find the promise in the horoscope :

- (a) **Lagna is Aries** (house of energy). The Moon is posited in ascendant not aspected by any planet. The Moon is of panchami tithi (fifth day of dark half) and nearer to sign of exaltation (uchchabhilashi). Lagna is in the Bharani nakshatra of Venus. The lagna is strong.

The lord of lagna Mars is posited in third house, in Gemini sign (Mithuna) and aspected by Jupiter (the lord of the ninth and twelfth, a most benefic and retrograde planet). No other aspect. Mars is posited in own constellation (very good position) but in enemy's sign. Though Mercury treats Mars as neutral, the aspect of retrograde Saturn will be considered from Sagittarius (an enemy's aspect), though Mars considers Saturn as neutral is not good position. The lagna lord is well posited and not very weak. The aspect of Jupiter, Mars in own constellation and Saturn being lord of a kendra are to give auspicious results.

The third factor for health is considered from the Moon (karaka for first house). It has already been discussed that the Moon is well posited and strong.

Conclusion: The assessment of the house

shows that the native will enjoy good health, will prosper in life, but there may be some problems regarding health due to lagna lord's position in enemy's sign and the aspect of another enemy. He may also be required to face oppositions, but he will overpower them.

- (b) **The second house** is Taurus (sign of comforts, wealth etc.) whose lord is Venus (enjoyments). This house receives aspect of Jupiter (being retrograde aspect comes from Capricorn). No malefic aspect. Jupiter is the lord of ninth and aspects house of wealth. Jupiter is the karaka for second house, the aspect of Jupiter is good. Jupiter, the karaka of money is also posited in eleventh (house of gains).

The lord of the second house Venus is debilitated in Virgo (friend's house) posited in the constellation "Hasta" of the Moon (enemy). Jupiter aspects Venus (from Capricorn, Jupiter being retrograde). Saturn's aspect on Venus (from Sagittarius, as Saturn is also retrograde), is a friendly aspect. Jupiter lord of ninth and twelfth aspects second house as well as Venus the second lord, will give financial betterment. Retrograde Saturn's aspect is also a malefic aspect, aspect of lords of tenth and eleventh from ninth house, the native will earn money, but may face some difficulties on account of debilitated Venus and Saturn's malfeasance. He may suffer from weak eyesight. He may spend money because of bad habits and on vices or lose money. There may be obstructions in the earnings also.

- (c) **The third house** Gemini is occupied by Mars (lord of first and eighth houses). Saturn is aspecting third house as well as Mars, karaka for third house. Jupiter also aspects the third house and also the third lord. Third lord Mercury is posited in Leo (fifth house) with Sun (friend) lord of fifth. No malefic aspect.

The position of Mars in third house (refer the book "Nine planet and twelve bhavas" by M.N.Kedar), destroys brother (Manasagari) and the native will not have younger brothers or sisters (Bhrigu). Mars in the third indicates *(according to research done in 1985)* that the native will be either youngest or eldest amongst brothers (Same sex). He may have sisters younger or elder to him. Mars destroys co-borns, but aspect of Jupiter being benefic provides relief.

Conclusion: The native may have younger sisters, but no brother younger to him. He will be courageous, pioneering, intelligent, reckless, adventurous, short tempered, unprincipled, essay morals, unpopular, unconquerable, virtuous, famous etc.

- (d) **Lord of the fourth house**, the Moon is posited in ascendant (the position of the Moon has already been discussed in previous paragraphs). The fourth house has Rahu in it and receives the aspect of Saturn. It does not give comfortable position. The lord is well placed but the house is afflicted. The karakas for the fourth house is the Moon and Venus. Venus is afflicted by Mars and Saturn, benefic aspect is of Jupiter on fourth and

karaka of the fourth house (Venus).

Conclusion: The native may face difficulties as regard fourth house matters. The problem could be with regard to conveyance, property etc.

- (e) **Fifth house is Leo**, the lord of this bhava is posited in own sign. The bhava whose lord is posited in own house is very strong. This is the moolatrikona sign of the Sun (lord of fifth), Mercury lord of third and sixth is also posited, which is a friend of the Sun. Jupiter (R) lord of ninth and twelfth aspects fifth, fifth lord, the Sun and also Mercury. There is no malefic effect. The combination of Sun and Mercury (Budh-Aditya yoga) is good for education and intelligence. The aspect of Jupiter enhances the auspicious results of the fifth house.

Conclusion - The native will enjoy full auspicious results. He will be educated, wise and will have children.

- (f) **Sixth house has Venus** (debilitated) lord of second and seventh. The lord of sixth house Mercury is posited in fifth. A malefic in the sixth house, if posited is always preferred to a benefic. There is malefic aspect of Mars (lord of lagna and eighth house) from third house. Jupiter aspects the sixth house and its' lord. Saturn aspects sixth house. There will be mixed results as regard the sixth house is concerned.

- (g) **The Seventh house** has no planet; aspect of Jupiter, lord of ninth and twelfth which is posited in eleventh, is on the seventh house.

The lord of seventh Venus is posited in sixth and is debilitated. The seventh house receives the aspect of the Moon, the fourth lord. The aspect of Mars and Saturn on the seventh lord, causes affliction. The native will enjoy the comforts of seventh house, but some difficulty is perceived. The detailed analysis on this point will follow.

(h) **Eighth house** : There is no planet in this house. The lord of eighth house Mars is posited in the third house, aspected by Jupiter and Saturn(R). There is no aspect on eighth house. The eighth house is in a good position and the lord of this house is also in a good position.

(i) **Ninth house** : This is a very important house. There is no planet in this house. Mars aspects this house. Saturn (being retrograde) also effects this house and aspects the lord of ninth house, Jupiter. Mars and Saturn's influence on ninth is not good. It may create hindrance for the native to rise in life. He may also face trouble from father.

(j) **Tenth house** has Saturn(R) and Ketu. Saturn lord of tenth is strong, being posited in own house and is retrograde. The position of Ketu and aspect of Mars show some disturbed situation. Jupiter being retrograde also influences the tenth house.

(k) **Eleventh house**: This is the house of gains and the lord of this house is posited in own sign which is the karmasthana (12th from own house). Jupiter ninth lord influencing the eleventh is good, aspected by third and

sixth lord Mercury and the fifth lord Sun which is also good.

- (1) Twelfth house has no planet. Twelfth lord, Jupiter is posited in eleventh, Venus aspects twelfth house. Saturn also aspects the twelfth lord and the house.

The further analysis in this regard will be more illuminating and elaborate than the earlier three steps.

- 1a. Lagna is Aries (Mesha), in the sign of Mars, is in constellation of Venus and navamsha of Mars. There is no aspect on lagna. The Moon, lord of fourth (a strong Moon) is posited in ascendant, in the nakshatra of Ketu and in own navamsha. The Moon's position in lagna is very good and auspicious. (The Moon is of fifth day of dark half or 'krishna paksha' is treated as strong and is also uchchabhilashi).
- b. Lagna lord Mars is posited in third house, a house of co-borns, prakrama bhava (nature of doing hard work), friends etc., in the sign of Mercury i.e. Gemini (Mithuna), in own navamsha with Mercury and Rahu and is also lord of navamsha lagna. The position of lagna lord is also very strong.

c. *For judgement of any bhava the following three factors are to be considered positively*

- (i) Bhava or house;
- (ii) Lord of the bhava or house;
- (iii) Karaka for that bhava;

In this case (i) and (ii) have already been discussed at (a) and (b).

The karaka for first house according to the

classical text is "the Sun". While discussing about the health of the native and his success in life. I have found the Moon should be considered as karaka for the first house. The Sun may also be considered as a fourth factor, in case if lagna, lagna lord and the Moon all the three are afflicted. The Sun is the "soul" so it may be considered for general progress in life especially as karaka for the first house. The position of the Moon has already been considered at (a) supra.

Conclusion : The native will possess sound health, will be handsome, of good height and will make progress in life.

- 2a. The second house Taurus (Vrish) has no planet. The house receives aspect of retrograde Jupiter (lord of ninth and twelfth). No malefic aspect is seen. The second house is house of money, income, wealth, speech, family etc. The aspect of karaka of wealth Jupiter on second house is very good.
- b. The lord of second house Venus is posited in sixth house and debilitated. The malefic aspects of Mars and retrograde Saturn on Venus is bad. In rashi chart it is posited in Mercury's sign and in navasmha too in Mercury's sign. A very good position.
- c. Karaka of second house Jupiter is posited in Saturn's sign, aspected by fifth lord Sun (very good) and Mercury (enemy, not good). The position of karaka is not very comfortable.

Conclusion : The native will enjoy the minimum benefits of second house. Sometimes he may face financial problems too.

3a. The third house Gemini (Mithuna) is occupied by Mars (lord of lagna and eighth), a malefic planet, aspected by Jupiter lord of ninth and twelfth and retrograde Saturn.

b. The lord of third house Mercury is posited in Leo (Simha) the fifth house with a friend Sun and also receives aspect of Jupiter. The position is very good.

The lord of third, Mercury is posited in navamsha of Mars. Mars is also posited with Mercury and in birth chart (D/1) it is also posited in Mercury's sign. So Mars is very much under the influence of Mercury and vice versa

c. Karaka for the third house Mars is posited in third house. It is said in classical texts that "Karako bhavanashyah" the karaka's position in the house concerned is destructive. In many research paper (published in Astrological Magazine in July 1995) it was revealed that this principle (Karako bhavanashyah) and another principle given below were correctly applicable if taken with exceptions.

"If a native has Mars in third house he will be eldest or youngest in the family."

In this case native seems to be only brother, may be sister after him.

BHAVARTHA RATNAKARA –

लोभस्थो यदि देवेज्य ज्येष्ठ भातुस्तु दुःखदः ।

लाभे च संस्थितो भौमाः शनिना वीक्षितो यदि ॥

भातृणां ज्येष्ठ संज्ञानां ह्यभावः प्रोच्यते बुधैः ।

षष्ठाष्टमे भ्रात्रधीशः भ्रात्रारिष्टं तु कथ्यते ॥

If Jupiter is posited in eleventh, it shows trouble to elder brother. If Mars is posited in eleventh house and is aspected by Saturn, there may not be any elder brother. If lord of third house is posited in 6th or 8th, it shows danger of life to brothers.

Conclusion: The position of the third house is very good, malefic in 3rd house are always preferred, as it makes the native hard working and active. Here the lagna lord Mars posited in third is aspecting 9th and 10th. Lagna lord, means self, will work hard (3rd house) and make his fortune (lagna lord aspects 9th house from the third). He will be a self made man. The aspect of ninth lord Jupiter and the joining of the third lord Mercury with fifth lord Sun are very positive indications for the better future of the native.

- 4a. **The fourth house** Cancer (karakata) has Rahu and receives malefic aspect of Saturn (bad). Jupiter retrograde also aspects this house (good). Rahu is in malefic navamsha of Mars, Saturn is retrograde (lord of tenth and eleventh) increases the malfeasance of Rahu. Moreover Saturn inauspicious for this lagna and debilitated in navamsha, may create trouble. Rahu is in Saturn's constellation. The house is hemmed between malefics.
- b. **Lord of fourth the Moon** is posited in Mars' sign and own navamsha. The position of the Moon as already been discussed and judged as good. The Moon is in Ketu's constellation and Ketu in turn is in the constellation of the Moon. Ketu is associated with Saturn who

is also in the constellation of the Moon.

- c. Karakas for the fourth house are the Moon (mother) and Venus (vehicle, house, property). The position of the both has already been discussed.

Conclusion: The position of the fourth house is very bad, but the position of the lord of the fourth is good.

The karaka Venus is badly afflicted.

While discussing this horoscope in the class, I stopped at this point. I predicted that this was the time for marriage and also for some accident. But I did not see any physical hurt. Native explained the actual events. The native was running Sun's major period and Venus antara during 1989 when he was married on 10th Feb., 1989 and also met with an accident, just after few days of marriage. The vehicle was damaged badly but he got a minor hair size fracture in left leg. The major period of the Sun fifth lord, posited in fifth, in constellation of Ketu (posited in tenth), aspected by Jupiter, associated with Mercury and in navamsha posited in seventh house, the sign of Venus. This could give marriage. The antara of Venus, lord of second and seventh, posited in the Moon's constellation and Mercury's navamsha which is the eighth house of navamsha, is connected with marriage, hence Venus could give marriage. On 10th Feb.'89 Saturn was transiting Sagittarius (Dhanu) aspecting Mars and Venus the lord of first and seventh house respectively. Jupiter(R) upto 20th January

was transiting lagna and aspecting seventh house and fulfilled the condition* for the happening of event of marriage.

We have already discussed that Venus is also a maraka (being lord of second and seventh) posited in sixth house (of disease, accident etc.) and posited in the second from Sun the major period lord. Venus is under the influence of Mercury (third and sixth lord) and also in constellation of the Moon (lord of fourth) and is afflicted by Mars (eighth lord). Mars is lagna lord also. But for affliction on lord of antardasha Venus, the effect of Mars is considered as the lord of eighth and as a malefic only.

In navamsha also Venus is afflicted by Saturn. As per discussion of fourth house, the position of the fourth and karaka Venus was not satisfactory, so this period was a period of problems for the fourth. Venus karaka for marriage has given the result of second (kutumbha) and seventh (marriage or life partner) but the other results of Venus i.e. lord of the maraka sthana and trouble from conveyance can also be there if there is bad transit. In transit Mars was transiting lagna, afflicting Moon, lagna and fourth house. Saturn was transiting and was afflicting Venus (karaka of fourth house), Jupiter was transiting second house aspecting Venus. Saturn too was afflicting Venus and Mars (lagna lord and eighth lord). Rahu and Ketu covered the axis of fourth and tenth. Sun

* Refer book on "Timing of marriage" by the same author.

4. transited Aquarius (Kumbha) aspected natal Sun and mahadasha nath and was also aspected by transiting Saturn.

Conclusion: As there was not much affliction to lagna, the native got minor hurt, the heavy affliction of fourth house and the karaka Venus caused a major damage to the scooter. There is enmity between M.D. Nath and A.D. Nath (Sun and Venus). Venus has occupied 2nd house from the Sun. Venus is the karaka (for conveyance) indicated bad period.

The techniques of delineation adopted here are quite useful for prediction. Further elucidation on these points of predictive techniques will be discussed.

5. **The fifth house** simply has its lord Sun posited therein with Mercury lord of third and sixth and aspected by Jupiter (lord of ninth and twelfth) from eleventh house. There is no malefic aspect.

Conclusion: The fifth house shows happiness in respect of progeny and education. He will be interested in education. He will be interested in having good status in life. The connection of third, sixth and twelfth lords shows that the native may work hard (association of third and sixth), go away from the birth place to get a better future. He will get success in competition. The connection of fifth and ninth lord shows that he had brought a balance of good karmas from past births and will also do good karmas (actions) in the present birth. He will also

face difficulties and frustations because of sixth lord. Jupiter being retrograde is inclined towards the point of debilitation. But the (R) planet is the strong one. Here Jupiter being vargottama and retrograde will give good effects during its period.

6. **The sixth house:** Virgo has debilitated Venus, the lord of second and seventh. The house receives aspects of Jupiter(R) and Saturn(R). The lord of the house has gone to fifth house (we have already analysed the position of Venus). Mars, the lord of lagna and eighth, also aspects sixth house. It shows that the sixth house will always be a source of trouble due to effect of twelfth and eighth lords. As regards wife the trouble will be because of Venus, karaka of 7th and lord of seventh, which is debilitated and afflicted. The aspect of Jupiter saves the native from accidents, diseases and also from facing marital discord. Mars and Saturn are malefics affecting the sixth house. Saturn is an inauspicious planet for this lagna.

7. **The seventh house:** Libra has no planet. The Moon aspects the seventh house(good). The aspect of Jupiter also enhances the good effects of the seventh house. The aspect of Saturn may cause delay in marriage.

The lord of the seventh Venus debilitated in sixth (house of disease and of enemy), is afflicted by Saturn and Mars. However, the

Note: On retrogradation of planets and their effect, a detailed discussion is given in the chapter 5 of the book "Judgement of Bhavas & Timing of Events through Dasha and Transit".

- 10 aspect of Jupiter on seventh lord Venus is favourable.

Conclusion: He will have happy married life. He will be getting maraka effects of Venus. Venus does not kill directly. The association of sixth, eighth and twelfth and the effects of Saturn and Mars may cause accidents to him or diseases to his wife.

The aspect of Jupiter will always shower saving grace on him and reduce the impact of the malefic effects.

8. **The eighth house:** has no planet and does not receive any aspect. The lord of eighth Mars is posited in third, eighth from eighth, in Mercury's sign (enemy sign), but aspected by Jupiter (good) and Saturn(R) (bad). This shows again that the native may have danger to life through sudden accidents. The eighth house indicates events which happen all of a sudden or unexpectedly.
9. **The ninth house** Sagittarius has no planet posited therein but the aspect of Mars, a malefic is bad. Mars as lord of eighth is bad, but as a lord of lagna is very favourable.

The lord of the ninth Jupiter(R) posited in eleventh is aspected by the fifth lord the Sun (good). The aspect of Mercury the third and sixth lord and the effect of Saturn(R) is bad.

Conclusion : The lagna lord Mars posited in third and aspects ninth and tenth. This means the native will be interested in making his future and will be self made. The aspect of tenth lord Saturn will make him more serious and successful. The aspect of ninth

lord Jupiter on lagna lord means he would get support from father.

10. **The tenth house:** Capricorn is occupied by its own lord Saturn (good). The position of Ketu in tenth and the eighth aspect of Mars on tenth are not good. But this will make the profession of the native technical. There will be hindrances in the career.
11. **The eleventh house:** Aquarius has Jupiter, the lord of ninth and twelfth, aspected by lord of fifth the Sun (good) and the third-sixth lord Mercury (not good). Mercury is also friend of Saturn. The lord of eleventh Saturn is in its own sign, in tenth with Ketu and afflicted by Mars. Here again Jupiter and Sun are giving hope of good results, but the eleventh lord Saturn is badly afflicted.
12. **The twelfth house:** Pisces has no planet posited therein. The house is aspected by Saturn (a malefic) and Venus (a benefic but enemy). This sign is the sign of exaltation for Venus. Therefore the aspect of Venus will be good. The lord of this house is posited in eleventh receives aspect of Sun, Mercury and Saturn(R). The twelfth house and its lord both are aspected by malefics and benefics, the result will be mixed.

The aforesaid analysis has given us the general idea about the trend of events likely to occur during the life of the native in respect of twelve houses. For further elaboration and clarity another method of delineation will be discussed hereafter.

CHAPTER 3

NAVAMSHA VARGA

The vargas are used for the confirmation of the results arrived at after the analysis of the twelve houses.

1. Each varga represents one house out of the twelve houses. For example navamsha for spouse, dwadasamsha for parents, saptamsha for children or progeny and so on. The descriptive use of vargas for shaping and confirming the prediction will be discussed in chapter 5.
2. Another major use of vargas is to find the strength of the planets. According to the classical texts if a planet is posited in auspicious vargas, will give good results or adverse results if in inauspicious vargas. To measure the **VIMSOPAKA STRENGTH** of the planets in Shadvargas (six divisions) i.e. Rashi (D/1), Hora (D/2), Decanate (D/3), Navamsha (D/9), Dwadsamsha (D/12) and Trimsamsha (D/30). Each varga is given 6, 2, 4, 5, 2, 1 number of points respectively out of the total of 20 points.
If we have to calculate the strength of the

planets in **saptavarga** (seven division) the **sapthamasha** is also added to above six **vargas**, i.e. D/1, D/2, D/3, D/7, D/9, D/12 and D/30 and each **varga** gets 5, 2, 3, 2½, 4½, 2 and 1 points respectively.

It is, therefore, clear that points system mentioned above has given the **navamsha chart**, second position after **rashi chart**.

3. Presently, we will use **navamsha chart** for finding out the effects of the **navamsha** in which the planet is posited.

Importance of navamsha:

- i. This **varga** (divisional chart) gets highest point in **vimshopaka** after **rashi chart**.
- ii. This is the only **varga** which causes to attain the status of "**vargottama**" when a planet is in the same sign, both in **navamsha** as well as in **rashi chart**. It means best in **vargas** or very strong.
- iii. The verdict of **navamsha** is supreme as :

The position of the planet in **navamsha** is considered final than to the position of that planet in **rashi chart**.

Example:

- (a) If a planet is exalted in **rashi chart** but debilitated in **navamsha chart**, the result will be bad because of debilitation. The planet will be treated as debilitated;
- (b) If the planet is debilitated in **rashi chart** and is exalted in **navamsha chart**, it will give good results i.e. of exaltation, will be treated like exalted planet.

9. (c) If exalted or in own sign in both the charts and vargottama, causes rajayoga.

10. (SARVARTHA CHINTAMANI chapter 9/sloka 15 and also JATAKA PARIJATA chapter 6/sloka 35).

11. स्वोच्चे नीचांशके दुखी नीचे स्वोच्चांशके सुखी ।

12. स्वांशे वर्गोत्तमे भोगी राजयोगी भविष्यति ।।

iv. The navamsha is Sookshma Sareera (Astral body) whereas rashi chart is Sthoola Sareera – Pancha Bhoota {physical body – made of five elements – earth, air, water, fire and ether (akash)}.

The physical body describes general things apparently visible about the native, whereas the astral body describes the real nature, intention, inclination, aptitude, character etc. of the native. This can not be known from the appearance and by general talks with the native. It needs close observation.

The navamsha chart, if studied properly reveals real characteristics and the spiritual strength in the native.

4. Use of navamsha

The importance of navamsha has been discussed. The use of navamsha chart for delineation of the horoscope is as under—

(i) **The first house:** Lagna is in Aries and falls in Scorpio navamsha. This means the lagna is strong. The lord of lagna Mars is in Mercury's sign and is in own navamsha. This is again a good position. The Moon is in ascendant and is unafflicted. In navamsha

Mercury and Rahu are associated with lagna lord Mars. There is aspect of Saturn and Jupiter on Mars in rasi chart. The first bhava has influence of Mars, Moon, Jupiter, Saturn, Mercury and Rahu. The characteristics of all these planets will have their combined effect.

Here one point is placed for consideration and practical application by the readers. The first house is judged or analysed for finding out :

(a) The type of physique one possesses. Whether he will have sound health or not ? The looks or appearance and structure of its face etc. are governed by this house.

(b) Another aspect which is most important is to look for the native's capacity to work, his ambition, general feelings, temperament, whether he will be hard working or otherwise ?

The combined effect of these planets will provide a clue. The ascendant of chart is movable, while in navamsha the lagna is a fixed sign. The rasi sign is fiery and in navamsha, the sign is watery, both are inimical to each other and are not conducive. The effect of Mars is maximum and the effect of Mercury and Saturn is also there. Mars gives dashing nature, Mercury calculative, the Moon unstable, Jupiter religious, Saturn stiff and lazy, Rahu shadowy, hazy, confusing and doubtful.

(c) The third factor is constellation. In the example chart lagna is in the constellation

of Venus and lagna lord is in its own constellation i.e. Mrigashira. Venus makes the person ambitious. The combination of Mars and Venus makes the person more sexy, ambitious and greedy.

Conclusion: The native will be hard working, energetic, commanding personality (due to Mars), intelligent, interested in educational pursuits, business minded, calculative, shrewd (because of Mercury's effect), unstable, dual nature, impatient, of changing moods (due to the Moon, movable lagna and fixed navamsha sign). Jupiter will give him kindness, religious bent, prevents from breaking relations, reduce the disturbing effect of Mars and provide inclination for education. The effect of Rahu will make him confused, interested in vices, taking wrong decisions and a disturbed life. Saturn's aspect on lagna lord Mars will also hamper the progress, cause unrest and laziness in him. He will have sound physique and handsome personality.

(d) The first house is the key point for interpretating the results of other eleven houses and for giving successful predictions. Only theoretical knowledge of this science will not give successful predictions. It is found by every astrologer, in his experience, that many a time the result do not come according to the combination of planets i.e. yogas present in the chart. The reason is that the astrologer has not looked into the aspect of "Prarabdha" and the intention, capacity,

desire, ambitions etc. which cause "**Prerana**" (प्रेरणा) inspiration in him to act or not. The man is free to act, prarabdha gives him inspiration to commit a sin or to do a good deed. It is for the native to take a proper decision. If he decides properly and simultaneously carries out remedial measures and remains vigilant, he will not suffer, rather will be able to reduce the bad results and will surely enhance the good results. He will get success. As in this case under discussion the first house shows a multiple combinations due to effect of six planets. The planets will have their good or bad effects according to their natural characteristics. These effects only give him ideas, inclinations etc. The other houses are concerned with the events of life which they represent.

Let us say marriage: The combination of the planets, seventh house and Venus etc. indicate early marriage. The native can have, if he wishes to go for marriage. If he is interested in education, for a higher career and wishes to concentrate for his better position before marriage, the marriage will not take place. We have also seen the cases where the native is very much interested in marriage, there is favourable situation for marriage in the horoscope, but the marriage does not take place. A question arises, "why". It is very clear from the study of the first house if done properly. The native has made a picture in his mind for the selection of the

spouse. If he is not getting the spouse of his choice there will be delay. According to astrological principles he has no choice here. The pairs are already determined. These are made in heaven. If the choice of the native is for the life partner, who is per chance fixed for him (destined), he will marry the same person. Otherwise he will have to wait till he comes in contact with a person destined for him. Here the role of the first house is to indicate vitality, ambitions and thinking etc. which play a major role. The happy and successful married life and progeny all depend upon the first house. Instead of covering more pages of this book, in short I have tried to put forth my ideas before the learned readers to think about this aspect.

- (ii) **Second House:** The second house has no planet, in turn aspected by retrograde Jupiter, the ninth and twelfth lord and a karaka for second house. The lord of second house Venus is debilitated, posited in nakshatra of the Moon (enemy) and the sign of Mercury (a good and deep friend). Saturn an other friend aspects Venus. The aspect of Mars (a neutral), on Venus has its own role to play. Jupiter also aspects Venus (good). The second house has effect of Venus, Mercury, Mars, Saturn, Jupiter and the Moon. The lord of second is posited in navamsha of Mercury (better as nearer to own sign, away from debilitation and in the friend's house).

The point to be borne in mind is that Venus

is having maximum influence of Mercury. Though Mercury is friend of Venus (good) but also lord of third and sixth (which is not good). Mars, though lagna lord (any bhava or planet aspected by lagna lord or associated with lagna lord gets strength), Mars is a natural malefic and also eighth lord (will cause affliction). The aspect of Saturn apart from being a friendly aspect is an aspect of inauspicious planet, Badhakadhipati and a natural malefic. Ninth and twelfth lord Jupiter (karaka of second house), a benefic aspecting the second house as well as the second lord will not let the native feel the dearth of money.

Conclusion: The financial position of the native will be medium, will incur expenses on diseases, medicines, may have debts, theft, loss of money in one form or the other. Second house being the house of speech, the native may be harsh, control of Jupiter may pose some restrictions and make him polite.

The use of second house for astrological predictions is manifold. It has its own importance. After lagna or the first house, the next importance is given to this house. Learned astrologers say that this house is also house of education, wealth, speech etc. I treat this house as the house of friendship and enmity. The speech is responsible for making a friend or a foe. This house shows the longevity of the association of the married couple. The second house indicates whether the married life will be happy,

cordial and for a longer period.

This house is also marakasthana. The two houses, second and seventh have been defined on one hand as marakasthanas (killer), on the other hand as they represent the most important factor of the happy human life i.e. money, wealth and spouse respectively. The man cannot be happy without money and good life partner.

It is very clear —

- (1) As a lion is entrapped by a hunter, using goat (as a food for him), similiarly the native after marriage, loses his freedom.
- (2) The diseases generally contracted by the native are due to food habits i.e. second house is house of wealth, but also of death.
- (3) A lust for money makes the native greedy, immoral, of loose social values etc.
- (4) The seventh house, over sex, dissatisfied sex, cause loss of moral and social values, marital discord etc., are all indicated by this house. Here I stress that the marriage puts responsibility of **Grahastha Ashrama** on the shoulders of the native. His freedom, which he/she used to enjoy due to the grace of parents is now restricted. So the acquisition of wealth also makes the man worried. Worrying is bad. The native suffers on account of worries. One does not care for health when he is busy in his business,

profession and also while indulging in sex.

- (iii) **The third House:** has Mars in his own constellation Mrigashira, in navamsha in Scorpio own sign, (showing very strong hold on third house). The aspect of Jupiter on third house (enemy) and on Mars (enemy to Mercury but friend to Jupiter), will reduce the malefic effect of Mars on the third house. Saturn's aspect on Mars (enemy, but Gemini a friend's house) will withhold Mars from giving a malefic effect on third house.

A very important point will require attention of readers. Mars in third aspected by Jupiter the ninth lord is treated as good. The actual position is, Jupiter is retrograde in Saturn's house (a neutral), in the constellation of Rahu and in Saturn's navamsha (**vargottama**). Hence he will be in a position to give complete beneficial results. So also Saturn is posited in the constellation of Moon (enemy) debilitated in navamsha chart will also not be very strong to stop Mars from giving his malefic effects. The position of lagna lord in third is also not favourable for co-borns. Either there will not be a male issue after him, or will not survive, or the native will not have cordial relations with him or the coborn will not prosper.

The position of Mars in third house is defined as destructive for brothers, unhappiness from brothers, bereft of co-born etc. (refer book "Nine planets and twelve bhavas" written by the author).

Actual events of the chart under discussion (in chapter 2):

The native is eldest, has a sister, a brother and a sister after him in chronological order.

- (a) The position of Mars indicates that the native should be either the eldest or youngest (in same sex) and may not be in between the two. This principle is correctly applicable here.
- (b) The position of Mars in third means the native will not have brother/sister (coborn of the same sex) after him. The native of the chart under discussion has a sister after him. Had there been a male progeny to his mother that would have resulted into abortion or death.

(iv) **The fourth house** has Rahu in Cancer whose lord Moon, is in Aries i.e. in lagna (well posited). Rahu is in the Pushya constellation of Saturn and in navamsha of Mars (strong malefic). The lord of the fourth Moon is in the constellation of Ketu and in its own navamsha. No aspect is on the Moon. The fourth house receives seventh aspect of Saturn (Badhakadhipati for this Aries lagna and also an inauspicious planet). The fourth house is badly afflicted. The house is also sandwiched between two malefics Mars and the Sun. Only the position of the lord of fourth and the aspect of Jupiter on fourth house gives some relief.

The fourth bhava is under the influence of Rahu, Mars, Sun, Saturn, Ketu, Moon and Jupiter. The effect of malefic planets is more.

Jupiter is posited in a malefic sign and also in malefic constellation. The Moon is in malefic sign and in malefic constellation. Jupiter is not very powerful, but as Jupiter is Vargottama it is strong. The Moon is in own navamsha. Rahu is in navamsha of Mars (afflicted). Saturn is debilitated in navamsha (weak). Mars is lagna and 8th lord for this chart.

Conclusion: There may be difficulties, discomfort, some problems, quarrels and unhappiness etc. in home or problems concerning properties or conveyances but relief is also visible due to favourable positions of Jupiter and the Moon.

Results – The native had to be away from family from 20-8-1980 to 20-8-1985 due to service at Delhi and also suffered loss of money due to cheating by a property dealer (in 1988), accident of scooter (in 1989 and again in 1996).

- (v) **The fifth house** (Poorva janma karmas) has its lord Sun posited therein (very good), with Mercury and aspected by Jupiter (good). The Sun is in constellation of Ketu (a malefic, not good, but Ketu is gyanakaraka) and in the navamsha of Venus (enemy sign) with Ketu. This shows the Sun has lost its strength being afflicted in navamsha. Jupiter and Mercury are supposed to strengthen the position of the fifth house. Mercury lord of the third and the sixth will also give some trouble in one respect. There is a malefic in twelfth and benefic in the

second house from the fifth house.

Conclusion: The native will be intelligent (Sun and Mercury), sharp in taking accurate decisions, if he goes on the wrong track, he would be checked and made to progress (effect of Ketu and Jupiter). He will be interested in education (ninth lord Jupiter aspects fifth, fifth lord and Mercury). In rasi chart the Sun (fifth lord) is in its own sign and in navamsha nearest to the sign of exaltation. He will be wise because of the association of Sun, Mercury and Jupiter.

Actual happening – The native stood first in the eighth class, became a victim of wrong company which diverted his attention from education. He became serious and secured high first division in tenth class. In eleventh class again the situation became worse, but an improvement came later on and he passed out the twelfth with first division. Did diploma with honours. He was blessed with a son on 23rd June 1990.

The result of the fifth house, received by the native are good with minor disturbance. This all was due to Sun and Mercury in fifth aspected by ninth lord Jupiter.

- (vi) **The sixth house** has Venus (lord of second and seventh) in the constellation of the Moon (very good), debilitated (bad) in Mercury's navamsha (close friend). The house is aspected by malefic Saturn, Mars and also a benefic planet Jupiter. The sixth lord Mercury is posited in fifth house (Leo sign) with Sun, in constellation of Venus and

navamsha of Mars with Rahu. The aspects of Saturn and Mars on sixth house are causing affliction.

The position of debilitated Venus, is bad for 2nd and 7th house. For sixth house Venus is a benefic planet and will not cause affliction to 6th house. Being weak, Venus may not be able to give good results, but no bad results can be experienced. Mars (lagna lord) aspect on 6th means that the native with his hard work can fight back the odd situation and his enemies.

Conclusion: The position of the house is bad while that of the lord is better. This house represents enemy, debt, diseases etc. The effects of the Saturn (10th and 11th), Mars (lagna), Jupiter (9th and 12th), Venus (2nd and 7th), Mercury (3rd and 6th) will give mixed results.

Results —

- (1) The native met with accidents. (Venus karaka for conveyances debilitated in 6th and afflicted by Saturn and Mars).
- (2) He had to face problems due to property (Venus) resulting into loss of money (Venus lord of 2nd), not due to theft but by cheating done to him by others.

(vii) **The seventh house** has no planet, lord of the house Venus is posited in sixth house, debilitated in Mercury's sign, in constellation of the Moon, in navamsha of Mercury. Mars aspects Venus. Jupiter and Saturn aspects the seventh lord and the

seventh house. The aspect of the Moon on the seventh house is also a good position. The seventh house receives effects from Venus, Mercury, Jupiter, Saturn, Mars and the Moon.

Conclusion: Here the seventh house is having malefic and benefic effects. A mixed result is expected. The native will be enjoying happiness and facing trouble simultaneously. The good effect will be received because of aspects of ninth lord Jupiter, Moon and lagna lord Mars. The Moon lord of fourth posited in lagna, Saturn and Venus both in the constellation of the Moon, promise a beautiful wife, who may be aggressive or having health problems because of the aspects of Mars and Saturn. The effect of Mercury on Venus, (since in rasi and navamsha, Venus is posited in the sign of Mercury) will make his wife intelligent and educated one. The effect of Saturn will delay the marriage. Venus, seventh lord debilitated in sixth and afflicted by Saturn and Mars will pose danger to wife of the native through disease. Venus being lord of 7th is maraka and posited in the house of disease, hence may cause problem of his health also.

Results – The marriage took place on 10th Feb. 1989 in 28th year followed by an accident just after two months.

(viii) The eighth house has neither a planet nor aspected by any planet, i.e. is not giving any hint for prediction. If there is no malefic

effect, there is no benefic effect either, the sign belongs to Mars, a malefic planet, which is responsible for accidents, hurts, wounds etc. The sign is a watery sign and also a fixed sign (good and favourable). The lord Mars is posited in Mercury's sign (enemy), in own constellation (good) and in own navamsha (very good) but with Rahu and Mercury (not good). In rasi chart Mars is aspected by Saturn(R). The effect on 8th house is of Mars only. Jupiter aspects the eighth lord Mars (is very good). The combined effects of Mars, Mercury, Rahu, Saturn and Jupiter show overall malefic effects, but Jupiter's influence gives solace. There is favourable position due to position of Mars in own navamsha, association of Mercury. It is in own constellation in Mercury's sign and receives aspect of Jupiter in rashi chart.

Conclusion : The native will have mixed results –

- (1) Long married life, but disturbed intermittently.
- (2) Longevity good, but there is threat to it sometimes due to accidents (it can be assured only after doing proper analysis of the horoscope for longevity).
- (3) Sudden changes in the life pattern and in profession may also be there (8th lord posited in 3rd, from where aspecting 9th and 10th houses).

Results : The native had met with two accidents, also experienced diversion and changes in profession and education. Enjoying every thing but with jolts and turns.

- (ix) **Ninth house** (connected with the **Prarabdha**¹) has also a very important role to play. The house has no planet. Mars aspects this house. Saturn being retrograde has some effect on 9th house causing affliction, resulting in delay in the fructification of events of ninth house. Mars' aspect has a dual role, one as lagna lord and other as eighth lord. Being lagna lord posited in third (prarkrama bhava) aspects ninth house (bhagyasthana) showing that the native will be self made or will work hard to make his fortune. The eighth lord causes hindrance, delay etc.

Saturn as 10th lord having effect on 9th house and 9th lord, shows that Saturn will help the native to make his fortune (9th house).

The lord of ninth Jupiter is under the influence of Saturn in rasi as well as in navamsha and also vargottama. Jupiter is posited in the constellation of Rahu and has aspects of the Sun (friend) and Mercury (enemy). The association of ninth and fifth lord is a very favourable position. Mercury and Jupiter's association with influence of 5th and 9th houses, will attract the native to learn astrology.

¹ Results of the accumulated karmas of past births transferred to present one.

Conclusion: The native will enjoy the results of the ninth house i.e. religious inclination, rise in life, higher and religious education.

Results: Native passed 12th and did diploma (could not do higher education due to effect of eighth lord), joined service, had promotion and transfer, left the job and joined another job with change of place, left the job again due to disturbance in Punjab, joined later at the place where parents were residing on a lower post but at the same emoluments. He also passed astrology course of two years.

(x) **The lord of the tenth** is posited in own house. The house is strong. The position of Ketu and the aspect of Mars are afflictions. There is no benefic aspect. Saturn is in the constellation of the Moon (lord of fourth which is posited in lagna) and in the navamsha Saturn is debilitated in the sign of Mars.

Conclusion: The native will face difficulty in his career and face opposition. The aspect of lagna lord is favourable, but the eighth lord Mars will cause obstructions and changes, the position is not very favourable.

The effect of Mars on Saturn shows that the native will get results of his deeds and hard work (due to Mars being lagna lord). There will be delay and changes or obstructions (due to Mars being 8th lord). But Mars will give more results of Aries sign (Mooltrikona sign) which is also lagna.

The actual events have been discussed supra.

The ninth and tenth houses are considered for father. In south the astrologers use ninth for father and in north India, the tenth house is taken for father. I have already discussed this aspect in the book on "Predictive astrology". The ninth is inheritance from father i.e. caste, religion, wealth, assets or liabilities, temperament, genes etc. The tenth house, is also taken as representing father. The tenth is seventh from fourth, husband of the mother. The fourth is eighth from ninth (inheritance). The seventh house represents spouse; the happiness and marital cord is represented by eighth house. Both the houses ninth and tenth should be analysed and used for predictions about the father. The fourth house is mother, the seventh from fourth is tenth (father, genes inherited) i.e. the husband of mother. The longevity or association of the parents and their general happiness are judged from fourth and tenth houses. The gain from father is ninth house. The association of father is from tenth house. The health etc. of the father is from tenth house.

The physical body of the native is the result of both mother and father. if the parent has sound health, the children will also have sound health. The appearance, physical construction of the body etc. all will be familiar to the parent (10th house).

The ninth house depicts the position of

father i.e. religion, financial position, comforts and happiness etc. When the native attains adulthood and becomes capable of doing independent actions, the ninth and tenth combine. The native gets the results according to his karmas. The physical association (10th house) and the comforts (9th house) from father, are judged accordingly.

Conclusion: The native will be either away from father or there will be some disturbed relations or there may be some health problem to father.

(xi) **The eleventh house** has Jupiter, the lord of ninth and twelfth, aspected by Sun, Mercury and Saturn (retrograde). The eleventh lord is posited in own sign, in the nakshatra of the Moon, afflicted by eighth aspect of Mars and in navamsha of Mars (debilitated in navamsha). Jupiter in eleventh is retrograde and afflicted by Saturn and Sun. Only aspect of Mercury which is again inimical.

Conclusion : The affliction of eleventh lord and eleventh house is bad for elder brothers and sisters. Jupiter in eleventh makes the native eldest among brothers. Jupiter being karaka for eleventh is also afflicted. This again denies any elder brother or sister to him.

Results : The native is eldest.

(xii) **Twelfth House** has no planet. The aspects of Venus and Saturn, have a major role to

play. The lord Jupiter in the house of Saturn and navamsha of Saturn, in vargottama position, a very strong position, but the influence of Saturn is not desirable. The aspect of Venus on a sign of its exaltation is very favourable.

Conclusion: The native will enjoy the comforts of twelfth house, but some disturbance may also be there.

The following steps have been used to delineate the horoscope using:

- i. The position of planet in rasi chart.
- ii. The nakshatra in which the planet is posited.
- iii. The association (PAC) with other planets.
- iv. The navamsha sign occupied by the planet or the position of the planet in navamsha chart.

Taking into consideration the planets, navamsha and nakshatra concerned, the results have been found and predictions given. *It is found that most of the results received after the analysis tallied with the actual events happened during the life of the native of the chart under discussion.*

CHAPTER 4

DEEPER ANALYSIS

A further step to delineate the complete chart, to clinch all these factors is required. The idea behind the earlier discussion was without looking into the combined effect of other houses, whether we can find correct prediction. It is seen that predicting any event becomes very easy if the promise (prarabdha) in the chart is traced.

The analysis upto the discussed stages has given us a complete picture about the tendencies/probabilities regarding the events which can take place during the life of the native. There are many other methods to be followed for giving predictions. I will discuss them.

The confirmation of the earlier findings can be done through a final step for delineation which follows as under :

1A **Lagna** : From this house, the judgement will be made for the general health of the native, which is a primary factor. For judgement of any bhava the following factors are to be considered :

(a) The bhava

(b) Lord of the bhava

(c) The **sthir karaka**

Note: There are many other karakas mentioned in astrological text books.

(d) **Bhavat bhavam** (house to house). Here first from first is first (i.e. lagna). Fourth from fourth house is seventh house (i.e. results of fourth house), ninth from ninth is fifth and so on.

(e) The concerned bhava from **karaka** planet. (for father Sun is the karaka. 9th from Sun is also father).

B The information about the position of lagna can be judged from :

- i) Lagna
- ii) Lagna lord
- iii) The Moon

The Sun may also be considered, but for health and physical structure of the body only the Moon is to be taken. In case all the three show a similiar position, which is not found very favourable, the reference should be made to the position of the Sun. Otherwise, Sun is taken as the soul of the native. It reveals the nature, inclination and feelings of the native.

iv) The second house (first from first). The second house is the house of intake. The food habits of the native are seen from this house. The health of the native surely depends on this intake or his food habits.

v) The Moon sign or the Sun sign.

Analysis: The lagna is Aries, a movable sign, fiery sign, kshatriya, brave, prishtodaya, Rajo Guna, the birth is of night time so strong lagna, billious etc. In navamsha it has gone to Scorpio, a watery, fixed, Brahmin, hidden nature (weak as birth is of night time). It shows that the native will not be of very serious nature, but having strong physique and mind. The lagna is in the constellation of Venus (good). The lagna lord is posited in Mercury's sign and in its own nakshatra and navamsha and is aspected by Jupiter. The native will have good physique, sound health. The position of the karaka Moon is very good, so disease-free body.

Conclusion: The native will have sound health, disease-free body. The effect of Saturn on lagna lord, Rahu in association with Mars in navamsha may cause some skirmishes. The native will be, otherwise doing well. He will be slim, of moderate height and handsome.

- 2 **The second house** is well posited, the lord of second will have mixed effects. The karaka of the second house Jupiter is well placed. The second house from second has Mars (not good) and the second from Jupiter is aspected by Venus (good) and Saturn (not good as it is malefic but as lord of 11th will be good). **The financial position of the native will be good, but not very sound.** The position will be further confirmed from the ninth and eleventh houses.

- 3 The karaka for the third house Mars posited in the third, which is undesirable as regards co-borns are concerned. Either the native will have no younger brother immediately after him or will have trouble from them. The aspect of Jupiter has promised to improve the position. The lord of third is also well posited and unafflicted. I would like to invite a reference to earlier discussions regarding this house. No repetition will be done here. Further confirmation can be had from **Drekkana or Dreshkona** (D/3), which will be dealt with in other chapter on "Dynamic Configuration" (Chapter 5).

Jupiter is a planet which sprinkles holy water (Ganga jal) and certainly gives good results of the house aspected by it. In spite of the affliction, the native may get the result of that house (because of grace of Jupiter), will also face troubles (because of afflictions). Mars' position in third, Jupiter's aspect (nullifying the bad effect of Mars), Mercury posited with Sun and aspected by Jupiter **means the native will have three co-borns**. (Native, his sister, brother and then sister). There are other methods of estimating the number of co-borns which will also be discussed in later chapters. No single principle or formula works, it should be further confirmed with two or three methods. Astrologers should not do haste to give predictions. They should think seriously and after proper scrutiny the prediction should be given to maintain the prestige of this great science.

If we see third from third (5th house) or third from karaka Mars (5th house), we find Sun in own house with Mercury and aspected by Jupiter. No malefic effect. There is promise for having younger brothers and sisters.

- 4 **The fourth house** is very important house. The karakas for this house are the Moon and Venus.

A **For Mother** : Karaka is the Moon.

The analysis of the fourth house has already been done. It was found that the fourth house has a very disturbed position. While giving prediction, special attention will be paid to find what aspect concerning the fourth house will cause trouble or disturbance to the comforts of the fourth house. If native is to face trouble, he will get first the benefits of that house. Let us say "trouble from brother". this means he will first have brother, then the question of trouble comes.

To distinguish the results of each situation, the different karakas are given by the sages and also different divisional charts or vargas to locate and confirm the actual position.

A reference to the discussion regarding fourth house made earlier may be referred to. The further delineation of this bhava with some of the advanced techniques is done in chapter 5 on "Dynamic Configuration".

(a) **Fourth from fourth**: The seventh house has the aspect of the Moon, Jupiter and Saturn. The lord of seventh Venus is debilitated and afflicted by Mars. Jupiter

and Saturn also aspect the lord of the seventh. This is not a very comfortable position. The aspects of Jupiter and the Moon are auspicious and beneficial and will mitigate the evil effects.

(b) **Karaka:** The Moon is the karaka for mother. The Moon is strongly placed in rasi chart as well as navamsha. Neither a malefic aspect nor a benefic. The position indicates no problem to mother's health.

(c) **Fourth house from the karaka :** The house is afflicted by Rahu. The lord of this house the Moon is well posited (good). There is aspect of Jupiter and Saturn on the house (mixed results).

B. For Conveyance, Property etc.: In addition to earlier discussion we will discuss the karaka Venus only. Venus is debilitated, afflicted by Mars in rasi as well as in navamsha. Jupiter and Saturn aspect in rashi chart as well as in navamsha. The native will have own house and conveyance, but there may be some problems from them.

Conclusion : The native will enjoy the company of and happiness from mother. There may not be much problem to the health of the mother.

The affliction to the fourth house, karaka Venus etc. shows trouble from conveyance etc.

In general, the affliction to fourth house indicates a trouble because of the unhappy atmosphere in the house. Hence, on one

account or the other, the worries will surround him.

The native will certainly have land, property etc., will not be successful if he starts his own factory, establishment etc. This indicates he will be doing job for others (meaning service).

5 Fifth House: Education, Progeny etc.

Education: The earlier discussion in this regard concluded that the native will be intelligent. He may face difficulties during the course of education.

Progeny: The fifth house is in a very comfortable position.

Fifth from fifth: The ninth house is afflicted by Mars and Saturn. The lord of the ninth is afflicted by Saturn.

Karaka: Jupiter, the karaka for progeny, is vargottama (strong) aspected by Sun, Mercury and Saturn (mixed).

Fifth from karaka: Mars is posited in this sign with the aspect of Saturn. Jupiter's aspect is a saving grace. The lord of this house is posited with friend Sun and receives aspect of karaka Jupiter.

Fifth from the Moon: The same as from lagna.

Conclusion: The native has effect of Sun, Mercury, Jupiter, Mars and Saturn. **Sun certainly gives a son.** Sun represents the father and forefathers. The ashirvada of forefathers will certainly give a son for the

continuance of the family thread. If the Sun is weak and afflicted, remedial measures are to be taken.

The strong position of the Sun and Jupiter promises progeny. The malefic effects will cause delay and also abortions or some other trouble. There is effect of favourable planets, the association of fifth and the ninth lord i.e. the fifth from lagna (Sun) and the fifth from fifth (Jupiter). The fifth from karaka, fifth from lagna, the fifth from fifth house and fifth from the Moon are all associated. It is very simple to predict that the native will have progeny. The fifth and ninth houses, the sign where fifth lord, ninth lord are posited, the Moon sign and the sign where karaka is posited are all odd signs (male). The Sun is also male. The chances are that the native will have first a male child. In totality there may be three or four pregnancies, but will have two children. The second may be daughter. *The native had a son on 23rd June 1990 and another in 1993.* The effect of Saturn caused delay. The first son was born when the native was twenty eight years old.

6 The Sixth House :

The discussion had already been made. The karakas for this house are: **Mars, Saturn and Mercury.** the question is how to use them? When and which aspect of the life of the native they are to represent? This is a general question asked by students of astrology. I have inferred some meanings of

this and have used them. It would appear very simple to the readers after reading the views of the author.

The sixth house is — (अरि) ARI or Ripu bhava meaning enemy. It represents maternal uncles etc., house or seat of disease, litigation, competitive spirit, valour, resistance power, sportive tendencies etc. Sixth house also gives interest in social service, kindness towards and service of down trodden and also qualities of leadership. According to the characteristics of planets we can choose the karakas. For litigation, outdoor games, work of courage, disease and valour etc. Mars can be used as karaka. For maternal uncle or maternal side relations, disease, enemies etc. Mercury can be the karaka.

For elections, political rivalry, enemies, poverty, debts, penalties, diseases etc. Saturn becomes the karaka.

All the three karakas denote disease or trouble to the body. Their different functions can be very well understood that Mars causes operation, accidents etc. Mercury mental, nervous system, loss of memory etc. whereas Saturn causes paralysis etc. These can further be defined in detail while discussing medical astrology. Here I have tried to give a hint for understanding the difference between the three karakas for sixth house.

(a) The sixth house is afflicted by Saturn and Mars.

(b) Both the karakas Saturn and Mars are afflicting each other. These are having 6/8 position from each other.

(c) Sixth from sixth i.e. Aquarius. its lord Saturn is afflicted.

(d) The sixth from Saturn (Gemini), sixth from Mercury (Capricorn) are afflicted and the sixth from Mars (Scorpio) not afflicted but the lord Mars is afflicted by Saturn.

As the lagna and the Moon (also Sun) are well posited and unafflicted, the native is enjoying good health. The karaka for fourth. Venus (causing accidents), and the affliction of the third house causes accidents on road (third is while moving, or driving on road etc.). Third is also eighth from eighth (house of obstruction and longevity). Affliction to 8th from 8th i.e. third can also be a cause of accidents.

The weak sixth house will not make the native to suffer and will not increase enmity. Mars(self), Saturn (karma), Venus (partnership and speech) and Jupiter (ninth lord) will give the native a nature to have cordial relations and also vigour to crush enemies.

7 **Seventh house** has no planet, aspect of the Moon and Saturn is there. The lord of seventh is afflicted by Saturn and Mars. The aspect of Jupiter is the only benefic effect.

(a) **Karaka** for the seventh house is Venus, which is debilitated and afflicted (bad).

(b) **The seventh from Venus (karaka) i.e.**

12th is aspected by Saturn, but the lord of seventh from Venus, Jupiter is also afflicted in Saturn's sign which is not desirable.

Thus we may conclude that the native may not have long marital bondage. The position in navamsha is also not good. God may bless him with long happy married life. According to the position discussed here only Jupiter's aspect on seventh house, seventh lord and in navamsha too on Venus and seventh lord is the favourable position. This does not mean that we have decided about the longevity of married life. This can result into reduction of comforts of married life, health problem of wife, separation etc. The position of 2nd and 8th house taken together will give hint about longevity of married life. But there are other methods to calculate the longevity of the spouse.

8 **The eighth house** for longevity, third house (eighth from eighth), eighth from the Moon etc. are seen along with the karaka for the eighth house i.e. Saturn.

(a) The eighth house does not receive any aspect. The position of eighth from the Moon is also the same, as the Moon is posited in lagna.

(b) The eighth from eighth i.e. third house is afflicted by Saturn and Mars, but Jupiter is also aspecting the third house and third lord.

(c) The aspect of Jupiter on eighth lord has a good effect.

(d) The eighth from karaka Saturn, has Sun

(in own house) with Mercury (good for longevity) and aspect of Jupiter, all indicate a favourable position.

(e) There are no benefics in kendra from the lagna and also from the Moon. The Moon is a benefic planet in lagna. The Moon is strong being Uchchabhilashi (moving towards exaltation).

(f) If the principle of "PAM"* is applied:

- i) Lagna lord (dual sign) and eighth lord (dual sign) = M
- ii) Saturn movable and Moon movable = P
- iii) Lagna and the Moon are in the same sign (movable) = P
- iv) Hora lagna (Libra) and lagna (movable) = P

Note: Lagna and the Moon are in the same sign, hence to be ignored. Out of the three two indicate 'P'. Otherwise also as a rule, if there is difference in the results of first three cases **Hora lagna** is the deciding factor.

The native will have long life according to this principle. The absence of benefics from kendras, from lagna and the Moon, is an unfavourable position. Sometimes the life span, in such cases, is reduced to madhya ayu. The inauspicious dasha and transit can prove dangerous.

9 Ninth house: The karakas are Jupiter and the Sun.

* P = Purna A = Alpa M = Madhya age span

- (a) i) Jupiter is karaka for religion and luck. In this chart Jupiter is also the ninth lord.
- ii) Ninth house is afflicted by Mars, Saturn(R) and ninth lord by Saturn and the Sun.
- iii) Ninth from ninth, the fifth house is very strong and favourable.
- iv) Ninth from Jupiter aspected by Saturn. The lord of this house, Venus (of Libra) is afflicted by Saturn and Mars. The aspect of Jupiter on ninth house and its lord is better (a very saving grace).
- v) The karaka Jupiter is in a malefic sign of Saturn and aspected by Saturn (not good). The aspects of the Sun and Mercury are good. Jupiter is retrograde, will be able to give results.

Conclusion: There are effects of Jupiter, Saturn, Mars, Sun, Mercury and Venus.

Jupiter is ninth lord, Saturn lord of the tenth (karma) and eleventh (a Badhakadhipati) and a spiritual planet. It will give inclination towards religion, but causes delay in rise in life.

Mars is the lagna lord posited in third and aspecting ninth house. The effect of lagna lord shows that the native will be hardworking and can make his fortune. He will be a self made person. Being lord of eighth Mars may cause hindrances in career or rise in life or sudden changes. he will be

inclined towards religion. He will study astrology, scriptures etc.

(b) Another karaka the Sun

The analysis of the ninth house has also been done in previous pages. Still some more views are :

- (i) The Sun's position too has been found very satisfactory, except the position in navasmha.
- (ii) Ninth from Sun i.e. lagna (Aries sign) is well posited, the Moon (a benefic) posited therein. There is no malefic aspect. The lord of this sign Mars too is well posited in own constellation, own navamsha and aspected by Jupiter. Saturn's affliction can cause concern.
- (iii) The Sun represents father. The ninth house is also treated for father. Some learned astrologers consider the tenth house for father. For this the readers are requested to refer to my book "Predictive astrology", wherein I have elucidated my views.

The tenth house has Saturn posited in own house with Ketu and afflicted by Mars. The position is gloomy, Jupiter being retrograde has a benefic effect on tenth house.

Conclusion: The position of ninth and tenth house is very unsatisfactory. The position of the ninth from ninth, (5th house) Sun (karaka for father) and the position of ninth house from the Sun are very satisfactory. Further light can be thrown by

Dwadasamsha chart. Here we can safely conclude that the native's father will be long lived. There may be some problems due to family circumstances faced by his father or the native may remain away from father occasionally. The horoscopes of other brothers and sisters will also have their independent effect on the life of father. A clear picture can be drawn only after studying all the horoscopes together.

- 10 **Tenth house has Saturn.** The lord of tenth is posited in own house but with Ketu. The aspect of Mars, the lagna and 8th lord on 10th house and 10th lord is also not good.

Method Of Selecting Karaka

Karakas for tenth house: As per classical texts, Mercury, Sun, Saturn, Jupiter and Mars are the karakas. Except the Moon and Venus all other planets are defined as karakas for this house.

Let us first think about the other significances of each of these planets :

	Planets	Karaka of House/s	Relations
i)	Sun	I	Father
ii)	Mercury	VI	Maternal relations
iii)	Jupiter	II,V,IX,XI	Paternal grandfather, husband and sons
iv)	Mars	III,VI	Co-borns
v)	Saturn	VIII, XII	Sister/brother in law, servants, low caste people

There are so many karakas for the tenth house, the natives can have different types of modes of earning or professions represented by these karakas. I will submit my views to indicate the use of the planets "karakas" for different type of professions.

Sun: If the Native's tenth house shows association with Sun, he may have connection of his work with Govt., mountains, hills, forests, courts, exhibitions, social gatherings, fort etc. if the native is connected with Medical profession, he will be a doctor of eyes, bones, heart diseases etc. He can be in army or in a commanding position.

Mercury: He will be connected with mercantile activities, public speaker, commercial things, churches, schools, playgrounds, gambling dens, dealer in vegetables, oilseeds, edible oils, currency, alloys and brass, green products etc. He can be a clerk, poet, intellectual, educationist, author, tradesman etc. If a doctor, he will be dealing with skin diseases, nervous system etc. The native may be dealing in communication systems.

Jupiter: It is considered for philosophers, aptitude for every science, knowledge and wisdom. He is preceptor of God/devas. He will be connected with banking, treasury, education or be a goldsmith etc.

Mars: The native will be an ambassador, military officer, engaged in commercial activity, aerial journeys, weaving, public

speaker, commander-in-chief of celestial army etc. He may be having factories, furnaces, dealing in engines, boilers etc. The native may have profession connected with copper, metals, mines, minerals, coral, weapons, land, tobacco etc.

Saturn: The native may be in service connected with air, mountains and hills, forests regions, dirty places, iron, sapphire, cremation grounds, burial places, prisons, old people etc. He may be a dealer of black gram, hemp, barley, oils etc. If a doctor he will be a specialist of excretory system, teeth, muscles, bladder, wrist and feet, asthma, tuberculosis, epilepsy or hysteria, pains in the joints (Arthritis) and ulcers.

For each profession, the different karakas concerned will be used.

The selection of profession can be made on this basis. *The planet which is strongest or connected with 10th will indicate the profession. if there are more than one planet, that are strong, there can be more than one activity.*

METHODOLOGY TO FIND PROFESSION

Use of tenth house : From this house, an astrologer can decide about the profession. The planets connected with tenth will indicate the type of profession. The study of the house, karakas of the house, the concerned house from this house (10th from 10th) and 10th from karaka (Bhavat bhavam), reveals not only the type of

profession but success in profession also. For finding out the type of profession of the native the study will depend upon many things :

- i) Source of earnings
- ii) Social activities
- iii) Religious activities
- iv) Political activities
- v) Missionary activities
- vi) Film and T.V. serials
- vii) Preceptor, teacher or guru etc.

Each of the above activities are governed by different planets. The native may be doing one main activity for earning livelihood and simultaneously be engaged in social or political activities.

In the present case (example horoscope), the native's tenth lord is Saturn (in the constellation of the Moon – liquid, milk, chemicals etc.). Jupiter is posited in the eleventh house, but being retrograde gives effects on tenth, posited in the constellation of Rahu (who is posited in the watery sign of the Moon and affects 10th house. The Sun is in the constellation of Ketu, who is posited in 10th house. Jupiter is aspected by Sun (govt.) and Mercury (commercial activity, trading etc.). Jupiter has control over 9th, 12th, 11th, 10th, 2nd, 4th and 5th, all connected with profession. The native is working in the milk plant and connected with the company which is owned by

government and dealing with distribution of the milk.

The effects of ninth lord Jupiter, on fifth lord Sun, Sun and Mercury combination aspected by Jupiter, in fifth from lagna and also from the Moon have made him interested in spirituality and astrology.

The tenth house and tenth lord are aspected by Mars (lagna and 8th lord). Jupiter's effect (9th lord and 12th lord) is also there. The native will be doing pious and auspicious actions. He will get respect and success in profession. He may also face some changes, hindrances and difficulties because of affliction by Mars (8th lord) and Jupiter (12th lord), or he may be having hard duties to attend.

- 11 **Eleventh House represents:** gains, elders etc. It is called **Laabha bhava**. Karaka for this house is **Jupiter**. Jupiter is the karaka for II, V, IX, X and XI. It shows that the eleventh house gives the total results of that all bhavas. The link of this house with any bhava will enhance the result of that bhava. The notion that the eleventh house is house of wealth only is wrong. It's results are not concerned with only one type. No other planet is the karaka for eleventh except Jupiter. Jupiter rules over second (wealth), fifth (education, children etc.), ninth (religion, luck), tenth (karma, actions) and eleventh (elders, gains and increase). In my opinion, if we consider the eleventh as the house of growth it will be better. The

eleventh house increases results of the houses that are connected with it. It is found that if native catches disease during the period of (dasha of) eleventh lord, the disease gets prolonged.

Note: Another very interesting analysis can also be done. From Aries (the first sign of Zodiac), the tenth house falls in the sign Capricorn. Capricorn has constellations of the Sun (energy and soul), the Moon (mind, desire, inclination) and Mars (capability to do action or energy). The sign is ruled by Saturn (service, profession). In olden days agriculture was the main profession of all. Some lower caste people used to serve the upper caste. Farmer are represented by Saturn. Jupiter represents Brahmins, Mars represents Kshatriyas. Sun represents kings and Mercury business community. In eleventh sign we get the constellation of Mars (coborns, friends, energy or strength), Rahu (miseries, doubts etc.) and lastly of Jupiter (elders, wealth, welfare etc.). Jupiter is the planet of growth. Mars and Rahu also cause increase in the results. The effect of Saturn gives chronicity. The result is that the eleventh house causes prolonged sickness. While analysing the position of the eleventh house a careful judgement of planetary influences is necessary.

The eleventh is seventh from fifth (poorva janma punyas i.e. the good deeds done in the past birth). This is the fifth house from seventh (spouse). The seventh is third from

fifth and the lagna is third from eleventh. The third house is co-worker, friend, partner, arms etc. The karmas done in the past birth by the native and his spouse (7th is 3rd from 5th) were done together. The results of such karmas will be borne by them together, during the present birth. So the fifth, seventh, eleventh and ascendant are the houses having very close associations. *Eleventh is the house of punya balas (good deeds of past birth) of the past life of the spouse i.e. fifth house from seventh. Seventh is third from fifth meaning friend or partner in the (deeds of) planning done in the past birth. So also the ascendant (seventh house from seventh i.e. of spouse). The first is the ninth (religion) from fifth house. The seventh is the ninth from eleventh house.* The 7th house is the house of partner. The lagna is seventh from seventh (partner). The relation of the husband, wife, children and parents is all according to the karmas done in the past life or lives. We call it **Rinanubandhan** (bond towards each other because of **Karmic Relations** of the past life or lives).

- (i) Jupiter karaka of the house is posited in this house. According to the principle **Karko bhava Nashaya** (the karaka destroys the effect of the bhava concerned, if it happens to be posited there). The position of Jupiter in eleventh is not good, as regards the elder brother. Jupiter is aspected by Saturn,

a malefic planet and Mercury, Sun (a friend) but a malefic planet and Mercury (enemy). According to earlier discussions it is clear that the lord of eleventh is afflicted. The picture is not favourable regarding elder brother is concerned.

- (ii) The eleventh house from eleventh i.e. ninth house. The house and lord of the house both are afflicted.
- (iii) The eleventh from Jupiter, the karaka for elders, i.e. the ninth house again. The position as already discussed is not good.

Conclusion: The native will not have any elder brother.

The native is eldest and has a sister, a brother and a sister after him.

As regards other results of eleventh house, the association of ninth lord and fifth lord (Jupiter and Sun) is very good. The native will have benefic results of the fifth and ninth though the ninth house is afflicted. The association of the 3rd and 6th lord Mercury may spoil to some extent the good effects of Jupiter and Sun.

- 12 **Twelfth house** is the house of expenditure and Moksha (liberation, renunciation etc.) What do we understand from this? The meaning, applied generally by most of the astrologers is that the planet posited in 12th loses strength and does not give the effect of the house owned by that planet.

I have placed my views before the readers. Their views can differ. If my views are not accepted, or do not seem to be correctly interpreted, the readers can write to me. I am a very humble student and lover of astrology and always ready to learn and accept any reasonable suggestion.

A. The ultimate goal can be achieved by a native with all sincere efforts applying :

Mansa Vacha Karmana

or

Tan Man Dhan

meaning Mind (heart), speech, actions and body, desire or ambition and wealth. Dhan or wealth is nothing but the resources available with the native.

(a) **Mansa** (mind) — Fourth house represents heart and feelings of the native. The surroundings in which he lives. The mother of the native, who nourishes him, gives 'Samskaras' and good teachings. The Moon and the Sun are the planets concerned with this.

(b)&(c) **Vaacha** (Speech) & **Dhan** (Wealth) — The second house is the house which shows whether the native will have friends or foes. If a native speaks nicely, softly and with love, he will be able to increase the number of friends. The second house is recitation of Mantras, worship and Keertan which gives relief to the native. The eyes are also represented by this house. The native with his speech, wealth (the things in his

possession) and looks etc. can give peace and solace to others. Jupiter is the karaka of this house. For speech, Mercury is the karaka of 2nd house.

The nature of Jupiter, a planet of religion, children, education, wealth, charity, scriptures and sympathy is to give comfort, peace and happiness etc. to the native and others.

(d) **Karma** (Actions) — The third house (a company or association, hands, arms parakrama etc.), the sixth house (stamina and resistance power by which the native can suppress ill feelings and enemies). The enemies are Kaam, Krodh, Lobh, Moh, Madd & Dhambh [काम, क्रोध, लोभ, मोह, मद तथा मत्सर (दंभ)]. The tenth house is actions, duty etc.

(e) **Tan** तनः (Physical body & astral body): The native can take action because of the composite effects of all the parts of the body. The mind controls and the body acts. There are five "Karmendriyas" (limbs through which man does actions) eyes, nose, hands, ears and feet. There are five "Gyanendriyas" which warn us before doing any action. These make us to distinguish between right and wrong. If there is no control of the mind on all these ten senses, the man will not be able to do proper karmas. This all depending upon the Sun, Soul of the native and the Moon (Thinking and Prana). These two luminaries represent as karakas for the first house.

(f) **Man मनः** (ambitions or desires) : The working of the fifth house and ninth house are concerned here. The fifth is samskaras inherited because of past life or lives. The thinking, intentions, intelligence, ambitions, desire, planning etc. are represented by fifth house. The ninth house shows how much improvement can be made in the stock of Puniyaphalas by the native in the present birth. He can increase his punyaphalas (पुण्यफल) and mitigate the evils.

Eighth House: (Age) The native has a limit of time to make his future and to enjoy human birth. He can increase the punyaphalas (results of good actions) of the past birth by doing good karmas (actions) in the present birth or as the case may be. The native has been given limited number of years for this i.e. longevity represented by eighth house.

Seventh house : This is Marakasthana and also represents the life partner who helps the native in doing the actions and fulfilling the duties.

Eleventh House: is the sum total of all the actions. It indicates the possibilities of enjoyment available to the native.

Eleventh is the house of fame and name. The native because of his belongings i.e. wealth, education or position or knowledge or status in life can earn fame and enjoy or store the balance.

Twelfth house: The balance which remains after this is shown by the twelfth house. I

call it also **Bhogya Sthana** and not only house of expenditure. The bed comforts again mean enjoyments which are represented by twelfth house. This is the exit from this universe or say from physical body. This is the house from where the soul gets liberated. *This house shows the fixed investments or assets. This is the eighth house from fifth, shows the inheritance which will be enjoyed by the children of the native.* To cut short the discussion, I would like to say that twelfth house is a very important house. The last but not the least, it shows the ultimate aim to be achieved. It may be wordly achievements or spiritual. There are certain planets whose position in this house is always appreciated by the astrologers. This house shows hospitalisation sufferings and imprisonment also.

The karakas for this house are Saturn (who takes forcibly towards yoga) and Venus (who takes towards Bhoga i.e. enjoyments). It is upto the native to chose either of the two. The positions of Ketu (Moksha), Jupiter (Gauloka), Mercury (Vishnu loka) in twelfth are considered preferable. The Sun (Pitru loka), Venus (Mrityu loka), The Moon (Shiv loka) and Saturn, Rahu and Mars may be showing difficult death and also sufferings etc. in next birth.

- B. The twelfth in the chart under discussion has no planet. The karaka Saturn posited in own house, but with Ketu and aspected by Mars i.e. afflicted. Venus, the other karaka is also

debilitated and afflicted by Saturn and Mars. The aspect of Saturn and Venus on twelfth house is favourable. The twelfth from Saturn is afflicted, but the twelfth from Venus is good. The twelfth from twelfth i.e. eleventh house lies in a favourable position. The native may suffer in the old age, may be hospitalised occasionally, but will have full enjoyments of life.

The native had an accident on 12th January, 1996 suffered cracks at three places in right arm and got plaster in hospital. The right arm is the third house.

I have tried to delineate the chart. The work if appreciated by readers, I would consider it to be the grace of God. They may pray to god for a better future for astrology.

To save the space only one chart has been discussed. In my experience, I have used this method of delineation in my lectures to the students and found giving a high percentage of successful predictions.

Firstly we are supposed to know about the promises in the chart, which is called **Prarabdha**. After that the question of timing of the event comes.

To summarise the discussion made on the chart, it can be said as on next page:

Predictions:

The native will enjoy good health, with minor injuries due to accidents etc., but at times diseases connected with blood may be foreseen. However there is, nothing to worry.

he would enjoy the company of brothers and sisters. The parental happiness is also there, but some problem may be there to the father. This aspect needs further confirmation from the horoscope of the father of the native.

The mother may be long lived, but father will not be.

He will have two children, wife will be of good nature and beautiful. She will be intelligent and helpful in the financial upliftment of the family.

The native will get a normal education. He will be intelligent, hard working and may be cheated by friends. Overall a religious, successful and diligent person.

SECTION II

CHAPTER 5

DYNAMIC CONFIGURATION

— To know

*That which before us lies in daily life,
is the Prime wisdom*

— John Milton

What is configuration ?

Literary meaning of "Dynamic" according to the English dictionary is :

"A branch of physics dealing with force as producing or affecting motion, physical forces etc."

CONFIGURATION: means "shape, aspect, conformation, arrangements etc."

Both the meanings are very much connected with the science of stars — the super science Astrology. Astrologically "Dynamic configuration" means to understand and interpret the **Sutras** written in classical texts, by using different charts as prescribed therein (to confirm the results found after delineation) covering the meanings and shape, aspect, combination of planets forming yogas etc. By this arrangement

of confirmation of the results of delineation, a perfect position of the "**Prarabdha**" (promise in the birth chart) can be arrived at.

The analysis of the birth chart by using **Sutras** and **Yogas** given by learned savants of astrology, including the divisional charts etc. will help in giving a forceful interpretation of these principles.

Demonstration :

1. The chart below, though of young boy, is discussed to show the difference in the pattern of education.

He will have low recuperative power, but becomes stronger at later age, very courageous, fond of water, intelligent, have few sons, attached to the family, extremely sensitive, may be interested in service to the society, social nature or becomes very familiar. He will be reputed in his circle or society due to good speech, serving nature and wisdom is his asset. Unhappy married life.

- (a) **According to Saravali:** The native will be timid, owner of many residences, learned, intelligent, enduring etc. He may be fickle minded. He will destroy the enemies, troubled by diseases of the anus, crooked disposition, sensuous and very phelgmatic. He will have a female look. He will be honoured for his virtues. **He will have a sister/sisters elder to him**, will be bereft of relatives, will have

few children, will have a vile wife (कुत्सित युवतिः) and will have a censured family.

He will enjoy other's wealth (परार्थभागी), be firmly obstinate (दृढग्राही), will live in foreign places, be valorous in his deeds (परदेशगः सुधीरः), be courageous (साहसकर्मि), will earn through water (जलाधिगतवित्तः) and will be endowed with wife, ornaments, robes and happiness.

(b) **Manasagari**: The native will be religious, will have sweet speech, friendly to all, will have all comforts, lucky, ambitious, handsome or beautiful, wealthy and of a gentle nature. He will be loved by saints, gentle persons etc.

(c) **Saravarthachintamani**: The ascendant is **Jala rasi** (watery sign) posited with Venus good planet, **Jada grahas** (dull planet). The lord of lagna the Moon (**Jada graha**) posited in **Padajala rashi** (quarter watery) sign i.e. **Libra**. Jupiter posited with lagna lord, Jupiter is planet of growth. The native will have well developed physique or will be stout. The aspect of Saturn **Sushka graha** (dry planet) on lagna lord, make the body lean.

The navamsha lagna is **Scorpio** (**padajala**), the lord of the navamsha is **Mars** (**sushka graha** or bad planet). This indicates the body will be lean or emaciated.

PLANETS & RASHIS— THEIR NATURE AND EFFECTS:

2. The nature of the planets and rashis i.e. **Suska**, **Jala rashis** etc.

I. Sushka Grahas or Lean Planets :

Sun, Mars and Saturn are suksha grahas. Sun and Mars – fiery planets – strong in tenth house. Saturn is airy planet and strong in seventh house.

II Jada grahas or Dull planets :

Venus and the Moon strong when posited in IV.

III. Well developed or stout :

Mercury (earthy planet), Jupiter (Ethereal planet) such as : If occupies lagna is treated as strong. If the lord of lagna occupies Sushka rasi, the body will be very lean or emaciated.

IV Division of Rasis :

The rashis are grouped into Poornajala (full watery), Ardhajala (half watery), Padajala (quarter watery) and Nirjala rasis (waterless signs).

(a) Poornajala :

Meena (Pisces), Karkata (Cancer) and Makara (Capricorn).

(b) Ardhajala :

Kumbha (Aquarius), Vrishabha (Taurus) and Dhanus (Sagittarius).

(c) Padajala :

Mesha (Aries), Tula (Libra) and Vrishchika (Scorpio).

(d) Nirjala or Sushka Rasis :

Mithuna (Gemini), Simha (Leo) and Kanya (Virgo).

V (a) If Sun, Mars and Saturn occupy birth or if birth lagna fall in any one of their signs or if the lord of lagna joins with Sun, Mars and Saturn or if the lord of lagna is posited in twelfth or eighth house — The native will have emaciated or lean or withered body.

Note : The habits have an influence on body and mind. Planetary influences do play a role in the determination of the mind and power of the soul.

(b) If the lord of the navamsha occupied by the lagna lord and conjunct with Sun, Mars or Saturn or occupies any of the lean signs. — the native will have lean or emaciated body.

Note: The strength of the evil planets and their intensity make the body lean or emaciated.

(c) Sun, Mars and Saturn are evil planets. It can be understood that if evil planets occupy lagna or join with its lord, stoutness ought not to be predicted.

(d) If lagna is in a lean sign and all the lean planets occupy that without favourable conjunctions or aspects — the native will have withered body, constant ill health or chronic diseases such as piles, asthma, dyspepsia, general debility or diabetes.

Note : General principle of the bodily comfort is based upon the good position of the lord of lagna. When it occupies the twelfth, sixth and eighth (dusthanas or

evil houses) house of losses, the body must suffer.

Note: Jupiter has been described as a stout planet. If lagna falls in a watery sign and Jupiter is in lagna — the native will be stout (put flesh rapidly).

- (e) If lagna lord is a Jala graha, is strong and conjunct with good planets — stout body.
- (f) If the lord of lagna is in a **Jala rashi**, conjunct with good planets and aspected by Jala grahas — stout body.
- (g) If lagna falls in any houses of the auspicious (good) planets — stout body.
- (h) If lord of the navamsha occupied by the lord of lagna, joins a (watery sign) **Jala rashi**, no malefic aspect(s) and the lagna falls in a benefic sign — native will have corpulent or stout body.
- (i) Jupiter in lagna or aspects lagna, being the **Jala (watery) rashi**, aspected or conjunct with benefic planets — native becomes unusually stout.

Example : The Moon or Venus being lord of the lagna and aspected by Jupiter or Mercury — stout body.

- (j) If Saturn or Rahu posited in lagna, the native suffers from evil spirits or devils. If Sun posited in ascendant and aspected by Mars — native suffers because of asthma, enlargement of spleen or some disease in the anus.

Note: Saturn and Rahu are most evil planets, their effects will be in bad direction.

(3) **There are three types of bodies :**

- (i) **Sthula (Physical)**
- (ii) **Sookshma (Mental)**
- (iii) **Karana (ethereal)**

Essence of the supreme spirit or God, Soul or Jeeva has been located in the body. At the time of death, a separation between the gross physical and the finer spiritual state takes place. After death the soul or mental power with its karma (actuating cause) leaves the body and goes away. After liberation from the body, the mental state, has its own peculiar flights into higher regions determined and directed by the karmas (which are to be merged in **Sanchita karmas**) he (Sookshma Shareera) did while it was in the body. The previous karmas give them attractions to regions which afford congenial mental stages. Some persons see devils while others never see them.

- (iv) **There are three Ganas :** (Deva (Godly), Manusha (Human) and Rakshasa (Devils). These are classified according to the birth star of the native. These do have their effects on the behaviour of the native. The evil spirits are attracted by Saturn and Rahu more than any other planet. Saturn is a black planet and absorbs all other colours and reflects darkness. Rahu is called dark planet (तमोग्रह). Rahu and Ketu give rise to the phenomena of eclipses. The darkness favours devils whereas light

dispels them.

It is clear that if Saturn or Rahu or Ketu occupy lagna the attractions of evil spirits is expected. Their own rays are congenial to the tastes of devils but troublesome to men.

- (v) Karana (Ethereal) state can be achieved only after the spirit is thoroughly purified.
- (vi) The Sookshma (spiritual or mental) state is the medium between grosser body (composed of **Pancha Mahabhootas**) and the karana.

CONJUNCTION OF PLANETS IN LAGNA

(4) If we keep in mind the aforesaid discussion it would help in finding the nature, mental thinking and behaviour of the native. These all have full control in making the body of the native i.e. lean or fat or stout or disease free etc.

The planets if conjoined with other planets and posited in lagna will give results as under:

- (i) Sun posited in lagna aspected by Mars — causes asthma, consumption, enlargement of spleen or stomach, disorder or complaint in anus. (Brihat Jataka ch. 23/ ver.8 states similiar combinations).
- (ii) Mars and Sun in lagna, aspect of Saturn— attack by weapons etc.
- (iii) Ketu in lagna and aspect of evil planets —native suffers from thieves and evil spirits.
- (iv) If the sign of lagna is movable or lagna or lagna lord occupies a movable sign —

native will be a traveller. If navamsha of the lagna be also in movable sign — the possibilities will be more.

Note: Malefics in lagna and aspected or conjunct by another malefic is bad.

(v) If lagna and lagna lord in movable sign — native will earn wealth in foreign countries. If otherwise, he becomes wealthy in his own country.

(vi) If the involvement is of dual signs — he will get wealth from many countries, but not necessarily by respectable means.

Conclusion: The strongly placed lagna, lagna lord and also having good aspects, will make the native, always happy. He will have disease free body. Otherwise the native may be unhappy.

House-wise Discussions :

5. **First house:** In view of the discussion made earlier, the native of chart — has movable lagna, Venus in lagna, no malefic aspect, lord of lagna with Jupiter indicates the native will be physically sound and have stout body. The aspect of Saturn on lagna lord and the malefics on both sides of the lagna make the body lean and also pose threat of disease.

As discussed earlier the three factors for judgement of each bhava i.e. bhava, lord of the bhava and karaka of the bhava are to be considered.

Here bhava is sandwiched between malefics and the lord (Moon) and karaka for health (Moon) and karaka for first house (Sun) are afflicted.

Mixed results as regards health are concerned. The native will face difficulty in "rising in life" (meaning — the native will face difficulties in making his future better).

Use of Hora chart

6. **The second house**, lord of the second house and karaka of second house in rashi chart are to be judged.

The lord is posited in twelfth (Mithuna — Nirjala, airy sign), bad, afflicted by Mars. This is not good. But the association of second lord (wealth), fifth lord (education), and tenth lord (karma) form a **Dhanayoga** and **Rajayoga**. This yoga is afflicted by Saturn (lord of seventh and eighth, a lean planet, sushka graha). It will cause hindrances in education and earning wealth etc. The position of Ketu in second is also bad. The aspect of Jupiter (having a Gaja kesri yoga), conjunct with lagna lord, on Mars and the Sun (5th and 2nd lords) will give beneficial results. This yoga of Sun and Mars though in a bad house, afflicted by Saturn, still the aspect of 9th lord Jupiter improves the position. 9th and 1st lord together cause a Rajayoga, joining of 7th and 9th lords again forms a Raja yoga. Jupiter with lagna lord is favourable. In spite of all odds, the native will be able to make his fortunes. He will get wealth from service and also from ancestral properties.

(i) This reading can be confirmed from the **Hora chart**.

(xii) Conclusion — Generally accepted views are:

(a) All male planets are good in the Hora of Sun;

(b) All female planets are good in the Hora of Moon;

The Sun in the Moon's Hora and the Moon in Sun's Hora and more planets in the Hora of Sun, the native will be rich.

Note : Rishi Parashara has given names for the two Hora of Moon as Pitar and for the Hora of Sun as Deva.

The planets falling in pitar hora (Moon's Hora) may mean that the soul is of someone from the family itself. The native will have resemblance in appearance and nature with any of the dead members of the family. This planet will signify sober, loving nature and interested in welfare of the family. If the birth of a forefather who died but could not leave ambitions and possessiveness for the family and assets, but has not taken birth, may cause disturbance in the family. Such a soul can also be revengeful. If the birth is

with the grace of forefathers to carry the family thread ahead, the family will prosper after the birth of such a soul.

The planets falling in the hora of Sun i.e. **deva loka** or the world of gods. Here it can be interpreted that the soul might have come from deva loka. There can be reason that due to curse of some devta, the birth has taken place. Or some devta or some pious soul has taken birth or due to the grace of devtas, the parents have got that soul. In this case the birth of the native will be religious and devoted to gods and brahmins. He will be interested in doing good deeds.

(xiii) Phaladeepika :

Sun's hora : If malefics in this sign (Leo). The native will be cruel, strong and wealthy.

Moon's hora : If benefics in this sign (Cancer). The native will be lustrous, humble, graceful, lucky, soft speech etc.

10 If mixed planets (benefic and malefic both), there would be mixed results. If the ascendant and the Moon be both strong and the lords of these signs also well posited, the native will be longlived, happy and famous.

In Chart under discussion:

(i) There are the benefics and malefics both posited in each hora.

(ii) Moon's Hora :

(a) Saturn — A malefic not desirable.

(b) Mars — The native will lack moral values and will lose his wife.

(c) Venus — He will be having beautiful wife. The Moon is strong, which will increase the good results.

(d) Mercury— The native will be famous, will have chaste wife and will be of good moral character.

(iii) Sun's Hora :

(a) Sun— He will be learned man, laborious and will have fortunes.

(b) Jupiter— He will suffer because of sickness.

(c) Lagna— He will be truthful, religious and likes to worship devtas etc. he will be wealthy.

(xiv) Rahu and Ketu being malefics in the hora of the Sun will give good results. Generally Rahu and Ketu are not considered by many learned astrologers.

The position discussed above indicates that the native will be educated (will be of medium height, face disturbance during career etc.) and wealthy (Moon and Sun both are in their own hora). The lagna falls in Sun's hora indicates that the soul is from "deva loka".

and The position analysed from the second house is confirmed from the Hora Chart.

Use of Drekkena (Dreshkona) :

(7) Third House :

(i) For judging the third bhava, we will consider Drekkena.

			Rahu Sun
Moon	DREKKENA		Venus
Ketu Saturn	Lagna	Jupiter Mars	Mercury

D/3

Saturn Ketu 9		Jupiter Mars 7	
10			Mercury 6
	Moon 11	8	5
12		2	
	1		4 Venus
		3 RA Sun	

(a) The Drekkena is used to know the happiness from co-borns.

द्रेष्काणे भ्रातृजं सौख्यं

(b) Dreshkona is studied for the happiness through co-born (Parashar Hora Shastra).

द्रेष्काणागडाद् बन्धु सौख्यं विचिन्त्यम् ।

(c) All matters relating to the prosperity,

longevity etc. of the co-borns have to be analysed from this varga.

- (ii) The three divisions of a sign are given the names Narada, Agastya and Durwasa respectively.

नारादागस्तिदुर्वासा द्रेष्काणेशाश्चरादिषु

— Parashara

These above names will help in judging the nature of the native.

The third house is the house of communication, writing, ear or hearing-aid, arms, friends, neighbours etc. The position discussed here is about the co-borns only. The number of co-borns, their health, education, welfare and happiness from them is judged from the third house of rashi chart (D-1).

- (iii) Further confirmation is made from this varga. The study of this chart is done as :

- (1) The position of the third and eleventh lords of rashi chart in dreshkona.
- (2) The position of the karaka Mars for co-borns and Jupiter for the elder brothers/sisters. Their positions in dreshkona also matters much.
- (3) Lagna of the dreshkona (Drekkena) and its lord.
- (4) Third and other houses of dreshkona (Drekkena).
- (5) The reading of the dreshkona treating it as the birth chart of the brothers/sisters.

The principles given about the reading from Dreshkona are as discussed on next page:

Appearances of DRESHKONA

(Phaldeepika by Sh. Mantreshwar)

Rashi	I	II	III
Aries	Ayudha	Quadruped	Ayudha
Taurus	Pakshi	Quadruped	—
Gemini	—	Ayudha	Ayudha
Cancer	Pig Face	—	Serpent
Leo	Vulture face	Quadruped	Ayudha
Virgo	—	Ayudha	—
Libra	—	Vulture Face	Ayudha
Scorpio	Serpent	Pasa	Quadruped
Sagittarius	Ayudha	—	Ayudha
Capricorn	Nigala	—	—
Aquarius	Vulture	—	—
Pisces	—	—	Serpent

— Ayudha (armed), Pasa (Noose), Pakshi (bird)

(a) The native born in the Drekkena of serpent or quadruped will be poor, cruel and unscrupulous.

(b) Dreshkona falling in dual, movable and fixed sign :

i. In a dual sign — The three Decanates (dreshkona) in their order will be Adhama (bad), Madhyama (moderate) and Uttama (good) respectively.

ii. In case of a movable sign — Uttama (good) , Madhyama (moderate) and Adhama (bad) respectively.

iii. In case of a fixed sign — Adhama (bad), Uttama (good), Madhyama

(moderate) respectively.

The results of these dreshkonas (drekkenas) will be in accordance with the name given to each of them.

(iv) If the above principles are applied in Chart under discussion, the results will be :

- (1) Lagna — In movable sign and in second dreshkona — Madhyama (moderate).
- (2) Sun — In dual sign and in first dreshkona — Adhma (bad).
- (3) Moon — In movable sign and in second dreshkona — Madhyama, vulture.
- (4) Mars — In dual sign and in second dreshkona — Madhyama (moderate) Ayudha.
- (5) Mercury — In fixed sign and in second dreshkona — Uttama (good), quadruped.
- (6) Jupiter — In movable sign and in first dreshkona — Uttama (good).
- (7) Venus — In movable sign and in first dreshkona — Uttama (good), face of pig.
- (8) Saturn — In movable sign and in third dreshkona — Adhama (bad), Ayudha (armed).
- (9) Rahu — In fixed sign and in second dreshkona — Uttama (good).
- (10) Ketu — In a fixed sign and in second dreshkona — Uttama (good), quadruped.

Summary of the results :

Uttama — 5 Five planets in Uttama is a very favourable position.

Madhyama — 3

Adhama — 2

- (a) Two planets Mars and Saturn in Ayudh dreshkona
- (b) The Moon in vulture dreshkona
- (c) Two planets Mercury and Ketu in quadruped dreshkona
- (d) Venus in Pig face dreshkona.

The native may get promotion in career and rise in life during the dasha period of Saturn and Mars which promises to bestow authority on him. The position of other planets is not favourable.

- (v) If the lord of the dreshkona lagna in this case of Mars be in his own varga, be associated with a benefic or be in his sign of exaltation or friendly sign — (if the rising Trimshamsa, Dwadashamsha or Hora endowed with strength or be in similiar position); the native will be gifted with all noble qualities, will be pure, clever, longlived, sympathetic and wealthy, will be blessed with children, will be widely famous and having royal comforts.

In the chart, the lagna is in 2nd dreshkona of Cancer falling in Scorpio (a debilitation sign). The navamsha lagna is the same debilitated sign of lagna lord. Mars the lord of dreshkona and navamsha lagnas is posited in Gemini (enemy sign) with Sun (friend) in rashi chart, in navamsha of Saturn (neutral) and in dreshkona of Venus (neutral). This means the native does not get the benefit

described in (V) supra. In Hora chart Mars is posited in Cancer. The association of Sun and aspect of Jupiter in rashi chart, Jupiter in dreshkona and also because of signs of neutrals in navamsha and dreshkona, he may do well. It can be presumed that the native will acquire high-medium standard in his life.

(vi) According to Manasagari

- (a) The native enjoys wealth, truthfulness and fulfilment of desires if the benefic is exalted or in own sign.
- (b) If a benefic posited in own dreshkona and also posited in kendra or trikona and is strong, the native accumulates much wealth, earns respect, has decent habits, will be learned and skilled in various types of arts.

In the chart, Mercury is exalted in dreshkona, but rule vi(b) is not applicable as Mercury is neither in kendra nor in trikona.

- (c) If the lord of any dreshkona posited in the sign of a benefic or aspected by benefic or aspects benefic – the native enjoys all types of comforts, happiness, health, fame, respect. He will be famous for his sincerity and devotion to his motherland. Due to this he will be renowned in the world. He will oppose other institutions.

— Directly, this principle is not applicable to the chart.

- (d) If the lord of the dreshkona is posited with the Moon or aspected by the Moon or aspected by Mars or aspected by Venus – the native earns wealth by following the path of religion and good deeds
- Not applicable in this chart.
- (e) If lord of dreshkona is exalted and posited in kendra – The native becomes king. If posited in own sign – very wealthy, if in friend's house – earns fame and enjoys respects.
- (f) If lord of dreshkona is posited in Panaphara (2, 5, 8, 11) and is exalted or in friend's house – native has good friends. He becomes king or is wealthy like a king.
- (g) If the lord of the dreshkona is in Apoklima (3, 6, 9, 12) and in the sign of a friend or own sign – the native will be very clever (intelligent in the present set up), has children of high morals and has agricultural income.
- (h) If the lord of dreshkona is posited in the sign of an enemy or debilitation, there will be scar, mole etc. on the part of the body represented by that sign.

Note: Wherever the 'lord of dreshkona' has been referred, it means the lord of the dreshkona in which the lagna falls.

(vii) In other classical books:

(ix) There will be difference in judgement of the bhavas, because of the position of planets in different dreshkona. Such as :

Sun in the Dreshkona of :

Sun : Own dreshkona is to make the native sickly, restless, victorious and glorious etc.

Moon : If the Sun is in the dreshkona of the Moon, the native will be rich, religious, pious, fond of music etc.

Mars : If the Sun is in the dreshkona of Mars, native will have enemies, will face obstacles, loss of wealth and children and company of bad people.

Mercury : The position of Sun in dreshkona of Mercury, the native has strong belief in his own religion, philanderer, sensuous, respects noble people.

Jupiter : If Sun is in the dreshkona of Jupiter the native will be polite, hospitable, virtuous, wise and an eloquent speaker.

Venus : If Sun is in the dreshkona of Venus,

it makes the person truthful and healthy. He will respect elders and noble persons. He is loved by women.

Saturn : If Sun is in the dreshkona of Saturn, the native will be immoral, sickly, ungrateful, discarded by close persons, suffers on account of bad habits and addictions. He faces trouble due to children.

The Moon in Dreshkona of :

Sun : The person becomes sinful, poor, weak, virtueless, devoid of self respect, ill fated, has many enemies, adulterous.

Moon : He will be learned, happy, attractive, surrounded by admirers, blessed with good children, friends and will be rich.

It is to be seen whether **Venus falling in Virgo dreshkona** (which is possible when Venus is in first dreshkona of Virgo, last dreshkona of Capricorn and second dreshkona of Taurus) will give the above results inspite of its debilitation.

Venus in **first drekkena of Gemini**, second drekkena of Aquarius and last drekkena of Libra will fall in Gemini sign in drekkena chart.

In earlier case **Venus in first drekkena of Virgo** will be having effect of Mercury and Venus. Venus being debilitated will give relations with wicked women. The association of Venus with Mercury will make the native intelligent but cunning. He may be having wealth but may be by doing unsocial deeds.

Venus is debilitated in rashi as well as in dreshkona, will be in navamsha of Capricorn, Aquarius and Pisces. Hence the effects of Saturn and Jupiter will also make difference.

If Venus in **second dreshkona of Taurus**

and posited in Virgo dreshkona, the position is better. Venus was in own sign in rashi chart and debilitated in dreshkona. In navamsha, Venus will be either in Aries (10° to 13°-20'), Taurus (13°-20' to 16°-40') or Gemini (16°-40' to 20°).

Venus will inherit effects of (from navasmha) Venus, Mars or Mercury, (from dreshkona) the effect of Mercury. Mars will make him sexually strong or over sexy. Mercury's effect will make him intelligent and attractive. Mercury and Venus combine may give jewels and gems. Mars association will bless him with good children.

The effect of the constellations will also have a major role to play.

Note : *It is seen that the position of Venus in these two signs Gemini and Virgo is not good for married life.* It may be as the classic text says that "loved by wicked women", which will cause discord in the married life of the native.

Jupiter : The two benefic planets (Venus and Jupiter) are joining in this combination. The position of Venus in the sign of Jupiter (in dreshkona) will be having the following position :

- (a) The first dreshkona of Sagittarius (Jupiter) in the constellation Moola (Ketu) in dreshkona of Jupiter and in navamshas of Aires (Mars), Taurus (Venus) and Gemini (Mercury).
- (b) The second dreshkona of Leo (Sun) in the

constellation of Magha (Ketu) and Purva Phalguni (Venus), in Sagittarius dreshkona of Jupiter and in navamsha of Cancer (the Moon), Leo (the Sun) and Virgo (Mercury).

- (c) The third dreshkona of Aries (Mars) in the constellation Bharani (Venus) and Kritika (Sun) in the Sagittarius dreshkona of Jupiter. In navamsha of Libra (Venus), Scorpio (Mars) and Sagittarius (Jupiter). Hence Venus will be in dreshkona and navamsha of Jupiter.

Venus, according to classical text in dreshkona of Jupiter will make the native distinct, charming, truthful, skilled in arts etc. The native will be affectionate and forgiving.

Upto (c) the position of Venus in Sagittarius dreshkona has been discussed. The position of Venus in Pisces, where it becomes exalted will be as under :

- (d) Venus in first dreshkona of Pisces (Jupiter) in constellation P.Bhadra (Jupiter) and Uttara Bhadra (Saturn). In navamsha of Cancer (the Moon), Leo (the Sun) and Virgo (Mercury).
- (e) Venus in second dreshkona of Scorpio (Mars) in constellation, Anuradha (Saturn), Jyestha (Mercury), in Pisces dreshkona of Jupiter and in navamshas of Libra (Venus), Scorpio (Mars) i.e. vargottama and Sagittarius (Jupiter).
- (f) Venus in third dreshkona of Cancer (The Moon) in constellation Ashlesha

(Mercury) only, in Pisces dreshkona of Jupiter and in navamshas Capricorn (Saturn) Aquarius (Saturn) and Pisces (Jupiter).

If we study the two situations discussed in (a) to (c) and (d) to (f), the reason why the sages treated Venus exalted in Pisces is very clear. Venus is at 27° of Pisces is in deep exaltation, when it is vargottama, in constellation of Mercury and in dreshkona of Mars. The effect of Mercury and Mars makes the position of Venus very strong. Venus will be in Pisces dreshkona only if it is posited in rasi chart, in the signs Pisces, Scorpio and Cancer. This will mean that Venus will inherit the effects of Jupiter, Mars and Moon.

Venus by its natural characteristics indicates wealth, beauty, art, ambitious nature. It gets knowledge or grace of goddess **Saraswati** (from Jupiter), strength to fulfill the ambitions and energy and strength (from Mars) and the charm, attraction, beauty, etc. (from Moon). The intelligence is acquired through Mercury.

Venus (own dreshkona) : The native will be inclined towards spiritualism, will be energetic, rich, moralist, leader of his own people, free from vices and will be charming.

Saturn : (Venus in friend's dreshkona). The person becomes adulterous, envious, miscreant, remains in bad company, will be imprisoned on charge of murder or may be assassinated etc.

Saturn in dreshkona of :

Sun : If Sun's dreshkona is acquired by Saturn—

- (i) If Saturn is posited in Leo (Sun) sign in first dreshkona, enemy's sign also in the dreshkona, of an enemy, in Magha constellation (of Ketu) and in navamshas of Aries (Mars) debilitated, Taurus (Venus) and Gemini (Mercury). This means Saturn will inherit the effects of the Sun, Ketu, Mars Venus and Mercury. Sun and Saturn are enemies, will cause struggles and obstructions in life. Saturn and Mars (Saturn treats Mars as enemy whereas Mars is neutral to Saturn) will make the native wicked, rude, harsh and courageous. Saturn and Venus combination will give him many daughters and happiness. The Saturn and Mercury combination can give impotency. Ketu will make him intelligent.
- (ii) If Saturn is posited in second dreshkona of Aries (Mars) debilitated in enemy's sign, in enemy's dreshkona, in constellations Ashwini and Bharani of Ketu and Venus respectively. In navamsha Saturn will be in Cancer (Moon), Leo (Sun) and Virgo (Mercury). In this case Saturn will inherit the effects from Mars, Ketu, Venus, Moon, Sun and Mercury. Only the Moon is an addition to (i).
- (iii) If Saturn is posited in third dreshkona

of Sagittarius (Jupiter) will fall in dreshkona of Sun, in the constellations P.Asadha (Venus) and U.Asadha (Sun). In navamsha Saturn will go to Libra (Venus), Scorpio (Mars) and Sagittarius (Jupiter) (i.e. vargottama if in the last navamsha). In this case Saturn will inherit the effects of Jupiter, Venus, Sun and Mars.

According to classical texts : Saturn if posited in dreshkona of Sun will make the native to struggle hard to achieve desired results. He will have many daughters. He will be happy, wicked and dull.

It means the position of Saturn in enemy's dreshkona is not good. But if we take navamsha, constellation and the sign in which Saturn is posited in rasi chart, the good effect can be also visible.

Moon : He becomes skilled in arts, rich, wise, free from opposition, and wishes to have a male child.

Mars : The person becomes deceitful, thief, accepts low job of menials and also mean, will be cruel, sinful, shameless, dirty, and have few friends.

Mercury : The native will be skilled in scriptures and sciences; will be religious and in the company of nobles. He will be appreciated and enjoys happy married life.

Jupiter : This makes the native tolerant, energetic, a good speaker, and noble person. He will be honoured, will also respect the

elders and learned persons.

The native will have good spouse.

Venus : A religious nature, enemy free life, no addiction, are the gifts of this yoga. The native will earn profits, will be religious person and will have sincere friends.

Saturn : The person is righteous, happy, healthy, distinguished, honoured by rulers and enjoys the company of many friends.

CHART IN QUESTION

i. Lagna is in second dreshkona of Cancer which is in Scorpio sign, which is Madhyama.

Cancer's second dreshkona of lagna makes the native greedy, philanderer, talkative, romantic, egoist, unsteady, suffering from ill health, dwells in fantasies, attracted towards female beauty.

ii. Venus in lagna in cancer dreshkona i.e. the first dreshkona of Cancer, hence in "Pig Face" drekkona. The native will be happy, educated, polite and of religious nature. He will respect parents and saintly persons. He will be grateful and glorious.

iii. The fourth house has:

(a) Jupiter and (b) the Moon.

(a) Jupiter in first dreshkona, which falls in dreshkona of Libra (Venus). The native will be prosperous happy, rich, will have gems and jewels, elephants and horses. He will win favour of rulers.

(b) The Moon in second dreshkona means in

"Vulture face" and falls in dreshkona of Aquarius (Saturn). The native will be sickly, wretched, pitiable, harsh, sinful and immoral. The native will face many troubles.

iv. Tenth house has Saturn in Aries (Mars), in constellation Bharani (Venus), in navamsha of Mars (Scorpio) and in dreshkona of Jupiter (Sagittarius) "Ayudha" and Madhyama (moderate). The native will be deceitful, thief, accepts low job of menials / lower status, will be cruel, sinful, shameless, dirty and will have few friends.

v. In eleventh house Mercury is posited in Taurus (Venus), in constellation "Rohini" (Moon), in navamsha of Aries (Mars) and in own dreshkona "quadrupped" and "Adhama". The native will be handsome, attractive, fortunate, devoted to religious matters and gives charity and has many friends.

vi. In twelfth house (Mithuna - Mercury) Mars and Sun are posited —

(a) Mars in constellation of Rahu (Aridra), in navamsha of Saturn (Capricorn), Saturn and Mars have exchanged their signs in navamsha and in dreshkona of Venus (Tula) called "vulture" and is Madhyama (Moderate).

The native will be handsome, sexually appealing tasteful, energetic, possesses gems, jewels. He will have very good dresses and vehicles.

(b) Sun in the constellation Mrigshira (Mars), in navamsha of Venus (Libra)

58" debilitated and has exchanged sign with Venus, in dreshkona of Mercury (Gemini) called "Uttama". The native will be truthful, generous, skilled in many arts. He will be appreciated by king, loved by women and will possess good vehicles.

Analysis of third house is as under :

The third lord is posited in eleventh, which is the house representing elder brothers/sisters. In a benefic sign and is between the two malefics the Sun and Saturn. Mars is also posited with Sun in 2nd house from Mercury. The degrees of Mars are more than Sun. So Mercury is exactly between Saturn (in 12th house) and Sun (in 2nd house). The third house is aspected by Mars, who is lord of 8th from third house. The lord of third from the third house is Mars aspected by Saturn posited with Sun (a Malefic). Mars is the karaka for third house. The native has no coborn. The third house from Mars has Ketu and whose disposer the Sun is in twelfth with Mars and aspected by Saturn.

In dreshkona, the third house and its lord are aspected by Mars. The third lord Saturn is posited with Ketu aspected by Sun. Again confirms the findings of the rasi chart.

The eleventh house has third lord (which is not good for elder brother/sister) which denies any elder atleast from same sex. Eleventh house is between malefics. The karaka of eleventh house is also afflicted and posited in enemy's house. The eleventh from Jupiter is afflicted by Ketu and the lord is afflicted by Saturn and Mars.

In dreshkona, the eleventh lord and the house is afflicted by Saturn. Jupiter is again afflicted here. The lord of lagna is posited in twelfth. The native has no elder brother or sister. He is the only son of his parents.

Sarvartha Chinatamani sloka 5/chapter 4 says that if the malefic is posited in third or aspects the third (here Mars aspects third house), the lord of third is between malefics (in this case the third lord Mercury is between malefics), it destroys brothers.

In other sloka (number 7), it is said that if lord of the third Mercury is in navamsha of Mars and the lord of the navamsha of the third lord (Mars) is posited in twelfth or combust (here not combust but with the Sun), it destroys brother.

Use of CHATURTHAMSA

(7) **Fourth House** : The fourth lord has exchanged house with lagna lord and both are benefics (very good results). The ninth lord Jupiter and lagna lord, the Moon, are posited in fourth which are forming Rajayoga and also Gajakesri yoga. This house receives aspect of Saturn (not good) and Saturn is debilitated. Saturn being seventh lord also forms a Rajayoga with ninth lord Jupiter and another yoga with lagna lord. The debilitation of the Saturn is also cancelled. (Being in kendra from the Moon and lagna).

In navamsha, the fourth lord Venus is in the sign of the Sun and the Sun is in Venus sign (exchange of houses). Actually Venus is in enemy's sign and afflicted by Saturn and Mars.

In navamsha chart, Mars is lagna lord and Saturn lord of third and fourth posited in lagna. There is exchange of signs by Saturn and Mars. This shows the native will have comforts of the fourth house i.e. mother, house, conveyance, etc. The position of Venus in Leo is not good. The exchange of houses by Venus and the Sun has negated the evil results. Mars is neutral to Venus and Saturn is friend to Venus. In exchange of houses by the Sun and Venus, the Sun is weak.

According to **Lomas Samhita** – If lord of the fourth house is in lagna or in seventh house, the native becomes learned, will not speak in meetings and will destroy the wealth of father. But according to **Yavana Jatakam**, the position of fourth lord in lagna bestows comforts of vehicle, fame, disease-free body, happiness from parents and gains from parents.

Garga Jatakam – He loves father and son. He is famous because of the name of father.

He has enmity with uncles. (this is the view of **Manasagari**).

The native has completed engineering. Both the parents are earning members, sold ancestral properties, purchased a flat few years back and now shifted to another kothi. They enjoy all comforts and happiness in the family.

There is no need of further clarification, if everything is clear from Rashi chart and navamsha. Still we will study (vargas) divisional charts to confirm the earlier findings. The discussion of **chaturthamsa** for learning sake is as under :

- i. The lord of fourth house of Rashi chart Venus is posited in Cancer (a benefic sign) an

inimical sign. It is in the same position in chaturhamsa as it is in Rashi chart, aspected by Saturn (a friend) and also by Mars (a neutral).

	Moon	Rahu	Sun
	D/4		Venus
Lagna Saturn			Mercury
Mars	Ketu	Jupiter	

11	Saturn	9	Mars
	10	8	Ketu
Moon 1		7	Jupiter
2	4	5	
Rahu	Venus	5	
3			6
Sun		Mercury	

- ii. The lord of lagna of D/4 is in own house aspected by Venus (karaka of fourth house and a yogakaraka in D/4). The position is strong.

- iii. The fourth house of D/4 has the Moon (lord of seventh) aspected by Jupiter, the fourth lord is posited in twelfth house (in Jupiter's sign), which is a friend's house. The Sun (8th lord) aspects Mars.

It shows that the results are similar to which were found during the earlier discussion. The good position of Venus and also its affliction, the position of fourth lord in twelfth, the 12th lord Jupiter aspects fourth house and also forms Gajakesari Yoga (if yoga is considered in vargas it shows that in Rasi chart, navamsha and chaturthamsa, Jupiter and the Moon has connections), this gives an indication that the native will be owning a house or getting it from parents, such as inherited property and so on. This is also the case with the native. His parents had shifted to a flat from ancestral property. Recently (1996) they have sold the flat and shifted to a bigger house.

USE OF DWADSAMSHA CHART

(8) Uptil now we discussed about the fourth house for their property and conveyance only, treating Venus as a karaka. Fourth house also represents mother. In divisional chart dwadashamsha (D/12) is the chart from which the predictions for parents can be given. The discussion on dwadashamsha is as under:

We have already discussed the position of fourth house and fourth lord, in Rashi as well as in navamsha, the karaka the Moon, is to be considered for judging the position as regards mother is concerned. The Moon is posited in Libra (4th house) with Jupiter, but aspected by

	Moon		Sun Rahu
	DWADASHAMSHA D/12		
Lagna Saturn			
Mars Ketu		Jupiter	Mercury Venus

11	Saturn Lagna	Ketu Mars 9
12		8
	10	7 Jupiter
	4	
2		6 Mercury Venus
	3 Sun Rahu	5

Saturn (which is the lord of fourth and fifth from the Moon). The fourth house from the Moon is aspected by Venus, Saturn and Jupiter(R). There is also aspect of Mars on the fourth from the Moon. Overall the position is good with some affliction. The position of fourth lord in lagna and lagna lord in fourth with ninth lord, shows that the parents will be very helpful and attached to

him and vice versa. A very good and favourable position.

In Dwadashamsha chart of the example horoscope:

- i. The lord of the fourth house of the Rasi chart Venus is posited (debilitated) in Virgo with Mercury. Debilitation is cancelled. The karaka the Moon is near exaltation sign, aspected by Jupiter. The position is very favourable. The Moon in all the charts in D/1, D/3, D/4 and D/12, is having connection with Jupiter.

The Moon is of shukla Paksha also.

- ii. The lagna lord of Dwadashamsha, Saturn is posited in own sign and receives no malefic aspect. Jupiter and the Moon are in Kendra. Mercury and Venus together posited in Trine. The malefics in sixth and twelfth. The position is very favourable for both the parents.

- iii. For father, we may also consider here, as the discussion relates to Dwadashamsha chart, which is concerned with both the parents.

The ninth house in rashi chart has no planet, but sandwiched between two malefics. The lord of the ninth is posited in kendra with the Moon (lagna lord). The position is satisfactory. The karaka 'the Sun' is with Mars and aspected by Saturn. (Not good, actually bad). The aspect of Jupiter on the Sun, on 9th from the Sun and position of ninth lord from the Sun is favourable.

In dwadashamsha, the position of the Sun is bad i.e. with Rahu and aspected by Mars.

The father will be very helpful and the native will have respect for the parents. The father may

not progress much but the mother may be in a better position or controlling all the affairs. Ultimately a nappy family.

If we also study the position of tenth house, we will find that the lord Mars is with Sun, aspected by Mars (not good) but aspected by Jupiter and the Moon. The position of Mars, the tenth lord of rasi chart in Aquarius navamsha (not good) but aspected by Jupiter and Venus (some relief). In dwadsamsa chart Mars is afflicted. The position of tenth lord, tenth house and lagna in dwadsamas is very good.

The use of dwadashamsha is very helpful in giving predictions about the parents.

CHAPTER 6 USE OF SAPTAMSHA

ब्रह्मादयुद्धाहसम्भूतः पितृणां तारकः सुतः ।
विवाहस्य फलं त्वेतत् व्याख्यात् परमर्षिभिः ॥

स्मृतिसंग्रह

The son who has taken birth after pure religious marriage can only get liberation or Moksha for forefathers.

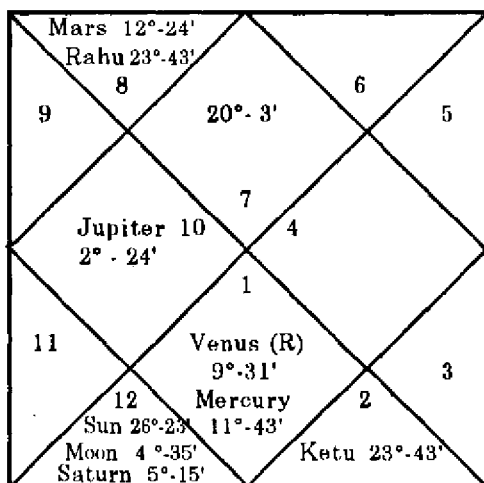

Fifth house : Another example for discussion is taken, as in earlier case (chart discussed in chapter 5), the native was married in 1997.

This is a very important divisional chart which concerns the fifth house of the birth chart. **Jataka Parijata** says that this divisional chart is useful to ascertain the character or temperament of the native. He will be cruelly disposed if born in a krura saptamsha. This also reveals facts about one's brothers.

We will discuss, this varga mainly for children. There may be a brief reference to different versions in classical texts. Let us enjoy the beauty of detailed interpretations by using this divisional chart.

Views of Learned astrologers :

- i) If the lord of fifth is posited in sixth house or twelfth house, the son dies or the native will have to adopt a son or the native may purchase a son or there may be enmity with the son.

- ii) The native behaves like enemy. He will be sinful and have stable body. If the fifth lord is a malefic, the native will become poor or childless.

—Yavan Jatakam

- iii) He will be poor, sick, childless, interested in keeping arms, if malefic, still more bad results.

—Garg Jatakam

- iv) Similiar as above at (iii) and also the native will have enemies.

- v) He will be mean or of fallen moral values. He will have incomplete education or there will be hindrances in education and he faces enmity.

Note : The benefic planet may not give such severe results. The position of Saturn in sixth house will indicate as under :

- vi) Saturn lord of fifth house in the sixth:

- (a) The native will destroy the enemies. He will be arrogant, wealthy and glutton etc.

—Phaladeepika

- (b) The person will destroy enemies and will have little learning. He will have financial gains and agricultural prosperity. He will have marks of injuries on the body.

—Bhrigu

- (c) He will be licentious, be beautiful, courageous, will eat abundantly, be crooked and will conquer many of his enemies.

—Saravali

- (d) He will be obstinate, sickly and deaf. He will have few children, quarrelsome in nature and suffers from venereal diseases. He will be clever, active and indebted.

—Dr. B.V. Raman

vii) Effect of Pisces being the sixth house:

The person will have enmity with his own sons and also with other persons.

viii) Saturn with the Sun :

The person will be learned, ready to work, skilled in the work of metals and behaves like learned and old (experienced) persons.

ix) The Sun, the Moon and Saturn together posited will make the native religious person, poor, may keep horses, elephants, involved in good activities and will be an angry person.

(a) The Sun and the Moon together—the person will be skilled in machinery and masonry.

(b) The Sun and Saturn together — makes the native skilful in working in connection with ores or earthen ware.

—Brihat Jataka XIV/1

x) If the lord of fifth is posited in sixth, eighth, twelfth or the native will not have a son. The fifth lord is afflicted by (Saturn is afflicted by the Sun) malefics — there is no son, if any takes birth, will not survive.

Results : The native has two sons (Twins) and a daughter. 34 years after marriage she took divorce. The sons are with father and the daughter is with mother. The native is an M.B.B.S. doctor.

II Our method of dynamic configuration given hereafter is also based on the aforesaid classical principles. But with this modern technique or method of interpretation, we will be nearer to the actual happening of the event.

- a) The fifth house has no planet, but aspected by seventh lord and second lord Mars.

- b) The lord of fifth house, Saturn is posited in sixth, a dual sign, even sign, watery sign, in Jupiter's sign, with the Moon (of Amavasya, a very weak) which is lord of tenth. The Sun, lord of eleventh, is also posited in sixth house with Saturn.

In above cases, it is seen that the fifth house/ fifth lord both are afflicted.

- c) Karaka (Jupiter) is debilitated i.e. weak.

- (i) In navamsha, Saturn is posited in Leo, an inimical sign, with the Moon and Ketu. The Sun also aspects Saturn. The position is bad.

(ii) Jupiter is Vargottama, aspected by Mars and Mercury.

It means that in navamsha also the position is uncomfortable

- d) **The fifth from fifth house : i.e. ninth house:** The ninth house also receives eighth aspect of Mars. The lord of the ninth is posited in seventh (strong) with Venus (lagna lord) shows that the lord is very strong.

- e) **The fifth house from Jupiter (Karaka):** The fifth house has Ketu (not good), aspected by Jupiter (good) and aspects of Mars (bad). The lord Venus is well posited (as discussed supra).

Conclusion: Saturn is in its own constellation, 20° away from the Sun, hence strongly posited. There is exchange of house by Jupiter and Saturn. (Though it concerns with third and sixth only) So Saturn's position in Jupiter's sign becomes

favourable. The native will have children, sons and daughters, but some problem may be experienced because of placement of fifth lord in sixth, afflictions etc.

f) Saptamsa Chart :

i) The fifth lord of Rasi chart Saturn is exalted, posited with the Moon (same as in Rasi chart and navamsha chart) and afflicted by Mars and Rahu. The Karaka Jupiter is also exalted, but afflicted by Mars.

ii) The lagna of this sub-divisional chart is not afflicted and lord is exalted, so very strong position.

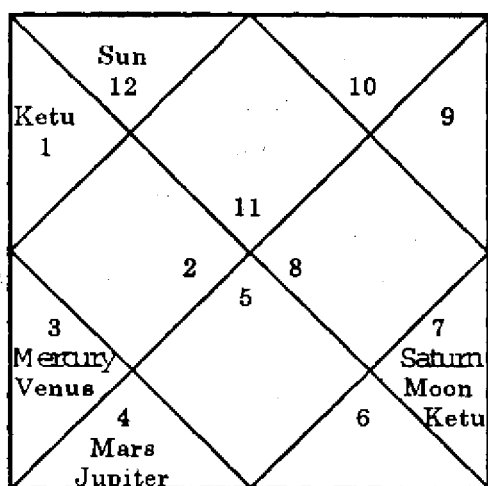

iii) The fifth lord is posited in fifth with Venus (lord of fourth and ninth) and no (malefic or benefic) aspect.

In **saptamsha**, the position is better than in the Rasi chart.

Conclusion : The native will be blessed with children.

III SAPTAMSHA means each sign is divided into seven parts. The counting will start from Aries (same sign), Taurus (7th sign from it) i.e. in case of odd, from the sign itself and in case of even, from the seventh sign. Each division has been given following names.

For odd signs the order will be :

- (i) Kshara (ii) Kshira (iii) Dadhi
 (iv) Ajyam (v) Ikshu (vi) Madya
 (vii) Shuddha Jala.

For even signs this order is to be reversed i.e. the (vii) will be (i) and (i) will be (vii).

The meanings and interpretations of these, seven parts of each are according to their names:

- i) Kshara (क्षार)– is troublesome, painful, unbearable.
 ii) Kshira (क्षीर)– is milk or nectar, meaning beneficial and soothing effects.

- iii) Dadhi (दधि)— Better than (ii) above, but softness, tenderness, delicate, adjustable, attractive, steadiness.
- iv) Ajyam (अज्या)— Ghee taken from cow's milk and used in yagna meaning purity, sattwick, will be religious, respectful, submissive and of sacrificing nature.
- v) Ikshu (इक्षुस)— represents sweet juicy things (sugar-cane, pineapple) gives sweet nature, strong and tough body, a good height to the native. He will be fearless and truthful in nature.
- vi) Madya (मद्य)— meaning drunken state, energy, delighted, pleasing, self contended, fun loving etc.
- vii) Shuddha Jala (शुद्ध जल) — It means he will be holy, pious, chaste, happy, innocent, simple, upright and genuine. He will have very good nature and will be happy.

If Saptamsa lagna lord is Saturn (as in this case) the native will be stupid, lazy, wicked and immoral. This being the fifth Saptamsa of Libra — the native will be lovely, efficient, proficient in many arts, learned, noble, sincere and attractive. He will have sharp features.

IV Effects of different Saptamsa Lords :

The Sun — The person becomes courageous, strong, steady, well behaved and well known for his qualities.

The Moon — He will be inclined towards religion gentle, pious, romantic and possess good qualities

Mars — Very strong, powerful, egoist, unbearable and full of vitality.

Mercury — He will be eloquent speaker, efficient, attractive, learned, poetic and skilled in arts and crafts.

Jupiter — The person will be talented, wise, meritorious, prominent and distinguished personality.

It will be possible for Taurus 2nd and 5th Saptamsha, Gemini last Saptamsha, Cancer's 3rd Saptamsha, Leo's 5th Saptamsha, Virgo's 1st Saptamsha, Libra's 3rd Saptamsha and 6th Saptamsha, Sagittarius 1st and 4th Saptamsha, Capricorn's 6th Saptamsha, Aquarius' 2nd and Pisces 4th and 7th Saptamsha only.

Aries and Scorpio have no such Saptamsha.

Venus — A romantic personality, sensuous, luxurious, fond of music, art and humorous person.

Saturn — The person will be dull, wicked, immoral, stupid and lazy.

V Each sign has seven **Saptamsha**. Their results cannot be the same. The reason is the characteristics of the sign of the **Rasi chart** and the sign of the **Saptamsa chart** in which it falls, all are to be considered. Such as :

i) **ARIES :**

First : Saptamsha will remain in Aries in Saptamsha chart. Hence the person becomes aggressive, quarrelsome, lean and thin, scanty hair and reddish eyes.

Second : Will have narrow forehead, large face, beautiful neck and eyes and dropped shoulders. (This will fall in Venus' sign i.e. Taurus).

Third : The native will be lean and thin with charming complexion, kind, learned and brave. He becomes eloquent speaker, good writer, a wanderer, sinful and lusty. (This goes to the sign of Mercury i.e. Gemini).

Fourth : He will be a preacher, possess gems and jewels. He will have a very good bathroom fitted with expensive perfumes. He has fair colour, large eyes and a pot belly. (This goes to the sign of the Moon i.e. Cancer).

Fifth : The person becomes brave, strong, has thick eyebrows, brown eyes, prominent forehead, sharp nose, big skull, long arms and copper complexion. (This goes to the sign of the Sun i.e. Leo).

Sixth : The native has big body. He will be attractive, fair, rich, intelligent and learned. He will be master in various subjects on which he can speak well. (This goes to the sign of Mercury i.e. Virgo).

Seventh : Will have dark colour, will be tall and big, slanderous, fearless and blunt. He is melancholic, will have scattered hair, rough nails and gaps in teeth. (This goes to the sign of Venus i.e. Libra).

ii) TAURUS :

First : The person will have big face, large

eyes, broad chest, prominent forehead, broad shoulders, scanty hair, short arms etc. (This goes to the sign of Mars i.e. Scorpio)

Second : The person has attractive face, soft body and attractive and big eyes. He has sensuous nature, sweet speech, skilled in art and sciences. (This goes to the sign of the Jupiter i.e. Sagittarius).

Third : He will have fair complexion, eyes like deer, soft hair, attracts females, romantic, eloquent speaker. (This goes to the sign of Saturn i.e. Capricorn).

Fourth : He will be fair, tall, rich, tough and will have bright eyes, long neck, high nose, pink nails (रक्त नखो) and broad waist. (This goes to the sign of Saturn i.e. Aquarius).

Fifth : The person will be sickly, greedy for other's wealth, harsh, has golden eyes (मृतदारो) and may loose his/her wife/husband. (This goes to the sign of Jupiter i.e. Pisces).

Sixth : The person has big ears and dark eyes. He will be tall, noble, progressive, efficient, proudly. He will face distress. (This goes to the sign of Mars i.e. Aries).

Seventh : His body will be lean and thin. He will be greedy, ill tempered, deceitful, unsteady and weak. He will be over talkative and brave. He has round face and dark expressive eyes. He will be fond of travelling. (This goes to the sign of Venus i.e. Taurus).

iii) Gemini :

First : He will be intelligent, good speaker,

Seventh : The person becomes judicious, evil minded, ill dressed, nasty, will have dry skin and an oblique nose. (This goes to the sign of Jupiter i.e. Pisces).

VI Manasagari

- (1) **If the saptamsha lord with the Moon/ aspected by the Moon/aspected by benefic planets** — The person will have brothers and many friends. He is of determined nature, aggressive and will be famous because of his qualities.
- (2) **Except the Sun, the strongest among the planets which is debilitated in saptamsha** — indicates the position about the brothers (Mars in this example chart).

- (3) **The planet which is in the last amsha and is in own, exalted saptamsha —** The native will be owner of vehicles, skilled in horse riding and driving Raath, brave warrior and will not have brothers.

For example : Mercury in Virgo, Venus in Pisces, Mars in Capricorn, Jupiter in Cancer, the Sun in Libra, Saturn in Aries etc. are exalted in Saptamsha.

- (4) **If all the seven planets are posited in exaltation/in the signs of benefic planets (SHUBH VARGAS) —** the native will be honoured by the king and will be owner of wealth, comforts and skilled in his work.

- (5) **If the Sun, Jupiter and Mars are posited in third house of Saptamsha —** the person will be rich and enjoy all comforts because of grace of Goddess Laxmi (VISHNU PRIYA) and Graha Laxmi. He will be the speaker of Truth and enjoy all comforts. He gets a son after the death of father.

If Venus, the Moon and Mercury are in third house of saptamsa — the native will get a daughter.

- (6) **If the planets are posited in exalted signs —** the native will be wealthy.

In the chart under discussion, Jupiter and Saturn are exalted, the Sun Uchchabhilasi and Mercury in own house.

If the planets are posited in

debilitated signs — the native will be poor.

In the same chart, Mars is debilitated, but the debilitation is also cancelled. The native is very rich, but miser.

Illustration :

In the chart under consideration :-

- (a) **The lord of Saptamsa is Saturn** — the person will be dull, wicked, immoral, stupid and lazy.
- (b) **This is fifth Saptamsha of Libra** — the native will be skilled in many arts, faithful to noble persons, attractive, have sharp features, efficient and lovely look.
- (c) **The saptamsha lord Saturn is with the Moon (But with Rahu too)** — The native will have brothers and friends, aggressive nature and will be known for her qualities.
- (d) **The strong planets are Mercury (own house). Jupiter (exalted), Saturn (exalted)** — the strongest can be Mercury (which is not afflicted) — This means the native will be honoured by king (but these planets are well posited), but all are in shubha vargas, she will have brothers and enjoy all comforts.

ACTUAL EVENTS

She is MBBS doctor, doing well in USA, has brother, self, 4 sisters, brother and 2 sisters married, has two sons (twins) and a daughter. She has enormous wealth.

VII For children Manasagari uses Navamsha also :

- (1) If the Moon is in the navamsha of Jupiter — the native will be wealthy, have sons, earns wealth by own sincere and pious efforts, respects visitors and is loved by all.
- (2) If Jupiter is in own navamsha — he will have friends, wife, wealth, sons, famous, glory and all sorts of comforts.
- (3) If the Sun/Mars/Jupiter are posited in fifth house of navamsha chart, the native begets one/three/five sons respectively. If the Moon/Mercury/Venus and Saturn are in fifth house — there will be two/four/six/seven sons.
- (4) If Leo becomes third house of navamsha chart, Jupiter and Ketu in fifth (Libra), Saturn in sixth and the Sun in 7th, Rahu in kendra and Mars in tenth house — The native never gets progeny (This is regarding Mithuna lagna).

Note : Rahu cannot be in kendra, when Ketu is shown in fifth.

- (5) If in navamsha malefic twelfth lord is posited in IX, VI, III or XII and combust Mars in fifth house — Native's sons will die.

or

If in navamsha malefic twelfth lord is combust or retrograde posited in IX, VI, III, XII or V — sons die.

- (6) In navamsha, the number of strong male planets posited in fifth or aspecting fifth, the native will have same number of sons. If the Moon, Venus and Mercury are associated

there will be daughters. If strong Saturn is associated or aspects the fifth, there will be abortion. (Some learned astrologers say that the position should be considered from the Moon).

The classical text while discussing the saptamsha have rarely talked about progeny.

VIII If we do use our method based on the classical principles on the chart under discussion, the results will be :

RASI CHART :

- (a) Mars is posited in own house. The lord of the fifth house is **Neechabhilashi** (weak) posited with the Sun (enemy) and the Moon. The fifth house is aspected by Mars, a male planet (lord of kutumba sthana and kalatra bhava). The lord of fifth Saturn is in own constellation (uttara bhadrapada), so very strong. In Jupiter's house, with the Sun who exalts in Mesha (cancellation of debilitation) with the Moon (cancellation of debilitation), though Saturn is still not debilitated. *The position of Saturn in own constellation and in Jupiter's sign is very favourable.* The association of the Sun and the sixth house position is troublesome. The aspect of Mars on fifth can also cause trouble.
- (b) The total effect of the four planets is on fifth house and fifth lord. The Moon is weak should be ignored. The native has three children.

IX In principle, the position is to be considered from the Moon, 5th from 5th i.e. ninth house and the fifth from Jupiter (karaka)

- i) **Fifth from the Moon** — Aspected by Jupiter. The lord Moon is weak and afflicted (four planet's effect).
- ii) **Fifth from the fifth** — The house is aspected by Mars. The fifth lord is posited in seventh with lagna lord (three planets).
- iii) **Fifth from Jupiter** — The fifth house has Ketu, the lord is posited in seventh (Aries) with Mercury. Mars and Jupiter's aspect on the fifth, (Four planets).

In navamsha, Jupiter is vargottama, Saturn is afflicted (in enemy's sign and aspected by enemy) and being posited with Ketu.

In saptamsha — The lagna lord Saturn is exalted. Jupiter (karaka) is exalted. The fifth lord in own house with Venus (lord of fourth and ninth). The position has improved. The ninth house has Saturn and the Moon.

The position of fifth lord Saturn in dual sign with a male planet the Sun, aspect of Mars on 5th house, which is a male sign. In navamsha, Saturn is posited in male sign and aspected by the Sun. The 5th from 5th is a dual sign and male sign (in rashi chart), aspected by Mars. The lord Mercury is posited in male sign. In saptamsha, the fifth house is again a dual sign, which is a male sign. The lord Mercury is posited in the fifth. This all indicates towards birth of a twin males.

In same way, the other bhavas and their respective vargas can be used for interpretations.

USE OF YOGAS

Some of the Yogas present in the chart are discussed as :

From the Sun :

- i) Venus and Mercury in the second house from the Sun cause *Vesi yoga*.

The native will be truthful, indolent, long bodied, happy and will not have much wealth (Parashara Hora).

The person will have outstanding personality, will speak cherished language, having powerful memory, enjoys sex pleasures, satwick nature, slow motion, first part of the body will be strong and has squint eyes (Manasagari).

In general he should be happy, liberal, favourite of king, prosperous. The position of **Venus** will make him famous, skilled, well established and brave. The position of **Mercury** gives him sweet talk, beautiful body, art of befooling others etc.

The **Phaladeepika** (of Mantreshwara) describes him a good looking, happy, meritorious, valiant, virtuous and like a king.

In Saravali, sage Kalyana Verma defines such person as a ruler of the land with three seas as its boundary. The results given above are truly applicable in her case, but the characteristics given in italics are very prominent in her.

From the Moon :

- ii) **Sunapha Yoga** — The native will be king/ equal to a king, will have self acquired property, will be respected and renowned for his intellectual ability. He will be rich and well reputed. (Sage Parashara).

He will become rich by his own earned wealth, will be king or equal to king, very intelligent, famous and wealthy. (Varahamihira).

Venus in second from the Moon, the native will have wife, fields, lands, houses, animals, valour, courage, honour from Kings, *beautiful clothes to wear, will be clever and intelligent.*

Mercury in second — the native will be *skilled in Vedas, shastras and music etc., poet, intelligent, always interested in doing good to others, handsome, beautiful and will have religious inclination.*

The yogas will give complete results or not. This is not possible because of the weak Moon. To some extent the results may be modified. The above italicised effects are seen in the chart under question.

- iii) Jupiter, Venus and Mercury in kendra from lagna (the Moon should also be) cause Rajalakshana yoga. The native will have attractive appearance, all good qualities, will command dignity, respect and regard.
- iv) Some of the learned astrologers say that **If the lagna lord and the lord of twelfth are in mutual kendras** (here these two are posited in seventh house), cause Parvata

yoga, the native will be wealthy, prosperous, liberal, charitable, humorous.

- v) **Maha Bhagya Yoga** : In case of female, the Sun, the Moon and lagna should be of even sign and the birth should be of night time. Here the Sun and the Moon are in even sign, but lagna lord is not. According to this yoga, the native will be blessed with long lived children, wealth and good conduct.
- vi) **Bheri yoga** : Venus, the lagna lord and Jupiter are in kendra from each other, the ninth lord Mercury is in seventh house (not weak). Here Jupiter is weak. The results of this yoga are that the native will be long lived, free from disease, ruler, various sources of income, happiness with wife and children, exalted soul, generous and religious.
- vii) Some more yogas (according to Manasagari):
 - (a) If Mercury, Jupiter and Venus are posited in **kendra** — the native will be religious, famous, calm, wealthy, educated, gentle and like a king or king (sloka 20 – Rajayoga chapter).
 - (b) If the lagna lord is in lagna, kendra, trikona or eleventh — the native will be of good character, owner of vehicles, skilled and will have all comforts. He will be in high position. (sloka 1).
 - (c) The position of Venus and Mercury in kendra bestows wealth, precious stones, vehicles, servants, garden having good fruits, will reside near the sea, will have

many friends and will speak truth. (sloka-7).

(d) **Jupiter in kendra** — It is said that all the planets put together cannot cause Arishta to the native. (sloka 9 page 295 of the commentary of Sh. Madhukant Jha).

(e) The Jupiter alone if posited in kendra or trikona gives results of **Rajayoga**.

(f) The position of Venus in kendra makes the native attractive, sexy appearance, loved by women/men, most able person among other people, long lived, skilled in many works, chief, wealthy etc. (sloka-11)

(g) If Jupiter is posited in kendra — the native will have beautiful spouse, golden colour, will be nicely dressed, wealthy, skilled in shastras, interested in music and dance for enjoyments. He may be lecturer of business management courses. He will have brothers and sons, stable minded, can do all sorts of works, self earned comforts and man of good actions (sloka-14). If Jupiter in kendra, unafflicted by malefics, the native gets respect, will be rich knowledge of arts, skilled in dance and music, lord of Ministers and master of knowledge connected with abinet, Parliament etc.(sloka - 2).

(h) If all the benefic planets are posited in benefic house identical to kendra - the native is always involved in pious and

auspicious works (*Manasagari and Vridhayavana Jatakam 57/13*)

- (i) If lagna lord is posited in kendra and strong — The native though born in a low family, will become a king. If he is son of a king, he would certainly become king. (sloka 79).
- (j) If the lagna lord is posited in a friendly sign or with a friend identical to third or seventh house — The native destroys the enemies and becomes ruler of the world

In this manner, each bhava needs to be studied. Each varga of Divisional chart is to be studied and interpreted as discussed above.

POINTS TO BE REMEMBERED FOR DYNAMIC CONFIGURATION :

For a clear analysis of the chart for accurate prediction, the delineation and dynamic configuration is very necessary. The main purpose and also the primary duty of an astrologer is to find out the position of "Prarabdha" from the natal chart (which I call the "Promise in the chart"). After this exercise comes the question about the timing of fructification of these events in life.

DYNAMIC CONFIGURATION - IN NUTSHELL

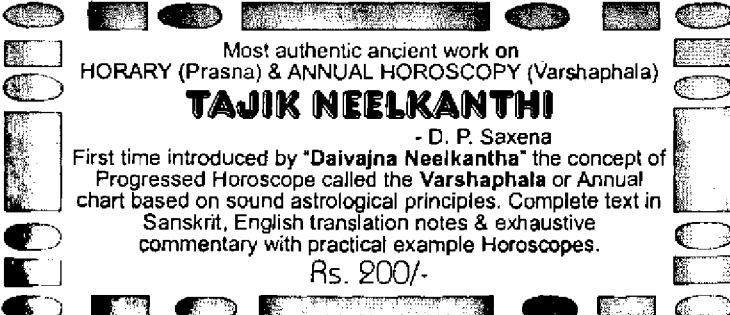

- (1) Bhava, bhava lord and karaka - study the positions of these three in detail as regard to twelve bhavas.
- (2) Locate the classical yogas present in the chart. The strength of the planets forming

these yogas, should also be considered.

- (3) To confirm these findings refer to the concerned divisional charts for further detailed study as shown in this book.

If the above points are borne in mind it would be very easy to know about the "Prarabdha". The next step is to find out the time of fructification of the event. Refer book JUDGEMENT OF BHAVAS & TIMING OF EVENTS, THROUGH DASA AND TRANSIT by the author.

Note : For counting the number of children the native will have, many techniques can be being used. Some are giving very good results. To enrich the principles I have shown the results applied on the chart discussed in chapter 1 (where the native had six deliveries and got two sons and four daughters. He lost younger son after six months and an eldest daughter after two weeks of their births. An another daughter at her age of 34 yrs.) and the chart discussed in this chapter.

CHAPTER 7

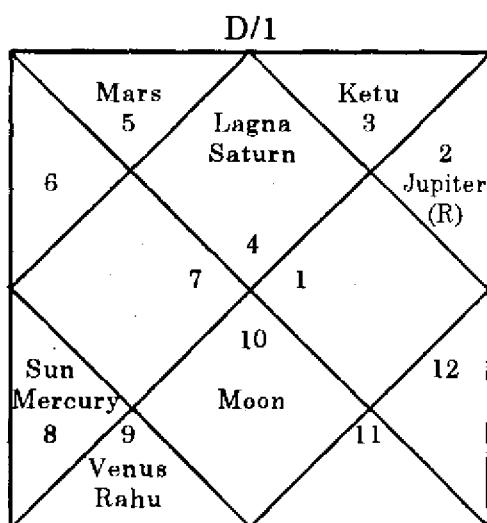

DEMONSTRATION

—RESULT ORIENTED

Question : Study the chart given below, offer a broad analysis of the native's nature, outlook, activities, success and failures?

Answer : The following horoscope of late Smt. Indira Gandhi, Prime minister of India is taken as an illustrative horoscope to answer the points raised in the question.

		Jupiter(R) 15-03	Ketu 10-33
	<i>19-11-1917</i> <i>at 11-15 pm</i> <i>Allahabad</i>		Lagna 27-55 Saturn 21-48
Moon 2-39			Mars 16-25
Venus 21-02 Rahu 10-32	Sun 3-54 Mercury 13-16		

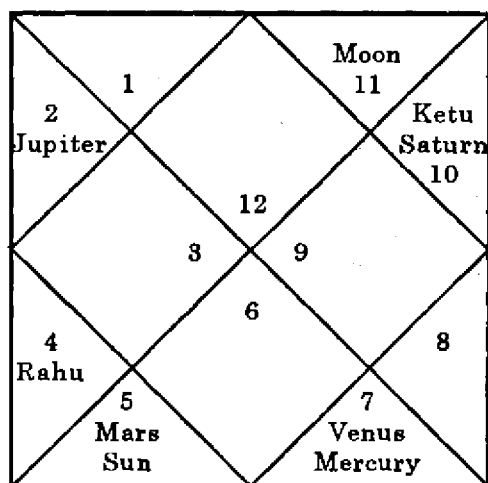

Nature : The nature of a person depends upon :

Mansa (Mind or heart) : The feelings, ideas, ambitions to get something in life, to serve or to loot others, greediness, cruel nature, soft or any other type of thoughts grooming in mind are indicated by 'Mansa'.

These all depend upon the physical structure and the position of mind of the native.

Lagna		Jupiter	
Moon	D/9		Rahu
Ketu Saturn			Mars Sun
		Mercury Venus	

D/9

The knowledge about these can be obtained through astrological principles. **Lagna, Lagna lord, the Moon, the Moon sign lord and the Sun** are the astrological factors to be analysed to find out the results.

Vacha (speech) : The nature of the person can be known from his speech. The man can get favour of other people or can annoy them with his manner of speaking. In astrology, **the second house, lord of the second, planets aspecting or posited in 2nd etc. and Mercury** give the details about the speech of the native. The speaking indicates/reflects the nature and character of the person.

Karma : The action of a person reflects on his nature and character. A cruel person will take entertainment in harassing others. The tenth house, lord of the tenth house and planetary influences on them indicates the actions of a person.

For knowing about the nature of the person, the analysis of the above houses is necessary.

Outlook : The outlook can be reflected by the actions, arguments, manner of expressing the views before others and comments of the native on views of others. It is a mixture of what has been discussed above, in addition, the effects of **fifth house, fifth lord and their PAC with other planets** are indicators of this point. Fifth house is planning, intentions, education etc. These all help the native in forming an outlook of his own.

Activities : These can be professional or social or both. The hobbies also come under this. The activities are controlled by the nature, outlook and ambitions in life. In addition to the factors discussed earlier, the analysis of the tenth house, tenth lord and karakas for the tenth house also play an important role.

Success and Failures : The success of a person depends upon his nature, outlook and activities. *"As you sow so shall you reap."* If any work is started after proper planning, care, sincerity and devotion, the results are bound to be achieved. *Well Begun is Half Done.* In astrology, **Muhurta** (Election of a auspicious time) is available to guide in such matters.

It is said *"Man is the maker of his own fortune"*. The success of the person depends upon his actions.

According to the **Karma theory**, the soul while entering this physical body brings along the results of the past births known as **Prarabdha**. These are to be enjoyed or there will

be sufferings because of the past karmas. We can say that results for the auspicious (good) and inauspicious deeds are destined to happen during the lifetime.

Karmanyevadhikaraste Maa Phaleshu Kadachanah

The native has a free will to do karma, but the results are not in his hand. This advice helps the native to do hard work sincerely and devotedly. If he gets the favourable results he will be happy otherwise he will be disheartened. He should leave the results to fate or God. To do "**Karma**" is the duty of the human being. Sage Tulsi has described that the entering of the soul into physical body (as a human birth) is called "**karma yoni**". The soul enjoys the good results and suffers the bad results through this physical body.

In astrology there are principles, that indicate the "**Prarabdha**". The proper analysis of the horoscope and delineation of chart will reveal the future of the native.

Once the "**Parabdha**" (promises) are known, the fructification of the results can be found out. For timing the events, the order of the dasha and transit play a major role. If a person gets dashas which are auspicious or yoga karaka planets, there will be good results and the native will prosper in life. He will get all his ambitions fulfilled. If the dasha is of an inauspicious planet and followed by the similiar planet's period, bad results and "**Arishta**" will be experienced.

The person gets results according to his actions done in past births together with the karmas in this birth. There is a saying "As you

sow so shall you reap", which is found to be hundred percent correct.

In astrology, the analysis, in addition to astrological points discussed above, 5th, 9th and 10th houses reveal the successes or failures. If we study the chart of Smt. Indira Gandhi and apply the above views, the position will be :

1. The following yogas are present :

- a) The Moon is in the third from the Sun, the financial position of the native will be best.
- b) **Anapha Yoga** – One born in this yoga becomes a king, be free from diseases, virtuous, famous, charming and happy

— Sage Prashara.

The person will be powerful, will enjoy good health and will have sweet temperament. He/she will be famous and all worldly comforts will be enjoyed by him/her. He/She will be contended, happy and well dressed

— Mantreshwara

The native will be strong, capable, will have sound body, will be gentle, famous, will have worldly comforts, will be fond of wearing beautiful garments

— Varahamihira.

These are the general effects of this yoga. The book Manasagari has further clarified according to the planet posited in 12th house.

In this case Venus is posited in 12th, the results indicated are —

The person will be in the company of other sex, faithful to king and will have cows. The native will be very beautiful/handsome and will have immense gold.

- c) **Vesi Yoga** — Venus is posited in 2nd house from the Sun.

The person will be even sighted, truthful, indolent, long bodied, happy and will not have much wealth

— Parashara.

The native will possess outstanding personality, will speak cherished language, will have powerful remembrance, interested in enjoyment and sexual pleasures. He has slow motion, satwik nature, his first part of the body will be strong and have squint in eyes.

— Manasagari.

This yoga makes the person happy, prosperous, liberal and a favourite of the ruling class. The position of Venus in the second from the Sun indicates that the native will be famous, skilled, well established, very brave etc.

- d) **Maha Bhagya Yoga** — If the native is a female, in such cases, the birth is of night, the lagna, the Moon and the Sun are all the three in even signs (Cancer, Scorpio and Capricorn), this yoga is formed.

The native will have immense popularity in public, will be generous in giving gifts,

well reputed King/Queen and will live upto 80 years of age. She died at the age of 67 (may be because of accidental death, the span of life became short). The native has spotless character, fortunate, good qualities and sweet manners.

- e) **Pushkala Yoga** — Lord of sign of the Moon in kendra and associated with lord of lagna. In this case the Moon sign lord Saturn is posited in lagna and aspected by lagna lord the Moon.

The native will be wealthy and have sweet speech. He will be famous, honoured by king or will be a king.

- f) **Budhaditya Yoga** — Sun and Mercury posited together, results in making the native, highly intelligent, skilled in many works, good reputation, personal respect, will enjoy all comforts and happiness.

- g) **Shankha Yoga** — The lord of 5th (Mars) and 6th (Jupiter) are in mutual kendras and lagna lord (the Moon) is powerful (being of shukla paksha) and involved in exchange and aspected by 9th lord Jupiter.

The native will be fond of pleasures, of humanitarian nature, blessed with wife/ husband, children and lands, good deeds, skilled in sciences and live upto an old age.

There may be many other such yogas out of the hundreds of yogas given in the

classical texts, which are applicable in this chart. Some of the common yogas have been discussed here.

From the above yogas, it transpires that the native is born with promises for bright future. Whether these will give fruits or not, if so, when it can be known from the order of the *dasa*.

2. Rajayogas : These Rajyogas will make the native entitled to royal honours.

येषां विज्ञानमात्रेण राजपूज्यो जनो भवेत् ।

(a) Lords of Kendra and Trikonas —

Mars is the lord of 5th (Trikona) and also of 10th (Kendra) so has become **Yogakaraka**.

(b) Exchange of houses by lords —

(i) Jupiter (6th lord) and Venus (11th lord), there is exchange of 6th (enemies) and 11th (gains). This shows that the native will rise and get better results because of enemies.

Also there will be strong opposition by enemies because of 6/8 position of 6th and 11th lord. Which will sometimes give crushing defeat to enemies and also the native will suffer defeat some other time. This all will depend upon the *dasa* period. The lord of 11th Venus is in its own constellation and own *navamsha*, means strong and Jupiter is in the *navamsha* of Venus which shows the native will be victorious.

A few jolts may be disastrous for her because Jupiter (lord of sixth) is retrograde and has

become strong.

(ii) **Exchange of lagna lord (the Moon) and the seventh lord (Saturn).** The exchange of I and VII shows marital discord (either you or I mentality i.e. ego may cause this problem). The Maraka has occupied lagna and lagna has become Maraka. The native will be self responsible for her death. This exchange is also "Ari Hanta" (destroyer of enemies or crushing opposition), which makes her victorious.

(iii) **Exchange of 5th lord (Mars) and 2nd lord (the Sun).** A very powerful exchange to give rise to self and children. Financial gains, reputation and good fortunes are promised. If afflicted such yogas are also seen giving very bad results, as happened in her life.

Each birth of a child will give rise to the native i.e. financially and position wise better period will be enjoyed.

The position of 2nd lord in 5th and the 5th lord in 2nd shows that the 'Santan' (children) will bring prosperity to the native and also become "Maraka" or they will be benefited after death of the native.

One son died, she became PM second time. She died and after that another son occupied her place.

(iv) **The association of lagna lord, the Moon (lord of Trikona) and seventh lord Saturn (lord of a kendra) aspecting each other and in kendra from each other form a**

Rajayoga. (These have given two Rajayogas: one because of exchange and other being association of kendra and Trikona lords). A powerful Rajayoga that too in lagna. This makes the native energetic, impressive, victorious, popular among masses etc.

(v) The association of Jupiter (lord of 9th) and Sun (lord of 2nd) connecting 11th and 5th houses is very good for financial prosperity. There is connection between Jupiter and Venus because of exchange of house i.e. also taken as connection of 11th, 9th, 6th, 5th and 2nd. The aspect of 5th lord on 2nd lord and also their exchanged places, show a very good financial position.

The involvement of 2nd, 5th and 9th shows that the native will be a good orator, skilled in impressing others and getting admiration from others.

The native born in Uttara Asadha nakshatra will be a donor, kind hearted, victorious and polite. She will do pious deeds. The native will be a capable person. The native will get happiness from wife/husband and children and will be beautiful and proud.

The lagna is in Ashlesha nakshatra meaning that the native will be an aimless wanderer, cruel, unnecessarily cause trouble to others, will do expenditure on wrong things and will be sexy. (According to Jataka Bharanam).

Lagna and lagna lord, both will give the effects on native making her minister, energetic, having benefic of beautiful

conveyances, devotee to God, having glamour on face, courageous (U. Asadha) and Ashlesha will give nature of capturing others' wealth and user of/dealer of poison, snakes etc. or a physician, according to Varahamihira's Varahi Samhita.

According to this she must be having effect of these two nakshatras and also the effects of Saturn prominently in her nature. The Moon in Capricorn makes the native admirer of wife/husband and children, pretending charity, lean buttocks, grasping intelligence, popular, idle, not able to bear cold, traveller, strong or liberal, poet, learned, miserly, incestuous and with low person, intercourse shameless and merciless. (Brihat Jataka Chap. XX Sts. 5).

According to Vridha Yavana Jatakam (Chapter 59 Sloka 41) Cancer lagna means that she should be beautiful, possessing wealth and properties, abide by rules, reasonable in her approach, loved by her kins, good moral and character, glamorous personality and will have all comforts of life.

The same author (in chapter 60/sloka 10) says that the female native who has the Moon in Capricorn has big teeth, brave in nature, beautiful and lovely behaviour, well educated, believer in truth, disciplined life, abide by rules and capable of destroying the enemies.

The same author (in chapter 61/sloka 21) says that the lady born in U. Asadha, will

be beautiful, pleasing personality, soft speaking, famous in the country/world, acquires various types of comforts, contended in life, will become chief and beloved of husband.

The position of Sun in fifth house (chapter 62/sloka 5) makes her mother of few sons, she will be keeping fasts and abide by religion and social norms in practical life, will be head or chief in society, will have thick teeth, broad face, devoted to parents, sweet and attractive speech and worshipper of Brahmins and learned people.

In same chapter in sloka 41, it is further said that the lady who has Mercury in the fifth house will have few sons, scarcity of wealth and food, will take interest in quarrels, aimless wanderer, will destroy all works, comfortless and will oppose learned and gentle people.

Note : The position of Sun and Mercury in fifth as described above shows that she will be wise, intelligent, interested in company of Brahmins and learned people on one hand and on other fond of quarrels, selfish, hence oppose learned and gentle people for fulfilment of her own desires.

The position of Mars in the second house (sloka 26) makes the native characterless, non dutiful wife, will be older to her husband or will dominate the husband (meaning marital discord) very sexy, will not have self earned wealth and face physical distress.

Jupiter in 11th (sloka 59) she has many subordinates or maid servants, gentle and serious nature, will do commendable deeds and dynamic things and will always like to listen to her appreciation.

Venus in 6th (sloka 66) makes her jealous, very angry in nature, victorious over enemies and will be opposing husband or sons.

So the Saturn (sloka 73) in lagna makes her ugly, hard working, defame the native, will be having big teeth eyes and prominent features.

The study of the sign of lagna, nakshatra, the Moon sign, nakshatra of birth, position of planets in different signs give a picture of the native's nature, outlook and activities in life. Due to combinations of these, the native gets inspiration to do something in a manner to fulfil the desires in him.

This does not mean that one will get every thing desired by him. *The success or failures depend upon the planetary positions, their mutual aspects, position and relationship forming yogas. The fructification of the results shown by these yogas can be timed by the dasas.* If the favourable dasa for the fructification of the result of a particular bhava and yoga come at a proper time it gives the native a position, status, comforts, wealth, prosperity and fulfilment of desired results. Say there is a promise of marriage

but due to afflictions and also not getting a proper dasa of a favourable planet at the proper time, the native does not get results. Either such dasa fall in early life or in the old age, in which case the native may have only companionship or that too will be missing. It is seen in most of the cases, that persons suffer during three fourth of life, but get financial prosperity in the last quarter of life, when they do not have health to enjoy the comforts. There are cases where people have all comforts of life, but themselves not in a position to enjoy these comforts. Only see others enjoying the fruits of their hard work.

In the case under discussion, the lady was not highly educated, but was respected as the most learned and intelligent one in the later half of her life.

She lost her mother early in 1938. The period of Mars Mahadasa (which is posited in 8th from the Moon and is second and 7th lord from 4th house gave this blow) She lost her father on 27th May 1964 and herself came to cabinet on 10th June 1964 and became Prime Minister in Jan. 1966. Jupiter/Venus period (Jupiter 9th and 12th lord from 10th house and posited in 2nd and also in seventh from Sun (karaka of father and tenth house). Venus lord of 2nd and 7th from 10th house and posited in ninth from tenth, in 2nd from the Sun with Rahu in marakasthana) took away her father. Jupiter/Venus period brought her into cabinet, Jupiter/Sun made

her Prime Minister of India. Jupiter, the lord of 9th aspected by the Sun and Mercury posited in 5th, Sun has exchanged house with Mars, a very powerful Rajayoga (the Poorva Janama Punyas i.e. the yogas present in the chart are due to prarabdha which fructified). Sun's position in kendra from Jupiter. (The planets posited in kendra from any bhava enhance the strength of those bhavas). Here the bhavas 9th, 11th (Jupiter), 2nd, 5th (Mars and Sun) became stronger and the good results achieved by the native.

I have tried to express my views in limited words. My aim is to introduce a simple method for a scientific and an effective approach to delineate the horoscope and to do dynamic configuration to extract the results from the combinations of planets and their positions in the birth chart, through the classical principles given by the sages and learned astrological savants. Whatever, I could learn from my great teachers, I have submitted before the readers.

The readers may accept my services to this great science. I request them to send their views, to improve this work and also for the sake of improving the quality of astrological works. I am a humble student of Astrology who is very keen to learn this science. On the basis of my experience as a student of astrology, I have submitted my views before the readers with the hope to get more guidelines.

ANNEXURE

The Dreshkona is employed to acquire information about the nature, characteristics and fortunes in general, The period of illness and recovery are also indicated as per the owners of the dreshkona (Brihat Jataka). The form of the thief can be described (Prithuyasas & Shat Panchasika).

I Position of the Moon :

- (i) The position of the Moon in signs and dreshkonas of other planets would give medium results. If in the dreshkona of a temporal enemy, the results will be of lowest order. If the dreshkona occupied is 'Sarpa' the native becomes aggressive. In case of the Moon being in the "Udyat Aydha", the native will have no hesitation in attacking others by weapons. If the dreshkona occupied is Quadrupped, he will develop sex relations with wife of his teacher. The native wanders much in life if the dreshkona happens to be of 'bird'.
- (ii) The lord of dreshkona in which the Moon is posited, if aspected by a benefic planet, gives auspicious results. Similar is the case with lagna.

— BRIHAT JATIKA Ch. 21/6

II Travelling Results Depend upon :

- (i) At the time of travel, the dreshkona of the rising sign will decide whether the journey will be comfortable and fruitful or not. The nature of dreshkona owned, occupied or aspected by benefics signifies flowers, pearls or precious stones. If this dreshkona is occupied, owned or aspected by malefics, the journey will be useless and uncomfortable. If the nature of the dreshkona is serpant, the travelling will cause great physical troubles.
